EXPLANATION OF VOTE

I think this is the most important problem before us. I am in favor of an appropriation of seven and one-half million dollars (\$7,500,000.00) or more if necessary to adequately finance our schools. We all realize that because of increasing tax delinquency, there will be an alarming shrinkage in local ad valorem tax revenue. Therefore, the important part of legislative action is to first provide the revenue. Making an appropriation when the money to meet it has not been provided, is not only a vital but a tragic gesture. That mistake was made two years ago and I have been determined that we do not repeat it.

To this end I introduced a bill which if passed, would take three and one-fourth million dollars (\$3,250,000.00) of gas money now used to pay bond interest and divert this money for school purposes. This in addition to other revenue would provide for a State appropriation for schools of eight million dollars (\$8,000,000.00).

To vote for the present seven and one-half million dollar (\$7,500,000.00) bill would merely mean to fool the people which I will not do. The Governor has assured me that he would be glad to see and would not veto a bill appropriating \$7,500,000.00 or more for schools provided the money is made available.

M. O. HARRISON,

EXPLANATION OF VOTE

I vote no because the 1931 Act is a continuing appropriation, and because an item of \$7,500,000 is carried in the appropriation bill now on its way to enactment, thus affording an opportunity to all members to vote for this appropriation out of the General Revenue Fund, and to give the same preferred standing.

D. STUART GILLIS.

EXPLANATION OF VOTE

I vote no on this bill, owing to the fact that the Governor has stated that should this Legislature pass a bill appropriating more than \$5,500,000.00 for free public schools that he would veto the same. At this late hour I feel that it is necessary that some legislation pass this Legislature which will be approved by the Governor in order to maintain the free public schools of our state and at the time of the passage of this bill I have failed to ascertain or find where there will be available revenue to support a \$7,500,000.00 appropriation for the public school system of our State; should an appropriation of \$5,500,000.00 be appropriated I still fail to see from what source we will receive sufficient revenue to comply with the provisions of either a \$5,500,000.00 or \$7,500,000.00; therefore I vote No.

J. B. STEWART.

EXPLANATION OF VOTE

Senator Hodges vote on explanation to the Journal on Senate Bill No. 254 as follows:

We vote no on this bill because no such an amount of money is available and to merely appropriate it is an idle gesture; to appropriate five and one-half million instead of seven and one-half would have meant, in our opinions, appropriating a sum which could have been provided and the schools knowing definitely how much they could get could have arranged their budgets accordingly but thinking they would get more than they can possibly get from present available sources of revenue would only throw the school system into confusion and do more harm than good.
