

"All are equal before the law and are entitled without any discrimination to protection of the law."

"All are entitled to equal protection against any discrimination in violation of this Declaration, and against any incitement to such discrimination."

(f) Article 16 says:

"Men and women of full age without any limitation due to race, nationality or religion, have the right to marry and found a family. They are entitled to equal rights as to marriage during marriage and at its dissolution."

If the United States Senate adopts through such a covenant these provisions above quoted and such provisions as an International Bill of Human Rights are ratified to become for the people of this country another Bill of Rights, it will be not supplementation but substitution for our present Constitutional Bills of Right, and this new socialistic and communistic treaty will become the supreme law of our land under the provisions of Article 6 Section 2 of the Constitution of the United States which reads as follows:

"This Constitution * * * and all treaties * * * which shall be made under the authority of the United States shall be the supreme law of the land, and the Judges in every state shall be bound thereby, anything in the Constitution or law of any state to the contrary notwithstanding."

The net result of this substitution would be the recognition of a new form of government in the place of our present Republican form.

This new Bill of Human Rights can mean social security for all the world with Uncle Sam paying the bills.

It could require the individual citizen of this country to conform to the interpretation of human rights made by the courts particularly established under the power and authority of the United Nations as such human rights are delineated in these quoted provisions, carrying a recognition of social, racial and economic equality totally at variance with individual rights as they now exist under our present order of free enterprise, equal opportunity and the profit and reward system of American philosophy, and this change would not have been made by the people of this country but by the agreement of a few socialistic or communistic representatives (four in number, to be exact) from the United States on the Council of the United Nations, put in a treaty and ratified by the United States Senate.

We do not believe that the United States Senate will ratify such a covenant if it realize the seriousness and full import of such action.

The Senate of Florida in session convened opposes this ratification and urges the Senate of the United States to reject all of the provisions of this Declaration of Human Rights in the said charter of the United Nations, and to refuse the certification in treaty form or otherwise.

That it is not within the province of a treaty under the Constitution and law of this country to alter or change our present Constitution in its civil rights portions, is the belief and opinion of the members of the Senate of the State of Florida, and we respectfully submit such to the members of the Senate of the United States with this appeal for protection from them with respect to our National independence and sovereignty.

After reasonable notice, the Governor shall hold a hearing on said charges and if the evidence discloses such incompetency, nonfeasance, misfeasance, or malfeasance, to the extent that it is impairing the public interest or welfare, the Governor shall remove such Director of Purchasing from his office and declare such office vacant. Upon any such removal being made by the Governor, the Director shall have no further claim to the office nor enjoy any further emoluments therefrom. The Director shall be

required to give bond in the amount of not less than \$100,000.00, the premium for which shall be paid out of funds appropriated to the State Purchasing Department, when said bond shall be conditioned upon the faithful performance of said Director of Purchasing and to save the State harmless by reason of any fraud, or other misfeasance, non-feasance or malfeasance of the Director of Purchasing.

Section 3. POWER AND DUTIES.—The State Purchasing Department, acting by and through the Director of Purchasing, is authorized and directed to contract for, purchase, rent or lease all material, supplies and equipment required by any office, department, board, bureau, commission, or other agency of the State of Florida, and all state institutions, including all penal, charitable, and educational institutions, which state agencies and state institutions are hereinafter designated as "Using Agencies."

Section 4. ADVISORY COMMITTEE ON PURCHASING.—There is hereby created an Advisory Committee on Purchasing, which shall be composed of the Governor, Secretary of State, the Attorney General, the State Treasurer, the State Comptroller, the Commissioner of Agriculture, and the State Superintendent of Public Instruction, and their successors in office. Four members of the Advisory Committee on Purchasing so constituted shall constitute a quorum, and the Governor shall be the Chairman thereof.

Section 5. POWERS AND DUTIES.—The Advisory Committee on Purchasing shall act in an advisory capacity to the Director of Purchasing and shall make recommendations to said Director on matters of Policy relating to the administration of this Act. Said Committee shall have the right to inspect, at all times and with or without notice to the Director, the Administrative machinery set up by the Director to carry out the provisions of this Act, including the books and records of his office. Complaints against the policies, methods or administration of this Act may be made by any person to said advisory committee and the advisory committee shall hear the same and transmit to the Governor in writing such information and evidence as the Committee deems justified.

Section 6. EMPLOYEES OF THE DEPARTMENT.—The Director of Purchasing may employ such assistants and such other employees as may be necessary to enable him to carry out his duties under this Act. The qualification, duties, and salaries of such assistants and employees shall be as prescribed by the Director. Such assistants and employees shall be required to give bond in an amount to be prescribed by the Director, the premiums for which shall be paid out of the funds appropriated to the State Purchasing Department.

Section 7. PURCHASING BY USING AGENCIES PROHIBITED.—No material, supplies or equipment shall be purchased by or on behalf of any Using Agency except through the State Purchasing Department; provided, however, that emergency purchases, purchases of perishables, purchases of other items of material, supplies, and equipment, which are not adaptable to central purchasing when authorized by the director of purchasing, and purchases not in excess of \$150.00 (provided no purchase shall be divided for the purpose of complying with this provision) must comply with Section 11 of this Act. Provided further that the terms of this Act shall not apply to the purchase of school text books and educational instruction materials by the State Text Book Purchasing Board.

Section 8. APPROVAL OF PURCHASES BY USING AGENCIES.—No purchase of material, supplies or equipment required by this Act to be purchased by the State Purchasing Department shall be made except upon authority of a requisition from the Using Agency.

Section 9. TRANSFER AND SALE OF SURPLUS MATERIALS.—Any material, supplies or equipment of any Using Agency which shall be determined by such Agency to be surplus and reported to the Director of Purchasing as such, may be transferred by said Director to another Using Agency having need therefor, at a fair value payable to the State Treasurer for the account of the Using Agency owning and reporting such surplus. Any such surplus not required by another Using Agency may be sold by the Director after advertising for bids on said surplus supplies, equipment or materials and said Director of Purchasing shall sell the same to the highest bidder therefor, unless the bid or bids are so low as to cause the director to reject all of said bids, provided said requirement of bids may be waived in writing by the governor

or the advisory committee, and the proceeds of such sale remitted in the manner above provided.

Section 10. RULES AND REGULATIONS.—The Director of Purchasing is authorized to adopt, promulgate, and from time to time to amend or rescind, such rules and regulations as are necessary or desirable to carry out the provisions of this Act; provided, however, that no rules and regulations shall become effective except, unless and until such rules and regulations shall have been submitted to and approved by the Advisory Committee on Purchasing. The Director of Purchasing shall make rules and regulations requiring no contract shall be let nor purchase nor rental made unless at least three bids are received therefor, and for the waiving of the requirement for at least three bids in special instances, but such waiver of three bids shall not be effective unless approved in writing by the Governor or the Advisory Committee. Such rules and regulations shall provide for the economical administration of this Act and shall be in furtherance of the economical purchase, rent or lease as hereinabove provided and may include rules allowing a preference of two per cent in favor of suppliers who maintain a place of business in the State of Florida.

Section 11. MAXIMUM PRICE LIST.—The Director of Purchasing shall prepare a list of maximum prices for distribution to Using Agencies of various materials, supplies and equipment used or that may be used by such Using Agencies and such material, supplies and equipment may be purchased directly by the Using Agencies in the manner hereinafter provided. The Director of Purchasing may either indicate on such list of prices furnished the Using Agencies where the supplies may be purchased at such maximum price or he may advise the Using Agencies that such a list is in his office, subject to their inspection. Upon the preparation and publication of such maximum list price as aforesaid no Using Agency may purchase any item appearing thereon at a price in excess of the maximum price on the most recent list. The Using Agencies when buying items which appear on such list may, however, purchase at prices lower than the maximum price specified provided like quality of material supplies or equipment are purchased.

Section 12. PUBLIC PRINTING.—Public Printing, and purchase of advertising being primarily contractual services rather than the purchase of material, supplies and equipment within the meaning of this Act, are hereby specifically excluded from the operation of this Act, and nothing contained herein shall be construed to repeal any laws of this State relating to public printing or to advertising.

Section 13. SEVERABILITY.—If any provisions of this Act or any rule, regulation or order thereunder, or the application of same to any person or circumstances shall be held invalid, the remainder of this Act and the application of such provision of this Act or of such rule, regulation or order to persons or circumstances other than those as to which it is held invalid shall not be affected thereby.

Section 14. All laws or parts of laws in conflict herewith are hereby repealed.

Section 15. This Act shall take effect on the 1st day of July, 1949; provided that until the State Purchasing Department can perfect the machinery for the performance of the duties herein provided, the Advisory Committee may, by resolution, authorize Using Agencies to purchase as heretofore certain kinds or classes of material, supplies or equipment; except this proviso shall not be effective beyond the period of one year.

Section 3. All monies received by the Institutions under the management of the State Board of Control, other than from State and Federal sources, are hereby appropriated to the use of the State Board of Control, for the respective Institutions collecting same, to be expended as the State Board of Control may direct, provided however, that said funds shall not be expended except in pursuance of detailed budgets filed with and approved by the Budget Commission.

Section 4. The State Board of Control is hereby empowered to fix and collect fees for materials, correspondence study and extensions incident thereto, through the General Extension Department; and it is expressly provided that all such fees so collected by the said Board of Control shall not affect the State Appropriation or be deducted therefrom, and they shall be used only for the purposes for which they are collected, and said fees shall be deposited for accounting with the Comptroller of the State of Florida, who upon the order of said Board of Control, shall draw his warrants on the State Treasurer in payment for the said materials, correspondence study, and extension teaching and expenses incident thereto. In its Biennial report the Board of Control shall make report in detail of the expenditure of said funds, together with a report of the work done.

Section 5. The State Board of Control, and the Board of Commissioners of State Institutions, are hereby authorized, subject to the approval of the Budget Commission, to purchase automobiles, trucks, tractors and other automotive equipment, for the use of institutions under the management of said Board of Control and said Board of Commissioners of State Institutions.

Section 6. Where the salary of any officer or employee of the State has not been changed by any Act of the Legislature of 1949, the appropriation herein for salaries respecting such officer or employee shall control the salary or compensation to be paid such officer or employee.

Section 7 (1) The State Budget Commission shall have power to and it shall have the power and authority to review and approve the number, and the salary, of the employees of each of the several state departments, bureaus, boards, commissions, divisions, institutions, and all other state agencies created or provided by the statutes of this state, when supported, either directly or indirectly, from any form of state taxation, licenses, fees, exactions or imposts under the laws of this state.

(2) The salary, or combined salaries, or other compensation for services, of any state officer or employee, or employee of any state department, bureau, board, commission, division, institution or other state agency in this state, and for which appropriation is herein made may not exceed the salary fixed by law for any member of the governor's cabinet, unless otherwise expressly provided by law; provided however, that this shall not apply to any of the institutions of higher learning under the Board of Control.

(3) The State Budget Commission, in reviewing and approving the number of employees and their salary or other compensation, may, if the same be found to be feasible and workable, classify the various types of state employment.

(4) No person may hold more than one employment, or receive compensation from more than one appropriation, in the state treasury, except when duly authorized in writing by the State Budget Commission.

Section 8. Any monies appropriated by this Act for the first year of the biennium not used in the first year of the biennium and not contracted to be expended may be used for a like purpose in the second year of the biennium, but any fund unexpended and not contracted to be expended as provided by this Act at the end of the biennium shall revert to the fund from which appropriated and be available for re-appropriation.

Any balance remaining to the credit of the appropriation made herein not disbursed but contracted to be expended shall, on or before June 30th of the end of the biennial appropriation year, be certified to the Budget Commission, a copy of which certification shall be filed with Comptroller, showing in detail to whom obligated and the amount of such obligation. In the event this certification is not made and the obligation proven to be just, due and unpaid then the same

shall be paid and charged to the current year's appropriation of the department affected. No official, commission, board, department or other agency of the State Government shall contract to spend or enter into any agreement to spend any monies in excess of the amount appropriated herein and any contract or agreement in violation of this provision shall be null and void. All budgets of all departments and divisions of Government shall be subject to semiannual revision and control by the Budget Commission at the end of any appropriation year.

Any monies in this Act or heretofore appropriated for capital outlay under the Minimum Foundation Program and which have been apportioned to the several counties shall be transferred to the Trust Fund to the credit of the respective counties until paid to them in accordance with provisions of Chapter 23,726, Acts of 1947, or any amendments thereto.

Section 9. Federal money appropriated by the Congress of the United States to be used for State purposes, whether by itself or in conjunction with monies appropriated by the Legislature of the State, is hereby re-appropriated as far as it may be necessary for the purpose for which same was made available and insofar as the same is permitted by the Federal Statutes.

Section 10. All appropriations provided for by this Act are maximum appropriations, based upon the collection of sufficient revenue to meet and provide for such appropriations. If, in the opinion of the Governor, the revenues to be collected will be insufficient to meet the appropriations herein provided for, he shall so certify to the Budget Commission, and the Budget Commission shall adjust and/or reduce the Budget of any department or Board by the consolidation of positions or duties to the end that efficiency and economy may result therefrom, and the appropriations kept within the revenues of the State. In the event the Budget Commission shall fail to adjust and/or reduce budgets of the several Departments after the Governor has certified that the anticipated revenue will not permit of the maximum appropriation herein made, the Governor is hereby vested with power and authority to effect such changes by executive order, it being the intent and purpose of this Section to prevent any deficit in any department of the State Government, and that the revenues available shall be used in the most efficient and economical manner; provided, however, that this section shall not be construed to mean that the Governor or the Budget Commission has the power to eliminate any Department of Government.

Section 11. No part of the moneys appropriated by this Act shall be available for the purchase of liability insurance, unless such insurance carry a waiver by the insurer of Governmental immunity from suit, to extent of such insurance carried.

Section 12. Immediately before the beginning of each fiscal year, the budget commission or the budget director, if there be such officer, shall require the head of each spending agency to submit on forms prescribed by the budget commission, a work program for the budget year, which program shall include all appropriations for operation and all anticipated revenue and receipts, and maintenance expenditures and for the acquisition of property, and it shall show the requested allotments of said appropriations for such spending agency for the ensuing year. The budget commission shall review the requested allotments in the light of the work program of the spending agency concerned and as reported by the budget director, if there be such officer, the budget commission shall, if it deems necessary, revise, alter or change such allotments before approving the same. The aggregate of such allotments shall not exceed the total appropriations available to said spending agency for the budget year. The budget commission, or the budget director, if there be such officer, shall transmit a copy of the approved allotments to the head of the spending agency concerned and also a copy to the state comptroller. The state comptroller shall authorize all expenditures to be made from the appropriations on the basis of such allotments, and not otherwise.

The head of any spending agency of the government, whenever he shall deem it necessary by reason of changed conditions, may revise the work program of his agency at the beginning of any quarter during the budget year and submit such revised program to the budget commission, or to the

budget director, if there be such an officer, with his request for a revision of the allotments for the remaining quarters of the budget year. If, upon a re-examination of the work program, the budget commission shall decide to grant the request for a revision of the allotments, the same procedure, as far as it relates to review, approval, and control, shall be followed as in making the original allotments.

In order to provide funds for possible emergencies arising during the budget year in the operation and maintenance expenditures of the various spending agencies, the budget commission may require the head of each spending agency, in making the original allotments, set aside at least five per cent of the total amount appropriated as a reserve. At any time during the budget year, this reserve, or any portion of it, may be returned to the appropriation to which it belongs and be added to any one or more of the allotments, provided the budget commission shall deem such action necessary, and shall notify the comptroller of such action; any unused portion thereof shall remain at the end of the budget period as an unexpended balance of appropriation.

Section 13. In addition to all other appropriations herein there is hereby appropriated the sum of \$500,000.00 annually for the purpose of supplying immediate funds for any unforeseen emergency that may arise and for the purpose of supplying additional funds to any state office, commission, department, board, bureau, institution or other agency of the State Government, if the appropriations made herein are found to be insufficient to pay the necessary cost of proper administration of the duties assigned. This appropriation shall be under the complete supervision and control of the State Budget Commission and the Budget Commission is hereby authorized in its discretion, to designate any part of this fund for paying necessary expenses as above provided after public hearing and ample evidence of needs; provided, however, that application to the commission shall first be made in writing, giving a complete statement of funds needed; provided, however, that no expenditures shall be authorized except by vote of a majority of the Budget Commission whether all members are present or not, and provided further, that this shall not be construed to authorize the Budget Commission to create any new department or function and no part of this appropriation shall be used for attorney fees, or for the construction of any building.

Section 14. Any sum or sums appropriated for salaries, if not required for such purposes, may be applied to expense of the department to which they are appropriated, but in no event shall any sum or sums specifically appropriated for expenses be applied to salaries, except, that day labor may be construed as coming within Expenses. Any sum paid out under this Act or any other Act from the monies appropriated herein shall be by State Warrant drawn by the Comptroller and countersigned by the Governor upon the State Treasury, payable to the ultimate beneficiary.

Section 15. Any appropriation to any department or agency which is classified as "emergency" or "contingency" may be expended only with the express approval of the Budget Commission. The department or agency desiring the use of any such appropriation shall submit to the Budget Commission application therefor in writing setting forth the facts from which the alleged emergency arises. The Budget Commission shall, at a public hearing review such application promptly and approve or disapprove the same as the circumstances may warrant; provided that an affirmative vote of five (5) members of the Commission shall be required for approval of such request.

Section 16. Any Section of this Act, or any special item of appropriation herein contained, if found to be invalid or vetoed by the Governor without over-riding action of the Legislature, shall in no way affect other sections or other items or appropriation contained in this Act.

Section 17. All laws or parts of laws in conflict herewith are hereby repealed.

Section 18. This Act shall take effect on July 1, 1949.

Section 3. All monies received by the Institutions under the management of the State Board of Control, other than from State and Federal sources, are hereby appropriated to the use of the State Board of Control, for the respective Institutions collecting same, to be expended as the State Board of Control may direct, provided however, that said funds shall not be expended except in pursuance of detailed budgets filed with and approved by the Budget Commission.

Section 4. The State Board of Control is hereby empowered to fix and collect fees for materials, correspondence study and extensions incident thereto, through the General Extension Department; and it is expressly provided that all such fees so collected by the said Board of Control shall not affect the State Appropriation or be deducted therefrom, and they shall be used only for the purposes for which they are collected, and said fees shall be deposited for accounting with the Comptroller of the State of Florida, who upon the order of said Board of Control, shall draw his warrants on the State Treasurer in payment for the said materials, correspondence study, and extension teaching and expenses incident thereto. In its Biennial report the Board of Control shall make report in detail of the expenditure of said funds, together with a report of the work done.

Section 5. The State Board of Control, and the Board of Commissioners of State Institutions, are hereby authorized, subject to the approval of the Budget Commission, to purchase automobiles, trucks, tractors and other automotive equipment, for the use of institutions under the management of said Board of Control and said Board of Commissioners of State Institutions.

Section 6. Where the salary of any officer or employee of the State has not been changed by any Act of the Legislature of 1949, the appropriation herein for salaries respecting such officer or employee shall control the salary or compensation to be paid such officer or employee.

Section 7. (1) The State Budget Commission shall have power to and it shall have the power and authority to review and approve the number, and the salary, of the employees of each of the several state departments, bureaus, boards, commissions, divisions, institutions, and all other state agencies created or provided by the statutes of this state, when supported, either directly or indirectly, from any form of state taxation, licenses, fees, exactions or imposts under the laws of this state.

(2) The salary, or combined salaries, or other compensation for services, of any state officer or employee, or employee of any state department, bureau, board, commission, division, institution or other state agency in this state, and for which appropriation is herein made may not exceed the salary fixed by law for any member of the governor's cabinet, unless otherwise expressly provided by law; provided however, that this shall not apply to any of the institutions of higher learning under the Board of Control.

(3) The State Budget Commission, in reviewing and approving the number of employees and their salary or other compensation, may, if the same be found to be feasible and workable, classify the various types of state employment.

(4) No person may hold more than one employment, or receive compensation from more than one appropriation, in the state treasury, except when duly authorized in writing by the State Budget Commission.

Section 8. Any monies appropriated by this Act for the first year of the biennium not used in the first year of the biennium and not contracted to be expended may be used for a like purpose in the second year of the biennium, but any fund unexpended and not contracted to be expended as provided by this Act at the end of the biennium shall revert to the fund from which appropriated and be available for re-appropriation.

Any balance remaining to the credit of the appropriation made herein not disbursed but contracted to be expended shall, on or before June 30th of the end of the biennial appropriation year, be certified to the Budget Commission, a copy of which certification shall be filed with Comptroller, showing in detail to whom obligated and the amount of such obligation. In the event this certification is not made and the obligation proven to be just, due and unpaid, then the

same shall be paid and charged to the current year's appropriation of the department affected. No official, commission, board, department or other agency of the State Government shall contract to spend or enter into any agreement to spend any monies in excess of the amount appropriated herein and any contract or agreement in violation of this provision shall be null and void. All budgets of all departments and divisions of Government shall be subject to semiannual revision and control by the Budget Commission at the end of any appropriation year.

Any monies in this Act or heretofore appropriated for capital outlay under the Minimum Foundation Program and which have been apportioned to the several counties shall be transferred to the Trust Fund to the credit of the respective counties until paid to them in accordance with provisions of Chapter 23,726, Acts of 1947, or any amendments thereto.

Section 9. Federal money appropriated by the Congress of the United States to be used for State purposes, whether by itself or in conjunction with monies appropriated by the Legislature of the State, is hereby re-appropriated as far as it may be necessary to the purpose for which same was made available and insofar as the same is permitted by the Federal Statutes.

Section 10. All appropriations provided for by this Act are maximum appropriations, based upon the collection of sufficient revenue to meet and provide for such appropriations. If, in the opinion of the Governor, the revenues to be collected will be insufficient to meet the appropriations herein provided for, he shall so certify to the Budget Commission, and the Budget Commission shall adjust and/or reduce the Budget of any department or Board by the consolidation of positions or duties to the end that efficiency and economy may result therefrom, and the appropriations kept within the revenues of the State. In the event the Budget Commission shall fail to adjust and/or reduce budgets of the several Departments after the Governor has certified that the anticipated revenue will not permit of the maximum appropriation herein made, the Governor is hereby vested with power and authority to effect such changes by executive order, it being the intent and purpose of this Section to prevent any deficit in any department of the State Government, and that the revenues available shall be used in the most efficient and economical manner; provided, however, that this section shall not be construed to mean that the Governor or the Budget Commission has the power to eliminate any Department of Government.

Section 11. No part of the moneys appropriated by this Act shall be available for the purchase of liability insurance, unless such insurance carry a waiver by the insurer of Governmental immunity from suit, to extent of such insurance carried.

Section 12. Immediately before the beginning of each fiscal year, the budget commission or the budget director, if there be such officer, shall require the head of each spending agency to submit on forms prescribed by the budget commission, a work program for the budget year, which program shall include all appropriations for operation and all anticipated revenue and receipts, and maintenance expenditures and for the acquisition of property, and it shall show the requested allotments of said appropriations for such spending agency for the ensuing year. The budget commission shall review the requested allotments in the light of the work program of the spending agency concerned and as reported by the budget director, if there be such officer, the budget commission shall, if it deems necessary, revise, alter or change such allotments before approving the same. The aggregate of such allotments shall not exceed the total appropriations available to said spending agency for the budget year. The budget commission, or the budget director, if there be such officer, shall transmit a copy of the approved allotments to the head of the spending agency concerned and also a copy to the state comptroller. The state comptroller shall authorize all expenditures to be made from the appropriations on the basis of such allotments, and not otherwise.

The head of any spending agency of the government, whenever he shall deem it necessary by reason of changed conditions, may revise the work program of his agency at the beginning of any quarter during the budget year and submit such revised program to the budget commission, or to the budget director, if there be such an officer, with his request for a revision of the allotments for the remaining quarters of

the budget year. If, upon a re-examination of the work program, the budget commission shall decide to grant the request for a revision of the allotments, the same procedure, as far as it relates to review, approval, and control, shall be followed as in making the original allotments.

In order to provide funds for possible emergencies arising during the budget year in the operation and maintenance expenditures of the various spending agencies, the budget commission may require the head of each spending agency, in making the original allotments, set aside at least five per cent of the total amount appropriated as a reserve. At any time during the budget year, this reserve, or any portion of it, may be returned to the appropriation to which it belongs and be added to any one or more of the allotments, provided the budget commission shall deem such action necessary, and shall notify the comptroller of such action; any unused portion thereof shall remain at the end of the budget period as an unexpended balance of appropriation.

Section 13. In addition to all other appropriations herein there is hereby appropriated the sum of \$500,000.00 annually for the purpose of supplying immediate funds for any unforeseen emergency that may arise and for the purpose of supplying additional funds to any state office, commission, department, board, bureau, institution or other agency of the State Government, if the appropriations made herein are found to be insufficient to pay the necessary cost of proper administration of the duties assigned. This appropriation shall be under the complete supervision and control of the State Budget Commission and the Budget Commission is hereby authorized in its discretion, to designate any part of this fund for paying necessary expenses as above provided after public hearing and ample evidence of needs; provided, however, that application to the commission shall first be made in writing, giving a complete statement of funds needed; provided, however, that no expenditures shall be authorized except by vote of a majority of the Budget Commission whether all members are present or not, and provided further, that this shall not be construed to authorize the Budget Commission to create any new department or function and no part of this appropriation shall be used for attorney fees, or for the construction of any building.

Section 14. Any sum or sums appropriated for salaries, if not required for such purposes, may be applied to expense of the department to which they are appropriated, but in no event shall any sum or sums specifically appropriated for expenses be applied to salaries, except, that day labor may be construed as coming within Expenses. Any sum paid out under this Act or any other Act from the monies appropriated herein shall be by State Warrant drawn by the Comptroller and countersigned by the Governor upon the State Treasury, payable to the ultimate beneficiary.

Section 15. Any appropriation to any department or agency which is classified as "emergency" or "contingency" may be expended only with the express approval of the Budget Commission. The department or agency desiring the use of any such appropriation shall submit to the Budget Commission application therefor in writing setting forth the facts from which the alleged emergency arises. The Budget Commission shall, at a public hearing review such application promptly and approve or disapprove the same as the circumstances may warrant; provided that an affirmative vote of five (5) members of the Commission shall be required for approval of such request.

Section 16. Any Section of this Act, or any special item of appropriation herein contained, if found to be invalid or vetoed by the Governor without over-riding action of the Legislature, shall in no way affect other sections or other items or appropriation contained in this Act.

Section 17. All laws or parts of laws in conflict herewith are hereby repealed.

Section 18. This Act shall take effect on July 1, 1949.

Your Conference Committee appointed for the reconciliation of the differences on House Amendments to Senate Bill No. 84, providing for a Central Purchasing Agency, were informed by the Committee from the House of Representatives that they would not recede in any particular from their amendments.
