ADDRESS BY MAJOR GENERAL SUMTER L. LOWRY

Mr. President and Members of the Senate:

First, let me tell you how much I appreciate being asked to appear before this body. I consider it a high honor, which I will long remember and for which I wish to express my grateful thanks.

May I take a few minutes of your time to tell you about the new National Guard which is being formed and its importance to the State and Nation.

The War Department has authorized the organization of the National Guard on a joint State and Federal status with a strength of about 750,000 men and officers—three times its

post war size and has made it, along with the regular Army, part of the M-Day striking force.

Florida has been allotted parts of the 51st and 48th Infantry Division and other special troops, about 10,000 in all, a force much larger and more important than ever before—with a definite combat mission and assignment.

The new National Guard has a difficult role to play if it is to uphold the record and performance of the Florida National Guards Units in World War II. I feel that every citizen of Florida can be proud of the way our men and organizations measured up in combat. We gave to the Army the famous 124th Infantry, the 116th Field Artillery and many other fighting units. Our men and officers fought and died on every major battle field in the world. A study of the record of your men in the Florida Guard will make you proud and happy I am sure. While there were many officers who reached high rank and held responsible positions all over the world, the men who deserve your real praise and thanks are the Junior Officers, Non-coms and private soldiers. They fought and died like men—without much hope of glory or reward. I salute them as the real Florida heroes of the War.

So the new National Guard must be very good to uphold the tradition of the old Guard. I know personally that General Eisenhower and the War Department put great stress on the important part the National Guard has to play in the defense of our country at this time, and how vital it is to keep our country strong and ready.

I am glad to report to you that the organization of the new National Guard is being pushed in every section of our State with vigor and with success. Receiving the full backing and support of the people and the local government.

Some of you gentlemen may ask why it is necessary to have such a large army with a National Guard three times the former strength—why the need for the huge amounts of money being spent on our Army and Navy. The answer is contained in just one word—That word is "RUSSIA"—Russia led by a group of men who after the War was over set out deliberately to disorganize and confuse every country in the world where Democratic Governments were in power. Russia whose leaders respect only the rule of force in other nations and practice it on their own people with cruel results. Russia whose master-plan calls for the eventual overthrow of our Government in these United States—the government founded by George Washington and our other great ancestors. Yes, Russia is the reason for the huge burden of taxes our people must bear to support our Armed Forces, including your own Florida National Guard—Russia who has already sent the Vanguard of its army into the United States, the termite members of the Communist International who are boring night and day to weaken us within, to spread confusion and delay in our business and government, to teach disloyalty to our people and our institutions. Yes, Russia is the reason for the maintenance of our large army, and it is important that the people should know and understand it.

Our soldiers are the greatest fighters in the world and no nation can conquer us if we know our mission, who our enemies are, keep our forces strong and drive from the country the disloyal elements led by the Communist Party taking its orders from Moscow. That Communist party who accepts the privileges accorded all men under our democratic system of government—who hide behind the cloak of our benevolent national Constitution and who all the while are traitors in our midst, administering slow poison to our people which unless stopped now will seep down even into the deep South—the last stronghold of our national spirit and pride. A strong and united front and that alone will keep us out of war with Russia—the Russia who respects only force and will cease to abuse us only if she knows we cannot be abused.

You members of this honorable body have a personal stake involved in the new National Guard. We are your men—your real flesh and blood—Florida's contribution to keep our country a free and independent state, and to cause the Russians to stop, look and listen before they get further ideas about making the United States part of a world government, with Moscow calling the signals. The members of the Florida National Guard do sincerely appreciate the interest and backing that this body has always given to it. Your generous

financial and moral support means much to us. The new Guard will ever try to conduct itself in a manner to warrant your confidence and to make you proud of us wherever we serve.

In closing let us all remember the warning of the founder of our nation, General George Washington, "The price of liberty is eternal vigilance"—and may I add, "The Communists are among us." And they are Russians.

Senator Fraser (31st) moved that the foregoing address of Major General Lowry be spread upon the Journal.
