EXPLANATION OF VOTE.

I vote "aye" because the building of a system of through State highways as contemplated in the Acts of 1923 and 1925, creating the first and second preferential list, has been destroyed. This plan could only be preserved by refusing to place thereon or authorize the State Road Department to construct any roads not thereon until the completion of this system. When roads have been placed thereon it is unfair to keep any road off of the list. We thus return to the system prior to 1923, when roads were built without reference to any through system of State highways, according to political pressure from various communities. I deeply regret the destruction of the system of through highways and have consistently fought against the same but it having been destroyed I must vote to give authority for any road where request is made.
