Senate Concurrent Resolution No. 768:

A MEMORIAL TO THE CONGRESS OF THE UNITED STATES TO AMEND THE FEDERAL-AID HIGHWAY

ACT OF 1956 TO PROVIDE THAT THE FUNDS TO BE ALLOCATED TO THE STATE OF FLORIDA BE USED IN IMPROVING AND WIDENING EXISTING STATE AND FEDERAL HIGHWAYS AND BUILDING UNDERPASSES, OVERPASSES AND INTERCHANGES INSTEAD OF LIMITED ACCESS HIGHWAYS SERVING ONLY A FEW CITIZENS.

WHEREAS, The Federal-Aid Highway Act of 1956 provides for the construction of limited access highways from Pensacola to Jacksonville, from Jacksonville to Miami, from Daytona Beach to Tampa, and from Lake City to Tampa, and

WHEREAS, The Highway Revenue Act of 1956 imposed additional taxes on diesel fuel, gasoline and special motor fuels, trucks, truck trailers, buses, tires, including retreads, and

WHEREAS, Such taxes are imposed on all purchasers which includes many citizens of Florida who will never derive any benefit from the proposed interstate system of limited access highways, and

WHEREAS, If the present contemplated plans of the State Road Department of Florida are carried out many millions of dollars will be expended to purchase or condemn rights-of-way in expensive highly developed business areas in some of the cities in Florida to be served by the limited access highways, which funds would only serve a few people in the urban centers at the expense of many citizens in the rural areas and other parts of Florida who will not get any benefits from the limited access highway now under consideration, and

WHEREAS, The State of Florida has many State and Federal north-south highways and many State and Federal east-west highways which by the expenditure of additional funds would serve all of the people of Florida, and

WHEREAS, The funds proposed to be expended for the acquiring of new rights-of-way and new construction could be more advantageously used in improving and widening existing highways, building underpasses and overpasses at dangerous intersections and providing adequate interchanges, and

WHEREAS, It is believed that defense purposes would be best served by the existence of numerous wide roads rather than a concentration on a single road and more miles of safe road could be constructed to serve more people by the expenditure of Federal funds on the widening and improving of existing roads, and

WHEREAS, Tax money should be judicially spent to aid the greatest number of people and to acquire the most for the tax dollar, and

WHEREAS, The present plans now being considered by the State Road Department of Florida to pass through our metropolitan areas with elevated roads to principally serve downtown areas at the expense of through traffic is not for the best interest of all of the people of Florida, now, therefore,

BE IT RESOLVED BY THE SENATE OF THE STATE OF FLORIDA, THE HOUSE OF REPRESENTATIVES CONCURRING:

That the Congress of the United States is hereby memorialized and requested to amend the Federal-Aid Highway Act of 1956 to provide that the allocation of funds to the State of Florida be used to improve and widen the existing highways, for the building of underpasses and overpasses at dangerous intersections and for adequate interchanges.

Section 10. The amounts approved by the legislature in the funds and appropriations provided herein or otherwise provided by law for any department or branch of the state government created by the Constitution and/or statutes of the state shall be expended only for the purpose for which appropriated, except that casual labor employed on a day-to-day basis at a per day or per hour rate may be construed as coming within expenses; provided, however, that expenses may be used for operating capital outlay by and with the approval of the State Budget Commission. The Chairman of the Senate Appropriations Committee and the Chairman of the House Appropriations Committee shall furnish a joint report to the Budget Commission setting forth the numbers of positions and the amounts included by the legislature in the salaries items for the ensuing biennial period for which the funds and appropriations are provided herein or otherwise provided by law. The report shall be filed with the Budget Commission on the same day the legislature passes the general appropriations act. It is the intent of the legislature that this report shall be the basis on which the allotment and release of funds shall be made by the Budget Commission. The report shall contain, among other things, the following: (1) The amount approved for salaries to maintain the number of current filled positions as approved by the legislature, (2) the amount approved for salaries to provide for the number of current unfilled positions as approved by the legislature, (3) the amount approved for salary increases in the first year and the second year of the biennium for current filled and unfilled positions, (4) the number of new positions and the amount for the new positions approved in the first year and the second year of the biennium, (5) the amount approved for salary increases for new positions in the first year and the second year of the biennium, and (6) the amount approved for other salaries and the purposes for which approved. None of the amounts approved by the legislature for salaries shall be used for salary increases except the amount specifically approved by the legislature for salary increases, it being the intent of the legislature that salary funds which accrue from turnover of personnel and other reasons shall not be used for salary increases or additional new positions above the amounts and numbers approved by the legislature; provided, however, the Budget Commission may change the salary increases allotment or provide for additional new positions in such cases determined by the Budget Commission to be justifiable and in the best interests of the state.

Section 11. The appropriations made herein under Item 1, Item 32, Sub-item (b) of Item 45, Item 46, and Item 47 of Section 1 may be transferred from one to the other by and with the approval of the State Budget Commission upon its determination that such transfers are necessary because of movements of inmates from one institution to another institution, and for other justifiable reasons, in order to adequately provide for the necessary custodial care of inmates at each institution which the Budget Commission determines to be in the best interest of the state.

Section 12. If any of the funds appropriated herein or otherwise provided by law to any department or agency are to be expended for equipping, operating or maintaining printing, duplicating or reproducing services or facilities by any department or agency hereunder, then each such department

or agency shall compile cost records as prescribed by the State Auditor of all such expenditures, and the provision of Section 216.26, Florida Statutes, relating to Budget Commission approval for the purchase of vehicles shall be likewise applicable to the purchase of printing and duplicating equipment when the amount of any such purchase exceed \$1,000.00, and under such rules and regulations as adopted by the Budget Commission relating to the purchase of vehicles.

Section 13. Any incidental monies of the University of Florida, Florida State University and Florida Agricultural and Mechanical University which exceed the amounts budgeted (for salaries, expenses, and operating capital outlay) out of incidental funds as recommended to the legislature by the Budget Commission shall revert to the General Revenue Fund of the State of Florida.

Section 14. The salary, or combined salaries, or other compensation for services including perquisites as defined by the State Budget Commission, of any state officer or employee, or employee of any department or branch of the state government created by the statutes of this state, shall not exceed the sum of ten thousand (\$10,000) dollars per annum unless otherwise expressly provided by law; provided, however, where it deems necessary and to the best interests of the state, the salary and other compensation for executive and professional personnel may exceed the limitation imposed herein by and with the consent and approval of at least five (5) members of the State Budget Commission, one of whom shall be the Governor.

Section 15. Under Section 1, Item 66, of this Act, there is provided the sum of \$500,000.00 for the purpose of supplying immediate funds for any unforeseen emergency that may arise, including an amount not to exceed \$100,000 to be released by the Budget Commission only upon a declaration by the Governor of an emergency resulting from the Red Tide and subject to such other procedures as are set forth in this Section. This appropriation shall be under the complete supervision and control of the State Budget Commission and the Budget Commission is hereby authorized in its discretion to designate any part of this appropriation for meeting necessary expenses brought about by such emergency as provided after public hearing and ample evidence is presented to the Budget Commission of the need for such emergency appropriation; provided, however, that no expenditures shall be authorized except by the concurring vote of five (5) members of the Budget Commission, one of whom shall be the Governor; and provided further, that this shall not be construed to authorize the Budget Commission to create any new department or function, or to provide funds for any existing department or function for which no appropriation or funds are provided herein, and no part of this appropriation shall be used for attorney's fees, increase of salaries or for the construction or equipping of any building.

Section 16. Under Section 1, Item 67, of this Act, there is provided the sum of \$500,000.00 for the purpose of supplying additional funds to any State office, commission, department, board, bureau, institution or other agency of the State Government, if the appropriations made herein are found to be insufficient to pay the necessary costs of proper administration of the duties assigned. This appropriation shall be under the complete supervision and control of the State Budget Commission; and the Budget Commission is hereby authorized in its discretion to designate any part of this appropriation for paying necessary expenses as above provided, after public hearing and ample evidence of needs; provided, however, that application to the Commission shall be first made in writing, giving a complete statement of funds needed and the reasons therefor; provided, however, that no expenditures shall be authorized except by the concurring vote of five members of the Budget Commission, one of whom shall be the Governor, and provided, further, that this shall not be construed to authorize the Budget Commission to create any new department or function, or to provide funds for any existing department or function for which no appropriation or funds are provided herein, and no part of this appropriation shall be used for attorney's fees, increase of salaries or for the construction or equipping of any building.

Section 17. Under Section 1, Item 68, of this Act, there is provided the sum of \$100,000.00 for the purpose of supplying immediate funds for the promotion of Florida. This appropriation shall be under the complete supervision and control of the State Budget Commission, and the Budget Commission is hereby authorized in its discretion to designate any part

of this appropriation for meeting necessary expenses in providing for such needs in the promotion of Florida after public hearings and ample evidence is presented to the Budget Commission of the need for an allotment from this appropriation; provided, however, that no allotment or release shall be authorized for any normal operation of the state government for which funds have been provided by the legislature, it being the intent of the legislature that the use of this appropriation be limited to such unusual and unforeseen needs as may arise in the promotion of specific projects which bear a direct positive effect on the economy of Florida and provided, further, that this shall not be construed to authorize the Budget Commission to create any new department or function, and no part of this appropriation shall be used for attorney's fees, increases of salaries, the creation of any new positions in any department of the state government, or for the construction or equipping of any building. No allotment or release of this appropriation shall be made except by the concurring vote of five (5) members of the Budget Commission, one of whom shall be the Governor.

Section 18. Section 287.09, Florida Statutes, is hereby repealed.

Section 19. It is the intent of the legislature that the pay scales in the existing state merit system as approved by the State Personnel Board be implemented up to but not to exceed the amount necessary in each position and in total to permit minimum implementation of the program in those agencies presently members of the system and for each agency which may become a member during the 1957-59 biennium. The State Budget Commission is hereby authorized to provide the funds necessary to accomplish this purpose from any of the appropriations provided herein or otherwise provided by law; provided, however, that no covered employee's salary shall be reduced as a result of the application of this section if such employee is presently being paid a salary in excess of the amount allowable under this Section where said employee's excess salary has been approved by the Merit System Council.

Section 20. Any section of this Act, or any special item or appropriation herein contained, if found to be invalid or vetoed by the Governor without over-riding action of the Legislature, shall in no way affect other sections or other items or appropriations contained in this Act.

Section 21. All laws or parts of laws in conflict herewith are hereby repealed.

Section 22. This Act shall take effect on July 1, 1957.
