Section 3. The State Board of Control is hereby empowered to fix and collect fees for materials, correspondence study and extension teaching and expense incident thereto, through the General Extension Department; and it is expressly provided that all such fees so collected by the said Board of Control shall not affect the State Appropriation or be deducted therefrom, and they shall be used only for the purposes for which they are collected, and said fees shall be deposited for accounting, with the Comptroller of the State of Florida, who upon the order of said Board of Control, shall draw his warrant or warrants on the State Treasurer in payment for the said materials, correspondence study, and extension teaching and expense incident thereto.

In its Biennial Report the Board of Control shall make report in detail of the expenditure of said funds, together with a report of the work done.

Section 4. Any sum or sums appropriated for salaries, if not required for such purposes, may be applied to other necessary and regular expense of the department to which they are appropriated, but in no event shall any sum or sums specifically appropriated for expenses be applied to salaries, except, that day labor shall be construed as coming within Necessary and Regular Expenses. Section 6. Federal money appropriated by the Congress of the United States to be used for State purposes, whether by itself or in conjunction with moneys appropriated by the Legislature of the State, is hereby re-appropriated as far as it may be necessary to the purpose for which same was made available and insofar as the same is permitted by the Federal Statutes.

Section 7. Any Section of this Act, or any special item of appropriation herein contained, if found to be invalid or vetoed by the Governor without overriding action of the Legislature, shall in no way affect other sections or other items of appropriation contained in this Act.

Section 9. All appropriations provided for by this Act are maximum appropriations, based upon the collection of sufficient revenue to meet and provide for such appropriations. If, in the opinion of the Governor, the revenues to be collected will be insufficient to meet the appropriations herein provided for, he shall so certify to the Budget Commission, and the Budget Commission shall adjust and reduce the Budget of any Department or Board by the consolidation of positions or duties to the end that efficiency and economy may result therefrom, and the appropriations kept within the revenues of the State. In the event the Budget Commission shall fail to adjust and reduce the budgets of the several Departments after the Governor has certified that the anticipated revenue will not permit of the maximum appropriation herein made, the Governor is hereby vested with power and authority to effect such changes by executive order, it being the intent and purpose of this Section to prevent any deficit in any Department of the State Government, and that the revenues available shall be used in the most efficient and economical manner. Provided, however, that this Section shall not be construed to mean that the Governor or the Budget Commission has the power to eliminate any Department of Government.

Where the salary of any officer or employee of the State has not been changed by any Act out of the Legislature of 1941, the appropriation for salaries respecting such officer or employee shall control the salary or compensation to be paid such officer or employee.
