Grant Thy wisdom and unfailing guidance to all in authority, from our President down to the humblest local official, that we may enjoy good government and wise Christian leadership. WHEREAS, during the first half of this century the economic and social conditions of the world have gone through an evolution and change unequalled in any like period in history, and

WHEREAS, the demands of our State government, in order to meet these rapidly changing conditions, have been so compelling and so diverse that from time to time new agencies, offices and services have been established until there are now more than one hundred twenty-seven (127) separate departments, divisions, boards, councils, commissions and other agencies within the framework of the State government, and

WHEREAS, for the accomplishment of such purpose there must be submitted to the State Legislature a thorough and ably thought out plan of reorganization of State government, and to this end, NOW THEREFORE

BE IT RESOLVED BY THE SENATE OF THE STATE OF FLORIDA. THE HOUSE OF REPRESENTATIVES CONCURRING:

WHEREAS, the Senate of the State of Florida during the Legislative Session of 1931, in accordance with its time-honored traditional rules of organization and parliamentary practice, by democratic holdover caucus, did duly elect and designate the Honorable Everett Markley Johns, of Starke, Florida, the then Senator of the Fifteenth Senatorial District of Florida, to be and become the President of the Florida State Senate for the Legislative Session of 1933, and

WHEREAS, by the fortuity of fate and the inscrutable Judgment of the Lord, Senator Everett Markley Johns' earthly mission and public service to his district and State were terminated by his untimely and universally regretted death on January 6, 1932, before he could assume the active duties of President of the Senate of the Florida State Legislature for the session of 1933, and

WHEREAS, Charley E. Johns, the brother of said Senator Everett Markley Johns, did enter public life to continue his deceased brother's public service and legislative career by representing the same constituencies, first in the House and later in the Senate; and, Senator Charley E. Johns has now, as was his brother, Everett Markley Johns, before him, been duly elected and designated as President of the Senate for the session of 1953 of the Florida State Legislature; and thereby enabled to achieve and fulfill his brother's unrealized honors and interrupted service, and

WHEREAS, it has been and is now the respected custom of the Senate of the State of Florida to have the portraits of the Presidents of the Senate of Florida painted and hung in the Senate Chamber of the Legislature of Florida, NOW, THEREFORE,

BE IT RESOLVED BY THE SENATE OF THE STATE OF FLORIDA IN REGULAR SESSION SITTING FOR THE LEGISLATIVE SESSION OF 1951:

(2) The salary, or combined salaries, or other compensation for services, of any state officer or employee, or employee of any state department, bureau, board, commission, division, institution or other state agency in this State, and for which appropriation is herein made may not exceed the

salary fixed by law for any member of the governor's cabinet, unless otherwise expressly provided by law; provided, however, that this shall not apply to any of the institutions of higher learning under the Board of Control.

(3) The State Budget Commission, in reviewing and approving the number of employees and their salary or other compensation, may, if the same be found to be feasible and workable, classify the various types of state employment.

(4) No person may hold more than one employment, or receive compensation from more than one appropriation, in the State Treasury, except when duly authorized in writing by the State Budget Commission.

Section 9. Any monies appropriated by this Act for the first year of the biennium not used in the first year of the biennium and not contracted to be expended may be used for a like purpose in the second year of the biennium, but any fund unexpended and not contracted to be expended as provided by this Act at the end of the biennium shall revert to the fund from which appropriated and be available for re-appropriation.

Any balance remaining to the credit of the appropriation made herein not disbursed but contracted to be expended shall, on or before June 30th of the end of the biennial appropriation year, be certified to the Budget Commission, a copy of which certification shall be filed with the Comptroller, showing in detail to whom obligated and the amount of such obligation. In the event this certification is not made and the obligation proven to be just, due and unpaid, then the same shall be paid and charged to the current year's appropriation of the department affected. No official, commission, board, department or other agency of the State Government shall contract to spend or enter into any agreement to spend any monies in excess of the amount appropriated herein and any contract or agreement in violation of this provision shall be null and void. All budgets of all departments and divisions of Government shall be subject to semi-annual revision and control by the Budget Commission at the end of any appropriation year.

Any monies in this Act or heretofore appropriated for capital outlay under the Minimum Foundation Program and which have been apportioned to the several counties shall be transferred to the Trust Fund to the credit of the respective counties until paid to them in accordance with provisions of Chapter 23726, Acts of 1947, or any amendments thereto.

Section 10. Federal money appropriated by the Congress of the United States to be used for State purposes, whether by itself or in conjunction with monies appropriated by the Legislature of the State, is hereby re-appropriated as far as it may be necessary to the purpose for which same was made available and insofar as the same is permitted by the Federal Statutes; provided, however, that none of said monies shall be used to pay any increase in salaries above the salaries being paid on September 1, 1950, nor shall said monies be used for the creation of any new positions except those required to meet Federal regulations.

Section 11. All appropriations provided for by this Act are maximum appropriations, based upon the collection of sufficient revenue to meet and provide for such appropriations. If, in the opinion of the Governor, the revenues to be collected will be insufficient to meet the appropriations herein provided for, he shall so certify to the Budget Commission, and the Budget Commission shall adjust and/or reduce the budget of any department or board to the end that efficiency and economy may result therefrom, and the appropriations kept within the revenues of the State. In the event the Budget Commission shall fail to adjust and/or reduce budgets of the several departments after the Governor has certified that the anticipated revenue will not permit of the maximum appropriation herein made, the Governor is hereby vested with the power and authority to effect such changes by executive order, it being the intent and purpose of this Section to prevent any deficit in any department of the State Government, and that the revenues available shall be used in the most efficient and economical manner; provided, however, that this section shall not be construed to mean that the Governor or the Budget Commission has the power to eliminate any Department of Government.

Section 12. There is hereby appropriated from the expense funds of the State Board of Administration lawful subsistence and mileage expenses of the Attorney General and his staff in handling all legal matters for said Board in lieu of all salaries and expenses for an attorney or attorneys or his or their legal secretaries heretofore employed by said board. This provision is intended as an appropriation for said purposes and operates as a legislative limitation on the expenses of said board as authorized by Section 16 of Article IX of the State Constitution.

Section 13. In aid of the provisions of Section 30, Article IV of the State Constitution, relating to the Game and Fresh Water Fish Commission, there is hereby appropriated from the State Game Fund sufficient funds to pay the lawful subsistence and mileage expenses of the Attorney General and his staff in handling all legal matters for said Commission. This provision and appropriation contemplates that it will aid the Commission and better serve the purposes contemplated by said Section 30 of Article IV, and not be inconsistent therewith.

Section 14. Immediately before the beginning of each fiscal year, the Budget Commission or the budget director, if there be such officer, shall require the head of each spending agency to submit on forms prescribed by the Budget Commission, a work program for the budget year, which program shall include all appropriations for operation and all anticipated revenue and receipts, and maintenance expenditures and for the acquisition of property, and it shall show the requested allotments of said appropriations for such spending agency for the ensuing year. The Budget Commission shall review the requested allotments in the light of the work program of the spending agency concerned and as reported by the budget director if there be such officer, the Budget Commission shall, if it deems necessary, revise, alter or change such allotments before approving the same. The aggregate of such allotments shall not exceed the total appropriations available to said spending agency for the budget year. The Budget Commission, or the budget director, if there be such officer, shall transmit a copy of the approved allotments to the head of the spending agency concerned and also a copy to the State Comptroller. The State Comptroller shall authorize all expenditures to be made from the appropriations on the basis of such allotments, and not otherwise.

The head of any spending agency of the government, whenever he shall deem it necessary by reason of changed conditions, may revise the work program of his agency at the beginning of any quarter during the budget year and submit such revised program to the Budget Commission, or to the budget director, if there be such an officer, with his request for a revision of the allotments for the remaining quarters of the budget year. If, upon a re-examination of the work program, the budget commission shall decide to grant the request for a revision of the allotments, the same procedure, as far as it relates to review, approval, and control, shall be followed as in making the original allotments.

In order to provide funds for possible emergencies arising during the budget year in the operation and maintenance expenditures of the various spending agencies, the Budget Commission may require the head of each spending agency, in making the original allotments, set aside at least five per cent of the total amount appropriated as a reserve. At any time during the budget year, this reserve, or any portion of it, may be returned to the appropriation to which it belongs and be added to any one or more of the allotments, provided the Budget Commission shall deem such action necessary, and shall notify the Comptroller of such action; any unused portion hereof shall remain at the end of the budget period as an unexpended balance of appropriation.

Section 15. Under Section 1, Item 77, of this Act there is provided the sum of \$150,000.00 annually for the purpose of supplying immediate funds for any unforeseen emergency that may arise. This appropriation shall be under the complete supervision and control of the State Budget Commission, and the Budget Commission is hereby authorized in its discretion to designate any part of this appropriation for meeting necessary expenses brought about by such emergency as above provided after public hearing and ample evidence is presented to the Budget Commission of the need for such emergency appropriation; provided, however, that no expenditures shall be authorized except by the concurring vote of

five members of the Budget Commission; and provided, further, that this shall not be construed to authorize the Budget Commission to create any new department or function, and no part of this appropriation shall be used for attorneys' fees, increase of salaries or for the construction of any building.

Section 16. Under Section 1, Item 78 of this Act, there is provided the sum of \$200,000.00 annually for the purpose of supplying additional funds to any State office, commission, department, board, bureau, institution or other agency of the State government, if the appropriations made herein are found to be insufficient to pay the necessary costs of proper administration of the duties assigned. This appropriation shall be under the complete supervision and control of the State Budget Commission, and the Budget Commission is hereby authorized in its discretion to designate any part of this appropriation for paying necessary expenses as above provided, after public hearing and ample evidence of needs; provided, however, that application to the Commission shall first be made in writing, giving a complete statement of funds needed and the reasons therefor; provided, however, that no expenditures shall be authorized except by the concurring vote of five members of the Budget Commission, and provided further, that this shall not be construed to authorize the Budget Commission to create any new department or function and no part of this appropriation shall be used for attorneys' fees, increase of salaries or for the construction of any building.

Section 17. If the sums hereby appropriated for any purpose under Section 2 of this Act are found by the Budget Commission to be insufficient for the operation of any function of the Department of Agriculture, then in that event the Budget Commission upon an affirmative vote of five (5) members of the Commission, is hereby authorized to release from said contingent appropriation such amount or amounts as the Budget Commission may find to be necessary to meet such deficiency; provided, however, that no funds may be released from said contingent appropriation for the increase of salaries.

Section 18. All appropriations for salaries, except those specifically provided for hereinbefore, shall not be used to increase any salaries which were fixed as of May 1, 1951, by any department, bureau, agency, board or official; provided, however, that any employee whose salary is less than that paid for permanent comparable work or duties to other employees shall be entitled in the discretion of the employing official or board to receive increases in salaries up to but not to exceed the salary being paid on May 1, 1951, to other employees for such permanent comparable work or duties; provided further that when any vacancy occurs and an employee is advanced to fill such vacancy he may receive the salary paid for such position; and be it further provided that upon a written recommendation including the reasons therefor made to the State Budget Commission by the head of any department, bureau, agency or board, the Budget Commission in its discretion may allow other advances in salaries for employees, where essential to promote the efficiency of the public service. This shall not apply to Item 29, Florida State Prison (Raiford).

Section 19. Any sum or sums appropriated for salaries, if not required for such purposes, may be applied to expenses of the department to which they are appropriated by approval of the Budget Commission, but in no event shall any sum or sums specifically appropriated for expenses be applied to salaries, except that day labor may be construed as coming within expenses. Any sum paid out under this Act or any other Act from the monies appropriated herein shall be by State Warrant drawn by the Comptroller and countersigned by the Governor upon the State Treasury, payable to the ultimate beneficiary.

Section 20. Any appropriation to any department or agency which is classified as "emergency" or "contingency" may be expended only with the express approval of the Budget Commission. The department or agency desiring the use of any such appropriation shall submit to the Budget Commission application therefor in writing setting forth the facts from which the alleged emergency arises. The Budget Commission shall, at a public hearing review such application promptly and approve or disapprove the same as the circumstances may warrant; provided that an affirmative

vote of five (5) members of the Commission shall be required for approval of such request.

Section 21. Any section of this Act, or any special item of appropriation herein contained, if found to be invalid or vetoed by the Governor without over-riding action of the Legislature, shall in no way affect other sections or other items or appropriations contained in this Act.

Section 22. All laws or parts of laws in conflict herewith are hereby repealed.

Section 23. This Act shall take effect on July 1, 1951.
