Sir:

I am directed by the House of Representatives to inform the Senate that the House of Representatives has adopted—

By Mr. Sapp of Bay, Mr. Stone of Gulf, Mr. Rehwinkel of Wakulla, Mr. Trammell of Calhoun, Mr. Laney of Washington, Mr. Edney of Okaloosa, Mr. Brannon of Walton, Mr. Teague of Franklin—

House Concurrent Resolution No. 16:

WHEREAS, the United States Government has heretofore allocated and expended the necessary moneys to procure an economic survey to determine the feasibility of construction by dredging and with locks and dams an Inland Waterway on the Chattahoochee River in Georgia, at least as far north as Columbus, Georgia (and if deemed practical to Atlanta, Georgia); Also on the Apalachicola River connecting with channel into St. Andrews Bay, and on West to Choctawhatchee Bay in Florida for a Channel 9 feet in depth with 100 feet bottom width, for use of self propelled barges and to complete the project as far as it is not already provided for from New Orleans, La., to Columbus, Ga., or beyond to Atlanta, said Inland Waterway being already provided for and nearing completion from New Orleans to Pensacola, Florida; and,

WHEREAS, a very reliable economic survey was made for the Waterway Committee of Columbus, Ga., by former Chief of U. S. Army Engineers, William M. Black and his associates, Charles A. McKenney and John Stewart and a very complete and exhaustive report made by them and delivered to U. S. Army Board of Engineers, showing in detail that the contemplated improvement to Canalize the Chattahoochee and Apalachicola River system would result in a net saving of the sum of \$647,371.73 per annum; and,

WHEREAS, said report was made about May 1, 1929, at which time small trees in that section were considered practically worthless and given little consideration as the paper making industry had not yet started in that locality but is now being carried on, on St. Andrews Bay at Bay Harbor, Florida and using 180,000 cords of paper wood a year, one third of which is brought through canal from Apalachicola River into St. Andrews Bay on Barges; and,

WHEREAS, on May 2nd, 1933 a hearing was had at Columbus, Georgia before the U. S. Army Board of Engineers on this river project, and much data presented to further increase and add to the amount of annual net saving shown in the very valuable report of Black, McKinley and Stewart and to the extent to show an annual net benefit exceeding a million dollars; and,

WHEREAS it is shown in the report mentioned and at said hearing that the construction and use of this waterway would give a vast amount of employment and increasing and permanent benefits, including among other things, millions of dollars to be paid to many farmers and land owners for wood, for employment cutting it, for hauling it to barges, for barging it down to tide water where it can be profitably used by reason of ocean rates for shipment to its destination, after being manufactured into paper or paper products, at or near Panama City, Florida; and,

WHEREAS, it is conservatively estimated that on 6,000,000 acres of land in easy trucking distance of river there is an average of 3 cords or 18,000,000 cords weighing 50,000,000 tons and sufficient for operation of a paper mill such as the Southern Kraft Paper Mill at Bay Harbor, now using 180,000

cords a year, for 100 years. Furthermore the annual growth of the small pine or account of reforestation would be at least 450,000 cords or 1,260,000 tons; and,

WHEREAS, it is believed that this project should soon be reported to the Public Works Committee now arranging the Public Works Program for President Roosevelt and that this system of Waterways is one of the most worthy projects in the United States.

NOW THEREFORE, BE IT RESOLVED by the House of Representatives of the State of Florida, the Senate Concurring:

That the Public Works Committee of President Roosevelt, the Federal Bureau of Public Works, our Senators and Congressmen in Washington, and President Roosevelt are hereby urged and requested to use every effort at their command to allocate funds to and for the immediate consideration of canal suitable for the operation of self propelled barges for the completion of the Inland Waterway from New Orleans, Louisiana to Columbus, Georgia or beyond to Atlanta, as the case may be.

BE IT FURTHER RESOLVED, that a copy of this resolution be forwarded by the Secretary of the State of Florida under the Great Seal of the State of Florida in due form to the Congress of the United States, and the several members thereof from Florida, and to President Roosevelt.

And respectfully requests the concurrence of the Senate therein.

Very respectfully,

FRANK WEBB,

Chief Clerk House of Representatives.
