Section 9. The amounts approved by the legislature in the funds and appropriations provided herein or otherwise provided by law for any department or branch of the State Government created by the Constitution and/or Statutes of the State shall be expended only for the purpose for which appropriated, except that common labor employed on a day-to-day basis at a per day or per hour rate may be construed as coming within expenses; provided, however, that expenses may be used for food products and/or operating capital outlay by and with the approval of the State Budget Commission.

The amounts provided herein for salaries include provisions for a salary increase amounting to \$120, beginning July 1, 1959, for each employee whose June 1959 annual salary rate as contained in the legislative budget request is \$3480 per annum or less; further included is a salary increase for each employee whose June 1959 annual salary rate is in the range from \$3481 to \$3599 per annum in the amount necessary to raise his salary to \$3600 per annum. It is the further intent of the legislature that no department or branch of the State Government may exceed the number of employees stated herein, unless specifically authorized by the legislature; provided, however, that in the event there is no specific appropriation for salaries or limitation on the number of employees of any particular department or branch of the State Government made by the legislature, then the number of employees shall not exceed the number approved by the State Budget Commission by its recommendation to the legislature; and provided further, the State Budget Commission may provide for additional positions when it determines the request for same to be justifiable and in the best interests of the State. In determining the number of employees, part-time employees may be converted to the full-time equivalent and temporary employees employed for three (3) months or less need not be considered.

Section 10. The appropriations made herein for expenses and food products for the institutions comprising the Division of Mental Health, the Division of Child Training Schools, and the Division of Corrections may be transferred from one institution to another within the respective division by and with the consent of the State Budget Commission when its determination shows that such transfer would be desirable in order to adequately provide for the necessary custodial care of inmates.
