Whereas, The improvement and development of our rivers and harbors to meet the ever increasing demands of the commerce of the country, both coastwise and foreign, is not only the duty but the proper function of the Federal Government; and

Whereas, The harbor of Fernandina, Florida, by reason of its geographical situation as being very near ocean deep water is one of the most important harbors in the country; and

Whereas, The Port of Fernandina, although it has been greatly improved by the Federal Government, needs further improvements, so as to give a channel depth of not less than 26 feet at low water from the bar to Lanceford Creek, with suitable width and turning basins and

Whereas, The jetties located at the entrance to harbor of Fernandina are in need of repair; therefore,

Also—

(Senate Memorial No. 5):

Whereas, The construction of a canal from Cumberland Sound, Georgia, to St. Marks, Florida, would be of untold advantage to the commerce of the nation and the Americas; and

Whereas, By the routing of such a canal up the St. Mary's River and thence in a direct line to St. Marks, Florida, (on the Gulf) would entail the digging of only about 100 miles of such canal; and

Whereas, The construction of this canal would reduce the haul from the Southeast and the Southwest of all commerce going to Europe, South and Central America, over 500 miles; and

Whereas, The construction of this canal would cut 460 miles from the Seaboard Coast Line to the ports of the Gulf, and in time save the destruction of billions of dollars of shipping by avoiding the dangerous Florida Straits; and

Whereas, The cost of the construction of this canal would not compare with the benefits to the general commerce to be gained therefrom; therefore, etc.
