WHEREAS, the poultry industry of Florida possesses wonderful potentialities for progress, expansion and growth and should in the course of its natural development become one of the leading industries, if not the leading industry, of Florida because of the great consumer demand for eggs and poultry products which at this time is only being partially supplied by Florida's own productions, as these figures taken from the official Florida Department of Agriculture's records will show: Consumption of dressed poultry during the fiscal year July 1, 1953-June 30, 1954, amounted to 89,792,000 pounds, of which Florida produced only 25,432,000 pounds, which is approximately 28% of the total consumption. The total egg consumption for the same period was 2,025,000 cases (30 dozen), of which Florida produced 894,000 cases, which is approximately 44% of the total consumption, and

WHEREAS, Florida, because of its geographical location and other reasons, is conducive to the successful production of eggs and poultry products, and

WHEREAS, the poultry industry has never been given the due emphasis and consideration, and

WHEREAS, Florida is far behind the other states of the United States in facilities necessary to the promotion, expansion and prosperity of the poultry industry, NOW, THEREFORE,

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF FLORIDA:

Section 1. That an interim committee be appointed to serve for two years, such committee to consist of twelve members,

six members to be selected from the Florida Legislature and six members to be selected from the Florida poultry producing industry itself. The appointment of these members to be vested in the President of the Florida Senate who shall appoint three members from that body and three who are poultry producers, and the Speaker of the House who shall appoint three members from the House and three members who are poultry producers.

Section 2. That this interim committee is charged with investigating and reporting on the Florida poultry possibilities and potentialities.

Section 3. That this committee shall further investigate and report on the facilities now available in research, disease diagnosis and control, marketing and marketing control and this interim committee shall be further charged with the responsibility of acquiring knowledge pertaining to the methods and facilities utilized and offered by other states for the benefit of their poultry producing industries.

Section 4. That the Florida Department of Agriculture, Florida Livestock Board, University of Florida, Florida State University, and all other State agencies, are hereby authorized and directed to cooperate with this committee in every way possible to aid and further the work of this committee in supplying information, data and other assistance when requested by this committee.

Section 5. That this interim committee as a whole shall make a comprehensive report of their survey, including their recommendations, to the Governor of the State of Florida, to the Florida Legislature, and to the Commissioner of Agriculture of the State of Florida on or before January 1, 1957.
