Section _____.

(1) The electors of Collier County, Florida, are granted power to adopt, revise, and amend from time to time a charter of self government for Collier County, Florida, under which the Board of County Commissioners of Collier County shall be the governing body. Such charter:

(6) Nothing in this section shall be construed to limit or restrict the power and jurisdiction of the Railroad and Public Utilities Commission or of any other state agency, bureau or commission now or hereafter provided for in this Constitution or by general law and said state agencies, bureaus and commissions shall have the same powers in Collier County as shall be conferred upon them in regard to other counties.

(7) If any section, subsection, sentence, clause or provisions of this section is held invalid as violative of the provisions of Section 1, Article XVII of this Constitution the remainder of this section shall not be affected by such invalidity.

The sum total of the assets in the respective working capital funds shall not exceed the maximum sum total approved by the State Auditor as of the close of business on June 30, 1955, plus the additional assets provided in this subsection.

Section 1. No distributor of spirituous liquors, whether licensed under the laws of this state or not, shall sell or offer for sale, or move or cause to be moved within this state, or into this state from any other state any spirituous liquors, unless and until a list or schedule of minimum consumer retail prices for each registered brand of such spirituous liquor shall have been filed by the distributor with the director of the beverage department of this state. For the purpose of this Act, the term "spirituous liquors" is defined as any liquor, as defined under the beverage law, containing more than fourteen per cent of alcohol by weight.

Section 2. The list or schedule of minimum consumer retail prices required to be filed with the director shall be filed by brand and price within thirty (30) days after the effective date of this act. Thereafter, but not oftener than once every ninety (90) days, any distributor's minimum consumer retail price schedule may be changed, providing the distributor files such change with the director by the 20th day of the month, with such change becoming effective on the first day of the following month.

Section 3. The director shall have the authority and duty to adopt by rule or regulation, promulgated for and in any county or counties, all such minimum consumer retail price lists or schedules, and all changes filed thereto by the distributors, whenever the director shall determine that such adoption is appropriate or necessary to prevent the evils occasioned by "price wars" or the excessive cutting of retail prices of spirituous liquors. Such rule or regulation shall set the effective date thereof, and shall remain in effect until rescinded by the director.

Section 4. Upon the adoption and promulgation of such rule or regulation, the director shall require each distributor to furnish to each vendor served by such distributor, either by mail or by publication in a recognized trade journal of general circulation to licensed vendors throughout the state, an exact copy of the then current list or schedule of minimum consumer retail prices filed by such distributor with the director and such subsequent changes as may be made.

Section 5. On and after the effective date fixed in any rule or regulation adopting minimum consumer retail price lists or schedules, in any county or counties of the state, no retailer in any such county or counties shall sell or advertise for sale, directly or indirectly, any spirituous liquors at a package price less than the package price printed in the currently effective list or schedule of minimum consumer retail prices furnished to such retailer by the distributor, or at a

price less than ten per cent (10%) below such package price when sold in case lots of not less than two and four tenths (2.4) gallons per case lot.

Section 6. This act shall become a part of the beverage laws of the state, and any rules or regulations made or adopted by the director for the enforcement hereof shall have the same force and effect as rules and regulations made or adopted under existing law.

Section 7. Notwithstanding the exemption of alcoholic beverages when sold in package for consumption off the premises of the licensee, provided by Section 212.08(5), Florida Statutes, there is hereby levied and imposed a "special tax" at the rate of three per cent (3%) upon the sale at retail in this state of all spirituous liquors as defined in this act, when sold in package for consumption off the premises of the licensee, and such tax shall be collected, reported and remitted in the same manner and under the same law and regulations in all other respects applicable to the sales and use tax of this state.

Section 8. It is declared to be the legislative intent that, if any section, subsection, sentence, clause, or provision of this act is held invalid, the remainder of the act shall not be affected.

Section 9. This act shall take effect July 1, 1959.

Section 9. The amounts approved by the legislature in the funds and appropriations provided herein or otherwise provided by law for any department or branch of the State Government created by the Constitution and/or Statutes of the State shall be expended only for the purpose for which appropriated, except that common labor employed on a day-to-day basis at a per day or per hour rate may be construed as coming within expenses; provided, however, that expenses may be used for food products and/or operating capital outlay by and with the approval of the State Budget Commission.

The amounts provided herein for salaries include provisions for a salary increase amounting to \$120, beginning July 1, 1959, for each employee whose June 1959 annual salary rate as contained in the legislative budget request is \$3480 per annum or less; further included is a salary increase for each employee whose June 1959 annual salary rate is in the range from \$3481 to \$3599 per annum in the amount necessary to raise his salary to \$3600 per annum. It is the intent of the legislature that the amounts so provided shall be used solely for this purpose and that each and every employee shall receive the salary increase so indicated; provided, however, that no employee whose service is deemed unsatisfactory by the head of the department or branch of State Government in which he is employed shall receive said salary increase.

shall not be applicable to academic positions in the institutions of higher learning nor to those positions specifically granted salary increases in the preceding paragraph; and provided further, the State Budget Commission may provide an increase above the aforesaid 5% limitation in such cases determined by the State Budget Commission to be justifiable and in the best interests of the state.

It is the further intent of the legislature that no department or branch of the State Government may exceed the number of employees stated herein, unless specifically authorized by the legislature; provided, however, that in the event there is no specific appropriation for salaries or limitation on the number of employees of any particular department or branch of the State Government made by the legislature, then the number of employees shall not exceed the number approved by the State Budget Commission by its recommendation to the legislature; and provided, further, the State Budget Commission may provide for additional positions when it determines the request for same to be justifiable and in the best interests of the State. In determining the number of employees, part-time employees may be converted to the full-time equivalent and temporary employees employed for three (3) months or less need not be considered.

Section 10. The appropriations made herein for expenses and food products for the institutions comprising the Division of Mental Health, the Division of Child Training Schools, and the Division of Corrections may be transferred from one institution to another within the respective division by and with the consent of the State Budget Commission when its determination shows that such transfer would be desirable in order to adequately provide for the necessary custodial care of inmates. Section 13.(a) It is the intent of the legislature that the sums appropriated herein or in any other Act shall be expended only for the purpose for which appropriated; provided, however, that any sum or sums appropriated for expenses, if not required for such purposes, may be transferred to food products or operating capital outlay of the department to which they

are appropriated upon approval of the State Budget Commission. In no event shall any sum or sums appropriated for expenses be applied to salaries nor shall any sum or sums appropriated for food products or operating capital outlay be applied to salaries or expenses. Common labor employed on a day-to-day basis at a per day or per hour rate may be construed as coming within expenses and not salaries, for the purposes of this section. The State Budget Commission shall report to the legislature, through the Legislative Reference Bureau, the amounts and reasons for every transfer approved under the provisions of this section.

(b) The amounts provided herein for salaries include provisions for a salary increase amounting to \$120, beginning July 1, 1959, for each employee whose June 1959 annual salary rate as contained in the legislative budget request is \$3480 per annum or less; further included is a salary increase for each employee whose June 1959 annual salary rate is in the range from \$3481 to \$3599 per annum in the amount necessary to raise his salary to \$3600 per annum. It is the intent of the legislature that the amounts so provided shall be used for this purpose and that each and every employee shall receive the salary increase so indicated to the extent necessary; provided, however, that no employee whose service is deemed adequately compensated by the head of the department or branch of state government in which he is employed shall receive said salary increase.

(c) It is the intent of the legislature that during the 1959/61 biennium, no salary provided for herein or in any other law, shall be increased by more than 5% over the June, 1959 rate for such position as contained in the legislative budget request submitted to the 1959 session of the legislature; provided, however, that the aforesaid 5% limitation shall not be applicable to those positions specifically granted salary increase in the preceding paragraph; and provided further, that State Budget Commission may approve an increase above the aforesaid 5% limitation in such cases determined by the State Budget Commission to be justifiable and in the best interests of the state; and provided, further, that the State Budget Commission shall report all such approvals and the reasons for such approvals to the legislature, through the Legislative Reference Bureau. The provisions of this section shall not apply to the Construction or Maintenance Divisions of the State Road Department.

Section 14. It is the intent of the legislature that no department or branch of the state government may exceed the number of employees allowed by the legislature when arriving at the amounts appropriated for salaries, unless specifically authorized by the legislature; provided, however, that in the event there is no specific appropriation for salaries or limitation on the number of employees of any particular department or branch of the state government made by the legislature, then the number of employees shall not exceed the number approved by the State Budget Commission by its recommendations to the legislature; and provided, further, the State Budget Commission may provide for additional positions when it determines the request for same to be justifiable and in the best interests of the state. In determining the number of employees, part-time employees may be converted to the full-time equivalent and temporary employees employed for three (3) months or less need not be considered. The Budget Commission shall report all such approvals and the reasons for such approvals to the legislature, through the legislative reference bureau.

Section 15. It is the intent of the legislature that the salary, or combined salaries, or other compensation for services including perquisites as defined by the State Budget Commission for any position included in a legislative budget shall not exceed the amount included in the legislative budget for such position unless specifically authorized by the legislature; provided, however, the State Budget Commission may approve an increase over the amount included in the legislative budget for such position when it determines the request for same to be justifiable and in the best interests of the state; provided, however, that the creation of any position not included in the legislative budget and the salary or other compensation including perquisites for such position must be approved by the State Budget Commission before such position may be filled. The Budget Commission shall report all such approvals and the reasons for such approvals to the legislature, through the legislative reference bureau.

Section 16. The appropriations made in Section 1, Item 6, sub-items (b), (c), (d), (e), and (f), Item 13, sub-items (b),

(c), (d), (e), and (f) and Item 35, sub-items (b), (c), (d), and (e), for the institutions comprising the Division of Child Training Schools, the Division of Corrections, and the Division of Mental Health may be transferred from one institution to another within respective division by and with the consent of the State Budget Commission upon its determination that such transfers are necessary because of transfers of inmates from one institution to another, and for other justifiable reasons, in order to adequately provide for the necessary custodial care of inmates at each institution which the State Budget Commission determines to be in the best interests of the state; provided, however, the annual appropriation of any institution may not be increased or decreased by more than ten per cent as a result of transfers made under this section.

Section 17. Under Section 1, item 63 of this Act, there is provided the sum of \$1,000,000.00 for the purpose of supplying immediate funds for any unforeseen emergency that may arise. This appropriation shall be under the complete supervision and control of the State Budget Commission and the State Budget Commission is hereby authorized in its discretion to designate any part of this appropriation for meeting necessary expenses brought about by such emergency as provided after public hearing and ample evidence is presented to the State Budget Commission of the need for such emergency appropriation; provided, however, that no expenditure shall be authorized except by the concurring vote of five (5) members of the State Budget Commission; and provided further, that this shall not be construed to authorize the State Budget Commission to create any new department or function, or to provide funds for any existing department or function for which no appropriation or funds are provided herein, and no part of this appropriation shall be used for attorney's fees, increase of salaries or for the construction or equipping of any building.

Section 18. Under Section 1, item 64 of this Act, there is provided the sum of \$1,000,000.00 for the purpose of supplying additional funds to any state office, commission, department, board, bureau, institution or other agency of the state government, if the appropriations made herein are found to be insufficient to pay the necessary costs of proper administration of the duties assigned. This appropriation shall be under the complete supervision and control of the State Budget Commission; and the State Budget Commission is hereby authorized in its discretion to designate any part of this appropriation for paying necessary expenses as above provided, after public hearing and ample evidence of needs; provided, however, that application to the Commission shall be first made in writing, giving a complete statement of funds needed and the reasons therefor; provided, however, that no expenditures shall be authorized except by the concurring vote of five (5) members of the State Budget Commission, and provided further, that this shall not be construed to authorize the State Budget Commission to create any new department or function, or to provide funds for any existing department or function for which no appropriation or funds are provided herein, and no part of this appropriation shall be used for attorney's fees, increase of salaries or for the construction or equipping of any building.

Section 19. Under Section 1, item 65 of this Act there is provided the sum of \$1,000,000.00 for the purpose of supplying additional funds for the purchase of food products, if the appropriations made herein are found to be insufficient to pay the necessary costs of properly feeding the population of the various state institutions. The distribution of this deficiency appropriation for food products shall be limited to the following amounts during the 1959/61 biennium to the divisions shown: Division of Child Training—\$100,000.00; Division of Corrections—\$150,000.00; Division of Mental Health—\$645,000.00; and State Tuberculosis Board—\$105,000.00. This appropriation shall be under the complete supervision and control of the State Budget Commission; and the State Budget Commission is hereby authorized in its discretion to release any part of this appropriation, within the above limits for the purchase of food products, after public hearing and ample evidence of needs; provided, however, that application to the Commission shall be first made in writing, giving a complete statement of funds needed and the reasons therefor; provided, however, that no expenditures shall be authorized except by the concurring vote of five (5) members of the State Budget Commission.

Section 20. Any incidental monies of the University of Florida, Florida State University and Florida Agricultural and

Mechanical University which exceed the amounts budgeted (for salaries, expenses, and operating capital outlay) out of incidental funds as recommended to the legislature by the State Budget Commission shall revert to the General Revenue Fund of the state of Florida; provided, however, that this section shall not be applicable to the incidental monies of the Agricultural Experiment Station.

Section 21. Any section of this Act, or any special item or appropriation herein contained, if found to be invalid or vetoed by the Governor without over-riding action of the legislature, shall in no way affect other sections or other items or appropriations contained in this Act.

Section 22. This Act shall take effect on July 1, 1959.
