SECTION 2. All moneys received by the institutions under the management of the State Board of Control and the Board of Commissioners of State Institutions other than from State or Federal sources, are hereby appropriated to the use of the State Board of Control and the Board of Commissioners of State Institutions, for the respective Institutions collecting same, to be expended as said Boards may direct and said moneys shall not be deducted from the sums otherwise appropriated by this Act to said Institutions.

SECTION 3. The State Board of Control is hereby empowered to fix and collect fees for materials, correspondence study and extension teaching and expenses incident thereto, through the General Extension Department; and it is expressly provided that all such fees so collected by the said Board of Control shall not affect the State Appropriation or be deducted therefrom, and they shall be used only for the purposes for which they are collected, and said fees shall be deposited for accounting, with the Comptroller of the State of Florida, who upon the order of said Board of Control, shall draw his warrant or warrants on the State Treasurer in payment for the said materials, correspondence study, and extension teaching and expenses incident thereto. In its Biennial report the Board of Control shall make report in detail of the expenditure of said funds, together with a report of the work done.

SECTION 4. Any sum or sums appropriated for salaries, if not required for such purposes, may be applied to other necessary and regular expense of the department to which they are appropriated, but in no event shall any sum or sums specifically appropriated for expenses be applied to salaries, except, that day labor shall be construed as coming within Necessary and Regular Expenses. Any sum paid out under this Act or any other Act from the monies appropriated herein shall be by State Warrant drawn by the Comptroller and countersigned by the Governor upon the State Treasurer, payable to the ultimate beneficiary; provided that this requirement shall not apply to any funds appropriated for the State Board of Control or to funds appropriated for institutions under control or management of the State Board of Control.

SECTION 5. That any moneys appropriated by this Act for a designated period which, at the end of such period, remain unexpended or not contracted to be expended, the said unexpended balance may be used for like purposes in the second year of the biennium, but whatever balance remains unexpended or not contracted to be expended at the end of the biennium, the same shall revert to the fund from which appropriated; provided further that any unexpended surplus money remaining to the credit of any Board or Commission from the moneys appropriated herein, as shown by the records of the Comptroller, at the end of each biennium, may, upon recommendation of the Comptroller, with the approval of the Governor, be transferred to the General Revenue Fund; provided, however, that no funds appropriated for use by the State Board of Control, or for Institutions under the control or management of the State Board of Control, shall be transferred to the General Revenue Fund or in anywise be affected by the preceding proviso.

SECTION 6. Federal money appropriated by the Congress of the United States to be used for State purposes, whether by itself or in conjunction with moneys appropriated by the Legislature of the State, is hereby re-appropriated as far as it may be necessary to the purpose for which same was made available and insofar as the same is permitted by the Federal Statutes.

SECTION 7. Any Section of this Act, or any special item of appropriation herein contained, if found to be invalid or vetoed by the Governor without over-riding action of the Legislature, shall in no way affect other sections or other items of appropriation contained in this Act.

SECTION 8. In order to avail themselves of the appropriated items in this Act, it shall be necessary at the usual time and in the usual manner, or when required by the Budget Commission, to present to the Budget Commission an itemized statement of their expenditures making up the total of the appropriations herein provided for, and for additional appropriations or less appropriations to make up such schedules as are necessary to advise the Budget Commission of the sum total of amount for salaries and for necessary and regular expenses to be included in appropriations allowed.

If, in the opinion of the Governor, the revenues to be collected will be insufficient to meet the appropriations herein provided for, he shall so certify to the Budget Commission, and the Budget Commission shall adjust and reduce the Budget of any Department or Board by the consolidation of positions or duties to the end that efficiency and economy may result therefrom, and the appropriations kept within the revenues of the State. In the event the Budget Commission shall fail to adjust and reduce the budgets of the several Departments after the Governor has certified that the anticipated revenue will not permit of the maximum appropriation herein made, the Governor is hereby vested with power and authority to effect such changes by executive order, it being the intent and purpose of this Section to prevent any deficit in any Department of the State Government, and that the revenues available shall be used in the most efficient and economical manner. Provided, however, that this Section shall not be construed to mean that the Governor or the Budget Commission has the power to eliminate any Department of Government.

SECTION 10. The Board of Control shall determine the length of the School Term of all Educational Institutions for which funds are appropriated herein.

SECTION 11. Where appropriations appear in this Act for "Building and Improvement Schedule," such appropriations are made contingent upon funds being available for the construction of such buildings without decreasing any appropriation for salaries or necessary and regular expense; and provided further that if any of the buildings mentioned in this Act are provided for in any other Act of the Legislature of 1941, then the appropriation for such buildings mentioned herein shall be null and void. Where the salary of any officer or employee of the State has not been changed by any Act out of the Legislature of 1941, the appropriation for salaries respecting such officer or employee shall control the salary or compensation to be paid such officer or employee.

SECTION 12. None of the appropriations from the General Revenue Fund provided for herein shall be available to any department of the State Government unless and until the head of such department shall prepare and file with the said Budget Commission full and complete statement of all anticipated revenues, receipts and expenditures in detail, reasonably to be expected by such department covering the annual periods beginning July 1st, 1941, and July 1st, 1942. Said statement or budget shall include the amount which said department anticipates it will receive from all sources, including the appropriation from General Revenue made hereunder, as well as all other revenues received from any sources whatsoever, and said statement of expenditures shall include all expenditures anticipated to be made, giving details as to the number of employees, amount to be paid employees, and itemized estimate of money to be spent for expenses and maintenance of each department. Said statement or budget shall be filed with the State Budget Commission and approved by it prior to July 1st, of the fiscal year for which the appropriation is made, and in the event the said budget shows said estimate of expenditures will be less than the estimate of revenues, the appropriation contained herein shall be diminished for that fiscal year by the amount shown in such budget as an anticipated surplus.

SECTION 12A. The State Board of Control, and the Board of Commissioners of State Institutions, are hereby authorized, subject to the approval of the Budget Commission, to purchase automobiles, trucks, tractors and other automotive equipment, for the use of institutions under the management of said Board of Control and said Board of Commissioners of State Institutions.

SECTION 13. All laws or parts of laws in conflict herewith are hereby repealed.

SECTION 14. This Act shall take effect on July 1, 1941.
