Such tolerance, however, shall not be applied until after the calculations of the tests are completed and the definite ratio of parts of total soluble solids to each unit part of anhydrous citric acid is determined. Where the total soluble solids of grapefruit is between 8.3 per cent and 8.5 per cent the factor of tolerance shall be interpreted as two-tenths of one per cent, or so much thereof as may be necessary to bring the total soluble solids of said grapefruit to 8.5 per cent. In all cases where the total soluble solids of grapefruit is 8.5 per cent or greater the factor of tolerance must be applied only to the ratio of total soluble solids to anhydrous citric acid after said ratio has been computed on the basis of parts of total soluble solids to each unit part of anhydrous citric acid. In such case the factor of tolerance shall be interpreted as two-tenths of the unit used in said ratio representing the unit part of anhydrous citric acid, and it shall be applied by adding said two-tenths of said unit to the numerator of the ratio, being that part of the ratio representing the parts of total soluble solids. In cases where the total soluble solids of grapefruit is less than 8.5 per cent but where the factor of tolerance is not entirely used in bringing the total soluble solids to 8.5 per cent, the unused balance of said factor of tolerance shall be applied as in other cases only to the ratio of actual total soluble solids to anhydrous citric acid after said ratio has been computed.

Orlando, Florida, May 1, 1929.

*Hon. J. T. Diamond,
Sec'y State Plant Board,
Tallahassee, Florida.*

Referring to telegram from Chairman Board of County Commissioners St. Lucie County, dated April Twenty-fifth, addressed to the Governor and referred to Newell by mail: This matter already taken care of by Plant Board, Rule Forty-two, which prohibits all movements bulk fruit by truck except from grove to packing house for shipment under certificate. Any legislation giving County Commissioners authority to impose quarantines as proposed would probably nullify present Plant Act; and even if not, would lead to endless conflict and confusion with consequent serious effect on eradication work. Supply copies this immediately to Governor, Parrish and Getzen.
