Mr. Crill, Chairman of the Committee on part of Senate to visit the State Normal School at DeFuniak Springs, submitted the following report:

Senate Chamber,
Tallahassee, Fla., May 10, 1905.

Hon. Park M. Trammell,

President of the Senate:

SIR—Your Joint Committee appointed to visit the State Normal School at DeFuniak Springs, respectfully submit the following report:

We visited the State Normal School at DeFuniak Springs April 22, making as thorough an investigation as possible.

The buildings consist of:

A one story building containing hall 30x70 feet and four recitation rooms 30x30 and two 25x25; the library is also in this building.

The gymnasium building and model school building.

The former model school building is now used as an office for the principal.

The dormitory for young women, a two story and a half building. A large and much needed dining room has been added to this building since the last session of the Legis-

lature. This needed improvement is much appreciated by the students.

A dormitory for young men of twelve rooms; this building is not well adapted for the purpose for which it is used.

A small building used as a manual training school.

The school buildings are all in good repair except the boy's dormitory. Fences need to be repaired or built anew.

We visited the class recitations and were much pleased with the thoroughness of the instruction given and the enthusiasm of the students, who are fully alive to the advantages to be derived by a full course of instruction in the State Normal School.

The enrollment this year is 140. Of this number, sixty-six per cent have taught.

The influence of the State Normal by reason of the thoroughly equipped teachers they send out, is far reaching in its results.

While the State should foster every educational institution in the State, it is particularly fitting that the State Normal School should have every encouragement and facility at their disposal for the fullest and most efficient instruction of the teachers they are preparing for their chosen profession.

A thoroughly and fully equipped normal teacher by reason of the thoroughness of the instruction received, is better fitted to impart instruction than a teacher who has not had a course of normal training.

We recommend that graduates of the State Normal School at DeFuniak, who receive diplomas of graduation, shall be entitled to and receive a first grade certificate and that such diploma shall be accepted in lieu of an examination for a teachers certificate.

A kindergarten training department has been maintained for the past two years and we recommend that this be made a regular department and fully equipped. The environment of the Normal School at DeFuniak is of the very best. There is no town in the State so well situated for the location of a normal school. The location is high, dry and healthy. In the winter a fine course of lectures is delivered at the Chatauqua, located at DeFuniak, which is 45 S. B.

of great advantage to the teachers in attendance on the normal.

The water supply, while abundant at the spring, is inadequate to the needs of the school by reason of the lack of power. We therefore recommend that another hydraulic ram be purchased and installed.

We gave the needs of the school careful consideration. We recommend that additional land be purchased on which to build the young women's dormitory, and that the present young women's dormitory be used for the young men.

We therefore recommend:

For the purchase of land	\$ 3,000 00
For young woman's dormitory.....	20,000 00
For furnishing the same	5,000 00
For building and repairing fences.....	250 00
For improving the water supply.....	250 00
For books for library 1905 and 1906.....	1,000 00
For physical and chemical apparatus 1905-6..	1,000 00
For scholarships 1905 and 1906	4,500 00
For scholarships 1906 and 1907	4,500 00
For manual training department 1905 and 1906	1,000 00
For sundry repairs and kitchen appli- ances	1,000 00
	<hr/>
	\$41,500 00

The above requirements are necessary to properly carry on the work of the school and meet the demands of the students in the State who wish this course of instruction.

A main building should be provided for at an early date as the State is in a financial condition to do so; costing not less than \$40,000.00

This land should be bought now and is embraced in the estimate made for the purchase of land.

E. S. CRILL,

On part of the Senate.

J. L. SMITH,

ERNEST P. ROBERTS,

On part of House.

By permission—

Mr. Clarke, Chairman of the Committee on Railroads,
