Section 3. That the following sums are hereby appropriated as the amounts to be used to pay the salaries and the expenses of the activities of the State Racing Commission for the annual period beginning July 1, 1951, and for the biennium.

THE FOLLOWING SUMS ARE HEREBY APPROPRIATED OUT OF THE STATE RACING COMMISSION FUND

Item	First Year	Biennium
1. FLORIDA STATE RACING COMMISSION		
a. Salaries	\$ 245,977.00	\$ 504,369.00
b. Expenses	34,671.00	75,254.00
TOTAL	\$ 280,648.00	\$ 579,623.00

Provided, however, that no monies appropriated herein may be used to pay for the travel expenses of the members and employees of the State Racing Commission in excess of the amount allowed by law for other State officials and employees.

Section 4. All monies received by the Institutions under the management of the State Board of Control, other than from State and Federal sources, are hereby appropriated to the use of the State Board of Control, for the respective Institutions collecting same, to be expended as the State Board of Control may direct, provided however, that said funds shall not be expended except in pursuance of detailed budgets filed with and approved by the Budget Commission, and provided that none of said funds may be used for the increase of salaries.

Section 5. The State Board of Control is hereby empowered to fix and collect fees for materials, correspondence study and extensions incident thereto, through the General Extension Division; and it is expressly provided that all such fees so collected by the said Board of Control shall not affect the State Appropriation or be deducted therefrom, and they shall be used only for the purposes for which they are collected, and said fees shall be deposited for accounting with the Comptroller of the State of Florida, who upon the order of said Board of Control, shall draw his warrants on the State Treasurer in payment for the said materials, correspondence study, and extension teaching and expenses incident thereto; provided, however, that none of said funds may be used for the increase of salaries. In its Biennial report the Board of Control shall make report in detail of the expenditure of said funds, together with a report of the work done.

Section 6. The State Board of Control, and the Board of Commissioners of State Institutions, are hereby authorized, subject to the approval of the Budget Commission, to purchase automobiles, trucks, tractors and other automotive equipment, for the use of institutions under the management of said Board of Control and said Board of Commissioners of State Institutions.

Section 7. Where the salary of any officer or employee of the State has not been changed by any Act of the Legislature of 1951, the appropriation herein for salaries respecting such officer or employee shall control the salary or compensation to be paid such officer or employee.

Section 8. (1) The State Budget Commission shall have the power to reduce but not to increase salaries and shall have the power and authority to review and approve the number of the employees of each of the several state departments, bureaus, boards, commissions, divisions, institutions, and all other state agencies created or provided by the statutes of this state, when supported, either directly or indirectly, from any form of state taxation, licenses, fees, exactions or imposts under the laws of this State, or from grants-in-aid from any source.

(2) The salary, or combined salaries, or other compensation for services, of any state officer or employee, or employee of any state department, bureau, board, commission, division, institution or other state agency in this State, and for which appropriation is herein made may not exceed the

salary fixed by law for any member of the governor's cabinet, unless otherwise expressly provided by law; provided, however, that this shall not apply to any of the institutions of higher learning under the Board of Control.

(3) The State Budget Commission, in reviewing and approving the number of employees and their salary or other compensation, may, if the same be found to be feasible and workable, classify the various types of state employment.

(4) No person may hold more than one employment, or receive compensation from more than one appropriation, in the State Treasury, except when duly authorized in writing by the State Budget Commission.

Section 9. Any monies appropriated by this Act for the first year of the biennium not used in the first year of the biennium and not contracted to be expended may be used for a like purpose in the second year of the biennium, but any fund unexpended and not contracted to be expended as provided by this Act at the end of the biennium shall revert to the fund from which appropriated and be available for re-appropriation.

Any balance remaining to the credit of the appropriation made herein not disbursed but contracted to be expended shall, on or before June 30th of the end of the biennial appropriation year, be certified to the Budget Commission, a copy of which certification shall be filed with the Comptroller, showing in detail to whom obligated and the amount of such obligation. In the event this certification is not made and the obligation proven to be just, due and unpaid, then the same shall be paid and charged to the current year's appropriation of the department affected. No official, commission, board, department or other agency of the State Government shall contract to spend or enter into any agreement to spend any monies in excess of the amount appropriated herein and any contract or agreement in violation of this provision shall be null and void. All budgets of all departments and divisions of Government shall be subject to semi-annual revision and control by the Budget Commission at the end of any appropriation year.

Any monies in this Act or heretofore appropriated for capital outlay under the Minimum Foundation Program and which have been apportioned to the several counties shall be transferred to the Trust Fund to the credit of the respective counties until paid to them in accordance with provisions of Chapter 23726, Acts of 1947, or any amendments thereto.

Section 10. Federal money appropriated by the Congress of the United States to be used for State purposes, whether by itself or in conjunction with monies appropriated by the Legislature of the State, is hereby re-appropriated as far as it may be necessary to the purpose for which same was made available and insofar as the same is permitted by the Federal Statutes; provided, however, that none of said monies shall be used to pay any increase in salaries above the salaries being paid on September 1, 1950, nor shall said monies be used for the creation of any new positions except those required to meet Federal regulations.

Section 11. All appropriations provided for by this Act are maximum appropriations, based upon the collection of sufficient revenue to meet and provide for such appropriations. If, in the opinion of the Governor, the revenues to be collected will be insufficient to meet the appropriations herein provided for, he shall so certify to the Budget Commission, and the Budget Commission shall adjust and/or reduce the budget of any department or board to the end that efficiency and economy may result therefrom, and the appropriations kept within the revenues of the State. In the event the Budget Commission shall fail to adjust and/or reduce budgets of the several departments after the Governor has certified that the anticipated revenue will not permit of the maximum appropriation herein made, the Governor is hereby vested with the power and authority to effect such changes by executive order, it being the intent and purpose of this Section to prevent any deficit in any department of the State Government, and that the revenues available shall be used in the most efficient and economical manner; provided, however, that this section shall not be construed to mean that the Governor or the Budget Commission has the power to eliminate any Department of Government.

Section 12. There is hereby appropriated from the expense funds of the State Board of Administration lawful subsistence and mileage expenses of the Attorney General and his staff in handling all legal matters for said Board in lieu of all salaries and expenses for an attorney or attorneys or his or their legal secretaries heretofore employed by said board. This provision is intended as an appropriation for said purposes and operates as a legislative limitation on the expenses of said board as authorized by Section 16 of Article IX of the State Constitution.

Section 13. In aid of the provisions of Section 30, Article IV of the State Constitution, relating to the Game and Fresh Water Fish Commission, there is hereby appropriated from the State Game Fund sufficient funds to pay the lawful subsistence and mileage expenses of the Attorney General and his staff in handling all legal matters for said Commission. This provision and appropriation contemplates that it will aid the Commission and better serve the purposes contemplated by said Section 30 of Article IV, and not be inconsistent therewith.

Section 14. Immediately before the beginning of each fiscal year, the Budget Commission or the budget director, if there be such officer, shall require the head of each spending agency to submit on forms prescribed by the Budget Commission, a work program for the budget year, which program shall include all appropriations for operation and all anticipated revenue and receipts, and maintenance expenditures and for the acquisition of property, and it shall show the requested allotments of said appropriations for such spending agency for the ensuing year. The Budget Commission shall review the requested allotments in the light of the work program of the spending agency concerned and as reported by the budget director if there be such officer, the Budget Commission shall, if it deems necessary, revise, alter or change such allotments before approving the same. The aggregate of such allotments shall not exceed the total appropriations available to said spending agency for the budget year. The Budget Commission, or the budget director, if there be such officer, shall transmit a copy of the approved allotments to the head of the spending agency concerned and also a copy to the State Comptroller. The State Comptroller shall authorize all expenditures to be made from the appropriations on the basis of such allotments, and not otherwise.

The head of any spending agency of the government, whenever he shall deem it necessary by reason of changed conditions, may revise the work program of his agency at the beginning of any quarter during the budget year and submit such revised program to the Budget Commission, or to the budget director, if there be such an officer, with his request for a revision of the allotments for the remaining quarters of the budget year. If, upon a re-examination of the work program, the budget commission shall decide to grant the request for a revision of the allotments, the same procedure, as far as it relates to review, approval, and control, shall be followed as in making the original allotments.

In order to provide funds for possible emergencies arising during the budget year in the operation and maintenance expenditures of the various spending agencies, the Budget Commission may require the head of each spending agency, in making the original allotments, set aside at least five per cent of the total amount appropriated as a reserve. At any time during the budget year, this reserve, or any portion of it, may be returned to the appropriation to which it belongs and be added to any one or more of the allotments, provided the Budget Commission shall deem such action necessary, and shall notify the Comptroller of such action; any unused portion hereof shall remain at the end of the budget period as an unexpended balance of appropriation.

Section 15. Under Section 1, Item 77, of this Act there is provided the sum of \$150,000.00 annually for the purpose of supplying immediate funds for any unforeseen emergency that may arise. This appropriation shall be under the complete supervision and control of the State Budget Commission, and the Budget Commission is hereby authorized in its discretion to designate any part of this appropriation for meeting necessary expenses brought about by such emergency as above provided after public hearing and ample evidence is presented to the Budget Commission of the need for such emergency appropriation; provided, however, that no expenditures shall be authorized except by the concurring vote of

five members of the Budget Commission; and provided, further, that this shall not be construed to authorize the Budget Commission to create any new department or function, and no part of this appropriation shall be used for attorneys' fees, increase of salaries or for the construction of any building.

Section 16. Under Section 1, Item 78 of this Act, there is provided the sum of \$200,000.00 annually for the purpose of supplying additional funds to any State office, commission, department, board, bureau, institution or other agency of the State government, if the appropriations made herein are found to be insufficient to pay the necessary costs of proper administration of the duties assigned.
