A RESOLUTION RESCINDING, REVOKING AND HOLDING FOR NAUGHT SENATE RESOLUTION NO. 1099 AND REQUESTING THE SUPREME COURT OF FLORIDA TO

HOLD A PUBLIC HEARING BEFORE PROMULGATING AND ADOPTING ANY CHANGES IN EXISTING RULES RELATING TO PLEADING, PRACTICE AND PROCEDURE FOR THE COURTS OF THIS STATE.

WHEREAS, Senate Resolution No. 1099, providing that the Senate does not acquiesce in the adoption by the Supreme Court of Florida of rules relating to pleading, practice and procedure for the Courts of this State was introduced and adopted on the 1st day of June, 1949; and

WHEREAS, the rules of practice affected by said resolution constitute the work product of the State Bar Association and a committee appointed by the Supreme Court of Florida as a result of five years of study and have heretofore been approved by the Supreme Court of Florida; and

WHEREAS, said rules of practice, pleading and procedure were not made the subject of a special study by this body either sitting as a whole or through any of its duly constituted committees as a result of which neither the Supreme Court of Florida nor the State Bar Association were afforded the opportunity of appearing and offering testimony relative to the necessity for the adoption of said rules or to explain the result sought to be accomplished thereby; and

WHEREAS, upon reflection it appears that the action of the Senate in adopting said Senate Resolution No. 1099 was premature and did not afford all interested parties an opportunity of being heard upon the merits of said rules of practice, and that said Resolution so adopted will be accorded great weight by the Supreme Court of Florida in its deliberations upon the final promulgation and adoption of said rules of practice.

THEREFORE, BE IT RESOLVED, that the Senate of the Legislature of Florida does hereby rescind said Senate Resolution No. 1099 hereby revoking the same and holding it for naught, and that further consideration of said rules do be postponed to the next ensuing, special or regular session of this body.

Said Committee shall be named as soon as practicable after the General Election in each biennium. The Chairman for the first term shall be named by the President-Designate of the Senate from the Senate membership of the Committee and the Vice Chairman by the Speaker-Designate of the House of Representatives, but thereafter these offices shall be alternated between the respective houses each biennium. Members of the Joint Fiscal Affairs Committee shall not serve on any other standing committee during the time the Legislature is in session.

SECTION 3. The Joint Fiscal Affairs Committee shall be assisted by the Legislative Reference Bureau and shall have the authority to employ such additional technical personnel, secretarial and clerical help as it may require adequately to perform its duties.

SECTION 4. The Chairman of the Joint Fiscal Affairs Committee shall call a meeting of said Committee within ten (10) days after the membership has been appointed to be held in the Legislative Chambers at the State Capitol.

SECTION 5. It shall be the duty of the Joint Fiscal Affairs Committee immediately upon being convened by the Chairman to, (1) examine into the financial condition of the State and all of its departments, agencies and offices; (2) make such investigations and checks as are necessary to ascertain from a fiscal standpoint the degree of efficiency and effectiveness with which each department and agency is being operated and conducted; (3) to seek out opportunities for reduction in expense of government without the impairment of effective operation; (4) to examine into the tax structure of the State to determine adequacy of revenue, possibilities for reductions in taxes, the need, if any, for additional revenue, and to formulate plans for the equitable distribution of the State tax load. In carrying out the duties hereby imposed, the members of the Joint Fiscal Affairs Committee shall have authority to examine the records of any State department, agency or office; to ascertain its fiscal and budgetary practices, procedures and needs; to attend any Budget Commission hearings, and travel to, and hold hearings, or make investigations at any State department, agency, institution or office.

All bills introduced into the Senate and the House of Representatives at any session of the Legislature which relate to Finance and Taxation and/or Appropriations, shall be referred to the Joint Fiscal Affairs Committee. The Fiscal Affairs Committee shall report thereon directly to the house in which such bills originated. Any bill reported out favorably by the said Committee to the house in which it originated shall, if passed by such house, be referred to the other house and placed upon the calendar without being referred to another committee, unless such bill shall receive a joint reference.

SECTION 8. Not later than the thirtieth (30th) day after the beginning of each regular session the Joint Fiscal Affairs Committee shall present to each house a single fiscal program embracing the general appropriations bill, all recommended appropriations, and such revenue or finance and taxation measures as it may deem proper and required for the operation of the State for the ensuing two years.

SECTION 9. Each biennial session of the Legislature shall make such provision as it may deem appropriate for the compensation of the members of said Joint Committee while actually engaged in the work of the Committee and for the reimbursement of traveling expenses actually incurred.

SECTION 10. All rules or parts of rules of each house in conflict herewith are hereby abolished to the extent of such conflict.

Mr. President and Senators:

So that the Senate and the people of Florida may know the type of perverted and obscene mind that is possessed by Stephen Trumbull, the reporter for the Miami Herald, I wish to offer at this time a typewritten paper which this man, Stephen Trumbull, distributed to the press last week prior to the altercation that your orator had with Trumbull, a proposed poll, which in my opinion casts a reflection on the entire Senate of the State of Florida. I, therefore, move you, Sir, that the Trumbull SOB poll which I have in my hand and which was presented to me yesterday by a member of the press be made a part of the records of the Senate:

The question was put on the motion made by Senator McArthur.

Which was agreed to and the following typewritten paper was ordered spread upon the Journal:

THE TRUMBULL S.O.B. POLL

The poll is being conducted as a supplement to another newspaper poll—one which seeks only to select "outstanding legislators."

This poll seeks "outstanding sons of bitches." As few of the newspapermen here could justify their expense accounts without this class, it is believed that some fitting recognition and award should be made in this news-making field. A black bag suitably embossed, will go to the senate and house winner of the Trumbull poll.

No part of any appropriation made in Section 2 of this Act shall be used to pay salary or expenses for any office located outside the State of Florida.

Section 3. All monies received by the Institutions under the management of the State Board of Control, other than from State and Federal sources, are hereby appropriated to the use of the State Board of Control, for the respective Institutions collecting same, to be expended as the State Board may direct, and said monies shall not be deducted from the sums otherwise appropriated by this Act to said Institutions; provided, however, all funds on hand July 1, 1949, credited to the incidental funds of Institutions under the management of said Board and all funds thereafter credited to said incidental funds shall be used for salaries and expenses of the Institutions to which such incidental funds are credited before any General Revenue appropriation provided for in this Act may be used for such provisions.

Section 4. The State Board of Control is hereby empowered to fix and collect fees for materials, correspondence study and extensions incident thereto, through the General Extension Department; and it is expressly provided that all such fees so collected by the said Board of Control shall not affect the State Appropriation or be deducted therefrom, and they shall be used only for the purposes for which they are collected, and said fees shall be deposited for accounting with the Comptroller of the State of Florida, who upon the order of said Board of Control, shall draw his warrants on the State Treasurer in payment for the said materials, correspondence study, and extension teaching and expenses incident thereto. In its Biennial report the Board of Control shall make report in detail of the expenditure of said funds, together with a report of the work done.

Section 5. The Board of Control shall determine the length of the School Term of all Educational Institutions for which funds are appropriated herein.

Section 6. The State Board of Control, and the Board of Commissioners of State Institutions, are hereby authorized, subject to the approval of the Budget Commission, to purchase automobiles, trucks, tractors and other automotive equipment, for the use of institutions under the management of said Board of Control and said Board of Commissioners of State Institutions.

Section 7. Where the salary of any officer or employee of the State has not been changed by any Act of the Legislature of 1949, the appropriation herein for salaries respecting such officer or employee shall control the salary or compensation to be paid such officer or employee.

Section 8. (1) The state budget commission shall have power to and it shall be their duty to determine the number, and fix the salary, of the employees of each of the several state departments, bureaus, boards, commissions, divisions, institutions, and all other state agencies created or provided by the statutes of this state, when supported, either directly or indirectly, from any form of taxation, licenses, fees, exactions or imposts under the laws of this state, and for which appropriation is herein made, except where expressly provided for and fixed by the statutes and laws of this state.

(2) The salary, or combined salaries, or other compensation for services, of any state officer or employee, or employee of any state department, bureau, board, commission, division, institution or other state agency in this state, and for which appropriation is herein made may not exceed the salary fixed by law for any member of the governor's cabinet, unless otherwise expressly provided by law.

(3) The state budget commission, in determining the number of employees and fixing their

salary or other compensation, may, if the same be found to be feasible and workable, classify the various types of state employment.

(4) No person may hold more than one employment, or receive compensation from more than one appropriation in the state treasury, except when duly authorized in writing by the state budget commission.

Section 9. Any monies appropriated by this Act for the first year of the biennium not used in the first year of the biennium and not contracted to be expended may be used for a like purpose in the second year of the biennium, but any fund unexpended and not contracted to be expended as provided by this Act at the end of the biennium shall revert to the fund from which appropriated and be available for re-appropriation.

Any balances remaining to the credit of the appropriation made herein not disbursed but contracted to be expended shall, on or before June 30th of the end of the biennial appropriation year, be certified to the Budget Commission, a copy of which certification shall be filed with Comptroller, showing in detail to whom obligated and the amount of such obligation. In the event this certification is not made and the obligation proven to be just, due and unpaid, then the same shall be paid and charged to the current year's appropriation of the department affected. No official, commission, board, department or other agency of the State Government shall contract to spend or enter into any agreement to spend any monies in excess of the amount appropriated herein and any contract or agreement in violation of this provision shall be null and void. All budgets of all departments and divisions of Government shall be subject to semiannual revision and control by the Budget Commission at the end of any appropriation year.

Any monies in this Act or heretofore appropriated for capital outlay under the Minimum Foundation Program and which have been apportioned to the several counties shall be transferred to the Trust Fund to the credit of the respective counties until paid to them in accordance with provisions of Chapter 23,726, Acts of 1947, or any amendments thereto.

Section 10. Federal money appropriated by the Congress of the United States to be used for State purposes, whether by itself or in conjunction with monies appropriated by the Legislature of the State, is hereby re-appropriated as far as it may be necessary to the purpose for which same was made available and insofar as the same is permitted by the Federal Statutes.

Section 11. All appropriations provided for by this Act are maximum appropriations, based upon the collection of sufficient revenue to meet and provide for such appropriations. If, in the opinion of the Governor, the revenues to be collected will be insufficient to meet the appropriations herein provided for, he shall so certify to the Budget Commission, and the Budget Commission shall adjust and/or reduce the Budget of any department or Board by the consolidation of positions or duties to the end that efficiency and economy may result therefrom, and the appropriations kept within the revenues of the State. In the event the Budget Commission shall fail to adjust and/or reduce budgets of the several Departments after the Governor has certified that the anticipated revenue will not permit of the maximum appropriation herein made, the Governor is hereby vested with power and authority to effect such changes by executive order, it being the intent and purpose of this Section to prevent any deficit in any Department of the State Government, and that the revenues available shall be used in the most efficient and economical manner; provided, however, that this section shall not be construed to mean that the Governor or the Budget Commission has the power to eliminate any Department of Government.

SECTION 12. No part of the moneys appropriated by this Act shall be available for the purchase of liability insurance, unless such insurance carry a waiver by the insurer of Governmental immunity from suit.

SECTION 13. Immediately before the beginning of each fiscal year, the budget commission or the budget director, if there be such officer, shall require the head of each spending agency to submit on forms prescribed by the budget commis-

sion, a work program for the budget year, which program shall include all appropriations for operation and all anticipated revenue and receipts, and maintenance expenditures and for the acquisition of property, and it shall show the requested allotments of said appropriations for such spending agency for the ensuing year. The budget commission shall review the requested allotments in the light of the work program of the spending agency concerned and as reported by the budget director, if there be such officer, the budget commission shall, if it deems necessary, revise, alter or change such allotments before approving the same. The aggregate of such allotments shall not exceed the total appropriations available to said spending agency for the budget year. The budget commission, or the budget director, if there be such officer, shall transmit a copy of the approved allotments to the head of the spending agency concerned and also a copy to the state comptroller. The state comptroller shall authorize all expenditures to be made from the appropriations on the basis of such allotments, and not otherwise.

The head of any spending agency of the government, whenever he shall deem it necessary by reason of changed conditions, may revise the work program of his agency at the beginning of any quarter during the budget year and submit such revised program to the budget commission, or to the budget director, if there be such an officer, with his request for a revision of the allotments for the remaining quarters of the budget year. If, upon a re-examination of the work program, the budget commission shall decide to grant the request for a revision of the allotments, the same procedure, as far as it relates to review, approval, and control, shall be followed as in making the original allotments.

In order to provide funds for possible emergencies arising during the budget year in the operation and maintenance expenditures of the various spending agencies, the budget commission may require the head of each spending agency, in making the original allotments, set aside at least five per cent of the total amount appropriated as a reserve. At any time during the budget year, this reserve, or any portion of it, may be returned to the appropriation to which it belongs and be added to any one or more of the allotments, provided the budget commission shall deem such action necessary, and shall notify the comptroller of such action; any unused portion thereof shall remain at the end of the budget period as an unexpended balance of appropriation.

Section 14. In addition to all other appropriations herein there is hereby appropriated the sum of \$500,000.00 for the purpose of supplying immediate funds for any unforeseen emergency that may arise and for the purpose of supplying additional funds to any state office, commission, department, board, bureau, institution or other agency of the State Government, if the appropriations made herein are found to be insufficient to pay the necessary cost of proper administration of the duties assigned. This appropriation shall be under the complete supervision and control of the State Budget Commission and the Budget Commission is hereby authorized in its discretion, to designate any part of this fund for paying necessary expenses as above provided after public hearing and ample evidence of needs; provided, however, that application to the commission shall first be made in writing, giving a complete statement of funds needed; provided, however, that no expenditures shall be authorized except by vote of a majority of the Budget Commission whether all members are present or not, and provided further, that this shall not be construed to authorize the Budget Commission to create any new department or function and no part of this appropriation shall be used for attorney fees, or for the construction of any building.

Section 15. Any sum or sums appropriated for salaries, if not required for such purposes, may be applied to expense of the department to which they are appropriated, but in no event shall any sum or sums specifically appropriated for expenses be applied to salaries, except, that day labor shall be construed as coming within expenses. Any sum paid out under this Act or any other Act from the monies appropriated herein shall be by State Warrant drawn by the Comptroller and countersigned by the Governor upon the State Treasury, payable to the ultimate beneficiary.

Section 16. Contingent Funds shall be available after all other appropriations in this Act have been provided for. All contingent funds shall be under the complete control and supervision of the State Budget Commission.

Section 17. Any Section of this Act, or any special item of appropriation herein contained, if found to be invalid or vetoed by the Governor without over-riding action of the Legislature, shall in no way affect other sections or other items or appropriation contained in this Act.

Section 18. All laws or parts of laws in conflict herewith are hereby repealed.

Section 19. This Act shall take effect on July 1, 1949.

—and respectfully requests the concurrence of the Senate therein.

Respectfully,

No part of any appropriation made in Section 2 of this Act shall be used to pay salary or expenses for any office located outside the State of Florida.

Section 3. All monies received by the Institutions under the management of the State Board of Control, other than from State and Federal sources, are hereby appropriated to the use of the State Board of Control, for the respective Institutions collecting same, to be expended as the State Board may direct, and said monies shall not be deducted from the sums otherwise appropriated by this Act to said Institutions; provided, however, all funds on hand July 1, 1949, credited to the incidental funds of Institutions under the management of said Board and all funds thereafter credited to said incidental funds shall be used for salaries and expenses of the Institutions to which such incidental funds are credited before any General Revenue appropriation provided for in this Act may be used for such provisions.

Section 4. The State Board of Control is hereby empowered to fix and collect fees for materials, correspondence study and extensions incident thereto, through the General Extension Department; and it is expressly provided that all such fees so collected by the said Board of Control shall not affect the State Appropriation or be deducted therefrom, and they shall be used only for the purposes for which they are collected, and said fees shall be deposited for accounting with the Comptroller of the State of Florida, who upon the order of said Board of Control, shall draw his warrants on the State Treasurer in payment for the said materials, correspondence study, and extension teaching and expenses incident thereto. In its Biennial report the Board of Control shall make report in detail of the expenditure of said funds, together with a report of the work done.

Section 5. The Board of Control shall determine the length of the School Term of all Educational Institutions for which funds are appropriated herein.

Section 6. The State Board of Control, and the Board of Commissioners of State Institutions, are hereby authorized, subject to the approval of the Budget Commission, to purchase automobiles, trucks, tractors and other automotive equipment, for the use of institutions under the management of said Board of Control and said Board of Commissioners of State Institutions.

Section 7. Where the salary of any officer or employee of the State has not been changed by any Act of the Legislature of 1949, the appropriation herein for salaries respecting such officer or employee shall control the salary or compensation to be paid such officer or employee.

Section 8. (1) The state budget commission shall have power to and it shall be their duty to determine the number, and fix the salary, of the employees of each of the several state departments, bureaus, boards, commissions, divisions, institutions, and all other state agencies created or provided by the statutes of this state, when supported, either directly or indirectly, from any form of taxation, licenses, fees, exactions or imposts under the laws of this state, and for which appropriation is herein made, except where expressly provided for and fixed by the statutes and laws of this state.

(2) The salary, or combined salaries, or other compensation for services, of any state officer or employee, or employee of any state department, bureau, board, commission, division, institution or other state agency in this state, and for which appropriation is herein made may not exceed the salary fixed by law for any member of the governor's cabinet, unless otherwise expressly provided by law.

(3) The state budget commission, in determining the number of employees and fixing their salary or other compensation, may, if the same be found to be feasible and workable, classify the various types of state employment.

(4) No person may hold more than one employment, or receive compensation from more than one appropriation in the state treasury,

except when duly authorized in writing by the state budget commission.

Section 9. Any monies appropriated by this Act for the first year of the biennium not used in the first year of the biennium and not contracted to be expended may be used for a like purpose in the second year of the biennium, but any fund unexpended and not contracted to be expended as provided by this Act at the end of the biennium shall revert to the fund from which appropriated and be available for re-appropriation.

Any balances remaining to the credit of the appropriation made herein not disbursed but contracted to be expended shall, on or before June 30th of the end of the biennial appropriation year, be certified to the Budget Commission, a copy of which certification shall be filed with Comptroller, showing in detail to whom obligated and the amount of such obligation. In the event this certification is not made and the obligation proven to be just, due and unpaid, then the same shall be paid and charged to the current year's appropriation of the department affected. No official, commission, board, department or other agency of the State Government shall contract to spend or enter into any agreement to spend any monies in excess of the amount appropriated herein and any contract or agreement in violation of this provision shall be null and void. All budgets of all departments and divisions of Government shall be subject to semiannual revision and control by the Budget Commission at the end of any appropriation year.

Any monies in this Act or heretofore appropriated for capital outlay under the Minimum Foundation Program and which have been apportioned to the several counties shall be transferred to the Trust Fund to the credit of the respective counties until paid to them in accordance with provisions of Chapter 23,726, Acts of 1947, or any amendments thereto.

Section 10. Federal money appropriated by the Congress of the United States to be used for State purposes, whether by itself or in conjunction with monies appropriated by the Legislature of the State, is hereby re-appropriated as far as it may be necessary to the purpose for which same was made available and insofar as the same is permitted by the Federal Statutes.

Section 11. All appropriations provided for by this Act are maximum appropriations, based upon the collection of sufficient revenue to meet and provide for such appropriations. If, in the opinion of the Governor, the revenues to be collected will be insufficient to meet the appropriations herein provided for, he shall so certify to the Budget Commission, and the Budget Commission shall adjust and/or reduce the Budget of any department or Board by the consolidation of positions or duties to the end that efficiency and economy may result therefrom, and the appropriations kept within the revenues of the State. In the event the Budget Commission shall fail to adjust and/or reduce budgets of the several Departments after the Governor has certified that the anticipated revenue will not permit of the maximum appropriation herein made, the Governor is hereby vested with power and authority to effect such changes by executive order, it being the intent and purpose of this Section to prevent any deficit in any Department of the State Government, and that the revenues available shall be used in the most efficient and economical manner; provided, however, that this section shall not be construed to mean that the Governor or the Budget Commission has the power to eliminate any Department of Government.

Section 12. No part of the moneys appropriated by this Act shall be available for the purchase of liability insurance, unless such insurance carry a waiver by the insurer of Governmental immunity from suit.

Section 13. Immediately before the beginning of each fiscal year, the budget commission or the budget director, if there be such officer, shall require the head of each spending agency to submit on forms prescribed by the budget commission, a work program for the budget year, which program shall include all appropriations for operation and all anticipated revenue and receipts, and maintenance expenditures and for the acquisition of property, and it shall show the requested allotments of said appropriations for such spending agency for the ensuing year. The budget commission shall review the requested allotments in the light of the work program of

the spending agency concerned and as reported by the budget director, if there be such officer, the budget commission shall, if it deems necessary, revise, alter or change such allotments before approving the same. The aggregate of such allotments shall not exceed the total appropriations available to said spending agency for the budget year. The budget commission, or the budget director, if there be such officer, shall transmit a copy of the approved allotments to the head of the spending agency concerned and also a copy to the state comptroller. The state comptroller shall authorize all expenditures to be made from the appropriations on the basis of such allotments, and not otherwise.

The head of any spending agency of the government, whenever he shall deem it necessary by reason of changed conditions, may revise the work program of his agency at the beginning of any quarter during the budget year and submit such revised program to the budget commission, or to the budget director, if there be such an officer, with his request for a revision of the allotments for the remaining quarters of the budget year. If, upon a re-examination of the work program, the budget commission shall decide to grant the request for a revision of the allotments, the same procedure, as far as it relates to review, approval, and control, shall be followed as in making the original allotments.

In order to provide funds for possible emergencies arising during the budget year in the operation and maintenance expenditures of the various spending agencies, the budget commission may require the head of each spending agency, in making the original allotments, set aside at least five per cent of the total amount appropriated as a reserve. At any time during the budget year, this reserve, or any portion of it, may be returned to the appropriation to which it belongs and be added to any one or more of the allotments, provided the budget commission shall deem such action necessary, and shall notify the comptroller of such action; any unused portion thereof shall remain at the end of the budget period as an unexpended balance of appropriation.

Section 14. In addition to all other appropriations herein there is hereby appropriated the sum of \$500,000.00 for the purpose of supplying immediate funds for any unforeseen emergency that may arise and for the purpose of supplying additional funds to any state office, commission, department, board, bureau, institution or other agency of the State Government, if the appropriations made herein are found to be insufficient to pay the necessary cost of proper administration of the duties assigned. This appropriation shall be under the complete supervision and control of the State Budget Commission and the Budget Commission is hereby authorized in its discretion, to designate any part of this fund for paying necessary expenses as above provided after public hearing and ample evidence of needs; provided, however, that application to the commission shall first be made in writing, giving a complete statement of funds needed; provided, however, that no expenditures shall be authorized except by vote of a majority of the Budget Commission whether all members are present or not, and provided further, that this shall not be construed to authorize the Budget Commission to create any new department or function and no part of this appropriation shall be used for attorney fees, or for the construction of any building.

Section 15. Any sum or sums appropriated for salaries, if not required for such purposes, may be applied to expense of the department to which they are appropriated, but in no event shall any sum or sums specifically appropriated for expenses be applied to salaries, except, that day labor shall be construed as coming within expenses. Any sum paid out under this Act or any other Act from the monies appropriated herein shall be by State Warrant drawn by the Comptroller and countersigned by the Governor upon the State Treasury, payable to the ultimate beneficiary.

Section 16. Contingent Funds shall be available after all other appropriations in this Act shall have been provided for. All contingent funds shall be under the complete control and supervision of the State Budget Commission.

Section 17. Any Section of this Act, or any special item of appropriation herein contained, if found to be invalid or vetoed by the Governor without over-riding action of the Legislature, shall in no way affect other sections or other items or appropriation contained in this Act.

Section 18. All laws or parts of laws in conflict herewith are hereby repealed.

Section 19. This Act shall take effect on July 1, 1949.

I am directed by the House of Representatives to inform the Senate that the House of Representatives has passed, as amended—

Committee Substitute for S. B. No. 84—A bill to be entitled An Act creating a State Purchasing Department under the control and administration of an executive board composed of the Governor, the Secretary of State, the Attorney General, the Comptroller, the Treasurer, the Superintendent of Public Instruction, and the Commissioner of Agriculture; prescribing its powers and duties.

Which amendments read as follows:

Amendment No. 1—

Strike out everything after the Enacting Clause and insert the following in lieu thereof:

Section 1. Department of Purchasing.—There is hereby created and established a department of the State government which shall be known and designated as the State Purchasing Department, the administrative head of which shall be the Director of Purchasing.

Section 2. Director of Purchasing.—The Director of Purchasing shall be appointed by the Governor for a term of two years, and his appointment shall be subject to confirmation by the Senate; provided, however, that at any time when the Senate is not in session and it shall appear to the Governor, in his discretion, that the public interest of Florida is not being properly protected or best served by the Director, the Governor shall have the right to remove the Director and fill the vacancy with an ad interim appointee who shall hold office until the next regular session of the State Senate, at which time such ad interim appointee may be treated as a new appointment and submitted to the Senate for confirmation. If it shall appear to a majority of the Advisory Committee on Purchasing hereinafter provided for at any time that the Director of Purchasing is or may be guilty of incompetency, non-feasance, or malfeasance, such evidence or information so appearing before the Cabinet shall be transmitted to the Governor in writing. After reasonable notice, the Governor shall hold a hearing on said charges and if the evidence discloses such incompetency, nonfeasance, misfeasance, or malfeasance, to the extent that it is impairing

the public interest or welfare, the Governor shall remove such Director of Purchasing from his office and declare such office vacant. Upon any such removal being made by the Governor, the Director shall have no further claim to the office nor enjoy any further emoluments therefrom. The Director shall be required to give bond in the amount of not less than \$100,000.00, the premium for which shall be paid out of funds appropriated to the State Purchasing Department, which said bond shall be conditioned upon the faithful performance of said Director of Purchasing and to save the State harmless by reason of any fraud, or other misfeasance, non-feasance or malfeasance of the Director of Purchasing.

Section 3. Power and Duties.—The State Purchasing Department, acting by and through the Director of Purchasing, is authorized and directed to contract for, purchase, rent or lease all material, supplies and equipment required by any office, department, board, bureau, commission, or other agency of the State of Florida, and all state institutions, including all penal, charitable, and educational institutions, which state agencies and state institutions are hereinafter designated as "Using Agencies."

Section 4. Advisory Committee on Purchasing.—There is hereby created an Advisory Committee on Purchasing, which shall be composed of the Governor, the Secretary of State, the Attorney General, the State Treasurer, the State Comptroller, the Commissioner of Agriculture, and the State Superintendent of Public Instruction, and their successors in office. Four members of the Advisory Committee on Purchasing so constituted shall constitute a quorum, and the Governor shall be the Chairman thereof.

Section 5. Powers and Duties.—The Advisory Committee on Purchasing shall act in an advisory capacity to the Director of Purchasing and shall make recommendations to said Director on matters of Policy relating to the administration of this Act. Said Committee shall have the right to inspect, at all times and with or without notice to the Director, the Administrative machinery set up by the Director to carry out the provisions of this Act, including the books and records of his office. Complaints against the policies, methods or administration of this Act may be made by any person to said advisory committee and the Advisory Committee shall hear the same and transmit to the Governor in writing such information and evidence as the Committee deems justified.

Section 6. Employees of the Department.—The Director of Purchasing may employ such assistants and such other employees as may be necessary to enable him to carry out his duties under this Act. The qualification, duties, and salaries of such assistants and employees shall be as prescribed by the Director. Such assistants and employees shall be required to give bond in an amount to be prescribed by the Director, the premiums for which shall be paid out of the funds appropriated to the State Purchasing Department.

Section 7. Purchasing by Using Agencies Prohibited.—No material, supplies or equipment shall be purchased by or on behalf of any Using Agency except through the State Purchasing Department; provided, however, that emergency purchases, purchases of perishables, purchases of other items of material, supplies, and equipment, which are not adaptable to central purchasing when authorized by the director of purchasing, and purchases not in excess of \$150.00 (provided no purchase shall be divided for the purpose of complying with this provision) must comply with Section 11 of this Act. Provided further that the terms of this Act shall not apply to the purchase of school text books and educational instruction materials by the State Text Book Purchasing Board.

Section 8. Approval of Purchases by Using Agencies.—No purchase of material, supplies or equipment required by this Act to be purchased by the State Purchasing Department shall be made except upon authority of a requisition from the Using Agency.

Section 9. Transfer and sale of Surplus Materials.—Any material, supplies or equipment of any Using Agency which shall be determined by such Agency to be surplus and reported to the Director of Purchasing as such, may be transferred by said Director to another Using Agency having need therefor, at a fair value payable to the State Treasurer for the account of the Using Agency owning and reporting such surplus. Any such surplus not required by another Using Agency may be sold by the Director after advertising for bids

on said surplus supplies, equipment or materials and said Director of Purchasing shall sell the same to the highest bidder therefor, unless the bid or bids are so low as to cause the Director to reject all of said bids, provided said requirement of bids may be waived in writing by the Governor or the Advisory Committee, and the proceeds of such sale remitted in the manner above provided.

Section 10. Rules and Regulations.—The Director of Purchasing is authorized to adopt, promulgate, and from time to time to amend or rescind, such rules and regulations as are necessary or desirable to carry out the provisions of this Act; provided, however, that no rules and regulations shall become effective except, unless and until such rules and regulations shall have been submitted to and approved by the Advisory Committee on Purchasing. The Director of Purchasing shall make rules and regulations requiring no contract shall be let nor purchase nor rental made unless at least three bids are received therefor, and for the waiving of the requirement for at least three bids in special instances, but such waiver of three bids shall not be effective unless approved in writing by the Governor or the Advisory Committee. Such rules and regulations shall provide for the economical administration of this Act and shall be in furtherance of the economical purchase, rent or lease as hereinabove provided and may include rules allowing a preference of two per cent in favor of suppliers who maintain a place of business in the State of Florida.

Section 11. Maximum Price List.—The Director of Purchasing shall prepare a list of maximum prices for distribution to Using Agencies of various materials, supplies and equipment used or that may be used by such Using Agencies and such material, supplies and equipment may be purchased directly by the Using Agencies in the manner hereafter provided. The Director of Purchasing may either indicate on such lists of prices furnished the Using Agencies where the supplies may be purchased at such maximum price or he may advise the Using Agencies that such a list is in his office, subject to their inspection. Upon the preparation and publication of such maximum list price as aforesaid no Using Agency may purchase any item appearing thereon at a price in excess of the maximum price on the most recent list. The Using Agencies when buying items which appear on such list may, however, purchase at prices lower than the maximum price specified provided like quality and material supplies or equipment are purchased.

Section 12. Public Printing.—Public Printing, and purchase of advertising being primarily contractual services rather than the purchase of material, supplies and equipment within the meaning of this Act, are hereby specifically excluded from the operation of this Act, and nothing contained herein shall be construed to repeal any laws of this State relating to public printing or to advertising.

Section 13. Severability.—If any provisions of this Act or any rule, regulation or order thereunder, or the application of same to any person or circumstances shall be held invalid, the remainder of this Act and the application of such provision of this Act or of such rule, regulation or order to persons or circumstances other than those as to which it is held invalid shall not be affected thereby.

Section 14. All laws or parts of laws in conflict herewith are hereby repealed.

Section 15. This Act shall take effect on the 1st day of July, 1949; provided that until the State Purchasing Department can perfect the machinery for the performance of the duties herein provided, the Advisory Committee may, by resolution, authorize Using Agencies to purchase as heretofore certain kinds or classes of material, supplies or equipment; except this proviso shall not be effective beyond the period of one year.

Amendment No. 2—

Strike out entire Title and substitute therefor the following Title:
