A JOINT RESOLUTION PROPOSING AN AMENDMENT TO ARTICLE VII OF THE STATE CONSTITUTION RELATING TO APPORTIONMENT AND CENSUS.

Be It Resolved by the Legislature of the State of Florida:

That article VII, of the Florida Constitution be amended as set forth below and that said resolution be submitted to the electors of Florida for ratification or rejection at the general election to be held in November, 1962:

Section 1. Composition of the Legislature.—The Legislature of Florida shall consist of a Senate and a House of Representatives. Members of the Senate shall be elected for a term of four (4) years and members of the House of Representatives shall be elected for a term of two (2) years. The term of members of the Legislature shall expire on the first Tuesday after the first Monday in November of each regular election year. Members of the Senate and of the House of Representatives shall be elected as provided by law. Any new county that may be created shall be entitled to one (1) member in the House of Representatives in excess of any limit prescribed in the following sections of this article until the next reapportionment and the county shall be assigned when created to a senatorial district as determined by the Legislature.

Section 2. Senate.—The Senate shall consist of 45 members, each representing a numbered district. 23 districts shall be the 23 most populous counties according to the latest Federal decennial census, the 22 districts shall be created by the Legislature from the remaining counties so as to achieve equitable representation among them; provided, however, not more than three (3) counties shall be included in any one district.

No county shall be divided in creating a district. No county shall be separated from the remainder of the district of which it is a part by more than a county which was formerly a part of said district as of 1961.

Hereafter, each county not included in the original 23 most populous according to the 1960 census, shall become a new district when its population reaches 50,000 according to the Federal decennial census, and the membership of the Senate shall be increased as necessary to secure such result; each county among the most populous 23 according to the 1960 Federal census shall continue to constitute a district so long as its population does not decrease below that of the 1960 Federal census.

Section 3. House of Representatives.—The representation in the House of Representatives shall consist of 95 members apportioned as follows: 1. The five (5) most populous counties shall have three (3) representatives each; 2. The next 18 most populous counties shall have two (2) representatives each; 3. Each of the remaining counties shall have one (1) representative each.

Section 4. Legislative apportionment.—The 1963 Legislature shall be composed of the legislators elected pursuant

to the Constitution of 1885 as amended, and of the additional legislators as provided for herein. If this article is ratified at the general election in November, 1962 the legislature shall be apportioned according to an apportionment bill passed at the 1961 session of the legislature, and the additional legislative offices herein created shall be filled by and at a special election to be held in the affected counties or districts, as provided by law, such elections to be held within one hundred and twenty (120) days after the effective date hereof. The senators elected from the new even numbered districts shall be elected for a term of four years and the senators elected from the odd numbered districts shall be elected for a term of two years; thereafter all senators shall be elected for four year terms.

The legislature shall reapportion its representation in accordance with this article at the 1971 regular session of the legislature and every ten years thereafter based upon the preceding latest federal decennial census.

In the event the legislature shall fail to reapportion the representation as required by this article, the governor shall within thirty (30) days after the adjournment of any regular session call the legislature together in extraordinary session to consider the question of reapportionment, and such extraordinary session shall mandatorily be required to reapportion its membership before adjournment, and such extraordinary session so called shall not expire until reapportionment is effected and shall consider no business other than reapportionment.

Section 5. *State census.*—The legislature shall no longer be required to provide for an enumeration of the inhabitants of the state. The last preceding decennial federal census beginning with the federal census of 1950 shall also be the state census and shall control in all population acts and constitutional apportionments, unless otherwise ordered by the legislature.
