By Senator Connor—

SENATE MEMORIAL NO. 508—A MEMORIAL TO THE CONGRESS OF THE UNITED STATES FOR MORE LIBERALITY IN FEDERAL OLD AGE ASSISTANCE LAWS AS TO ALLOWING RECIPIENTS OF BENEFITS TO ACTUALLY EARN MORE MONEY AND HAVE MORE INCOME WITHOUT REDUCTION IN BENEFITS.

WHEREAS, the Federal Government under certain acts of Congress grant assistance to the several states for the benefit of the aged, and,

WHEREAS, under the terms of such grants the requirements are very strict in that benefits to any recipient will be reduced if they have certain, even negligible incomes, from earnings and otherwise, and

WHEREAS, in its present state the law discourages the recipient of old age assistance from making any efforts in his own behalf at all and tends to wholly and absolutely make him a burden on society, and

WHEREAS, such assistance should be looked upon as merely a supplement to the income produced by the efforts of the recipient from private sources, thus encouraging the old and aged recipient to continue his efforts in life rather than give up everything and become solely dependent upon public assistance, and

WHEREAS, costs to the Federal or State Government, if not reduced, certainly would not be increased by the institution of a program of more liberality in dealing with the aged under their various assistance laws and programs, NOW THEREFORE,

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF FLORIDA:

That the Congress of the United States of America is respectfully requested and urged to enact appropriate legislation as to welfare and old age assistance that will allow any recipient of old age assistance to earn or have an income of at least an average of three hundred sixty dollars (\$360.00) per year which would not be considered in determination of his needs for the purpose of assistance, in order that such aged persons may have some incentive to continue to earn a part or all of their livelihood.

RESOLVED FURTHER that all representatives and senators from Florida exert their every effort to accomplish the enactment of such legislation.

RESOLVED FURTHER that the administration of present laws be carried out so as to liberalize the present requirements as much as possible to carry out the intent of this memorial prior even to the enactment of the desired legislation.

RESOLVED FURTHER that a copy of this memorial be sent immediately by the Secretary of State of the State of Florida to each Florida representative and senator in Congress, to the President of the United States, to the President of the United States Senate and to the Speaker of the United States House of Representatives.

(1) Any unexpended balance of the appropriation for the first year of the biennium, as reflected in the records of the State Comptroller, may be used for a like purpose in the second year of the biennium, but any balance remaining unexpended and not contracted to be expended as provided in this Act at the end of the biennium shall revert to the fund from which appropriated and be available for re-appropriation.

(2) Any balance remaining to the credit of an appropriation made herein or otherwise provided by law, not disbursed but contracted to be expended shall, on or before June 30th of the end of the biennial appropriation period, be certified by the head of the spending agency to the State Budget Commission, showing in detail to whom obligated and the amount of such obligation. The State Budget Commission shall have the power and authority to review and approve any or all of the items and amounts as certified, and it shall furnish to the State Comptroller a detail listing of the items and amounts approved as just encumbrances against the unexpended balances of said appropriations; Provided, however, that on December 31st of the same calendar year any balance so encumbered but still not disbursed in the appropriations made in Section 1. and Section 3. of this Act or heretofore appropriated for general operating expenses shall automatically revert to the fund from which appropriated and shall be available for re-appropriation. In the event this certification is not made and the obligation proven to be just, due and unpaid, then the same shall be paid and charged to the current year's appropriation of the department affected.

(3) No Official, Department or Branch of the State Government shall contract to spend or enter into any agreement to spend any monies in excess of the amount appropriated herein or otherwise provided by law, and any contract or agreement in violation of this provision shall be null and void.

Section 11. Federal money appropriated by the Congress of the United States to be used for State purposes, whether by itself or in conjunction with monies appropriated by the Legislature of the State, is hereby re-appropriated as far as it may be necessary to the purpose for which same was made available and insofar as the same is permitted by the Federal statutes; Provided, however, that said funds shall not be expended except in pursuance of detailed budgets filed with and approved by the State Budget Commission.

Section 12. All appropriations provided for by this Act are maximum appropriations, based upon the collection of sufficient revenue to meet and provide for such appropriations. If, in the opinion of the Governor, the revenues to be collected will be insufficient to meet the appropriations herein provided for, he shall so certify to the State Budget Commission, and the State Budget Commission shall adjust and/or reduce the budget of any department or board to the end that efficiency and economy may result therefrom, and the ap-

ropriations kept within the revenues of the State. In the event the State Budget Commission shall fail to adjust and/or reduce budgets of the several departments after the Governor has certified that the anticipated revenue will not permit of the maximum appropriation herein made, the Governor is hereby vested with the power and authority to effect such changes by executive order, it being the intent and purpose of this Section to prevent any deficit in any department of the State Government, and that the revenues available shall be used in the most efficient and economical manner; Provided, however, that this Section shall not be construed to mean that the Governor or the State Budget Commission has the power to eliminate any Department of Government.

Section 13. (1) Immediately before the beginning of each fiscal year, the State Budget Commission shall require the head of each spending agency to submit on forms prescribed by the State Budget Commission, a work program for the budget year, which program shall include all appropriations for operation and all anticipated revenue and receipts, and maintenance expenditures and for the acquisition of property, and it shall show the requested allotments of said appropriations for such spending agency for the ensuing year. The State Budget Commission shall review the requested allotments in the light of the work program of the spending agency concerned, and the State Budget Commission shall, if it deems necessary, revise, alter or change such allotments before approving the same. The aggregate of such allotments shall not exceed the total appropriations available to said spending agency for the budget year. The State Budget Commission shall transmit a copy of the approved allotments to the head of the spending agency concerned and also a copy to the State Comptroller. The State Comptroller shall authorize all expenditures to be made from the appropriations on the basis of such allotments, and not otherwise.

(2) The head of any spending agency of the government, whenever he shall deem it necessary by reason of changed conditions, may revise the work program of his agency at the beginning of any quarter during the budget year and submit such revised program to the State Budget Commission with his request for a revision of the allotments for the remaining quarters of the budget year. If, upon a re-examination of the work program, the State Budget Commission shall decide to grant the request for a revision of the allotments, the same procedure, as far as it relates to review, approval and control, shall be followed as in making the original allotments.

(3) In order to provide funds for possible emergencies arising during the budget year in the operation and maintenance expenditures of the various spending agencies, the State Budget Commission may require the head of each spending agency, in making the original allotments, to set aside at least five per cent of the total amount appropriated as a reserve. At any time during the budget year, this reserve, or any portion of it, may be returned to the appropriation to which it belongs and be added to any one or more of the allotments, provided the State Budget Commission shall deem such action necessary, and shall notify the Comptroller of such action; any unused portion hereof shall remain at the end of the budget period as an unexpended balance of the appropriation.

Section 14. Any incidental monies of the University of Florida, Florida State University and Florida Agricultural and Mechanical College which exceeds the amounts budgeted (for salaries and expenses) out of incidental funds as recommended by the Budget Commission for the biennium 1953-1955 shall revert to the General Revenue Fund of the State of Florida.

Section 15. The amounts budgeted for current operating capital outlay items, under object code series 6000 in the classification of expenditures, as set forth in the operating budgets submitted annually to the State Budget Commission by all Departments and Branches of State Government, shall not be used for any other purposes, except by and with the approval of at least (5) members of the State Budget Commission. All Departments and Branches of State Government shall budget each year in its operating budgets the same proportion of the actual appropriation as was requested of the Legislature in the legislative budget for current operating capital outlay items.

Section 16. Under Section 1, Item 66, of this Act, there

is provided the sum of \$400,000.00 for the purpose of supplying immediate funds for any unforeseen emergency that may arise. This appropriation shall be under the complete supervision and control of the State Budget Commission, and the Budget Commission is hereby authorized in its discretion to designate any part of this appropriation for meeting necessary expenses brought about by such emergency as provided after public hearing and ample evidence is presented to the Budget Commission of the need for such emergency appropriation; provided, however, that no expenditures shall be authorized except by the concurring vote of five members of the Budget Commission and provided, further, that this shall not be construed to authorize the Budget Commission to create any new department or function, and no part of this appropriation shall be used for attorneys' fees, increase of salaries or for the construction of any building.

Section 17. Under Section 1, Item 67, of this Act, there is provided the sum of \$300,000.00 annually for the purpose of supplying additional funds to any State office, commission, department, board, bureau, institution or other agency of the State Government, created by legislative act, if the appropriations made herein are found to be insufficient to pay the necessary costs of proper administration of the duties assigned. This appropriation shall be under the complete supervision and control of the State Budget Commission, and the Budget Commission is hereby authorized in its discretion to designate any part of this appropriation for paying necessary expenses as above provided, after public hearing and ample evidence of needs; provided, however, that application to the Commission shall first be made in writing, giving a complete statement of funds needed and the reasons therefor; provided however, that no expenditures shall be authorized except by the concurring vote of five members of the Budget Commission, and provided, further, that this shall not be construed to authorize the Budget Commission to create any new department or function and no part of this appropriation shall be used for attorneys' fees, increase of salaries or for the construction of any building.

Section 18. Any sum or sums appropriated for salaries, if not required for such purposes, may be applied to expenses of the department to which they are appropriated by approval of the Budget Commission, but in no event shall any sum or sums specifically appropriated for expenses be applied to salaries, except that day labor may be construed as coming within expenses. Any sum paid out under this Act or any other Act from the monies appropriated herein shall be by State Warrant drawn by the Comptroller and countersigned by the Governor upon the State Treasury, payable to the ultimate beneficiary.

Section 19. Any appropriation to any department or agency which is classified as "emergency" or "contingency" may be expended only with the expressed approval of the Budget Commission. The department or agency desiring the use of any such appropriation shall submit to the Budget Commission application therefor in writing setting forth the facts from which the alleged emergency arises. The Budget Commission shall, at a public hearing, review such application promptly and approve or disapprove the same as the circumstances may warrant; provided that an affirmative vote of five (5) members of the Commission shall be required for approval of such request.

Section 20. The State Comptroller may require proof, as he deems necessary, of delivery and receipt of purchases before honoring any voucher for payment from appropriations made herein or otherwise provided by law.

Section 21. Any section of this Act, or any special item of appropriation herein contained, if found to be invalid or vetoed by the Governor without over-riding action of the Legislature, shall in no way affect other sections or other items or appropriations contained in this Act.

Section 22. All laws or parts of laws in conflict herewith are hereby repealed.

Section 23. This Act shall take effect on July 1, 1953.
