"Our Father in Heaven, Hallowed by Thy Name.

We thank Thee for the good work done by these Senators during the week and pray that they and all others who have labored so faithfully with them may find rest for their tired bodies during the weekend, then on the Lord's day, will you lead us to some quiet place where we can worship You in private or in some public gathering. Appearing before Thee as prodigal or saint, may we be accepted through Jesus Christ. Amen."

Following the morning Prayer, the Chaplain offered the following special Prayer:

"All Americans have for several weeks, and especially these last few days, been deeply impressed with the work of our government in preparing a man, an astronaut, to be sent into space. This has been successfully done this day.

"This man went aloft a free man and returned alive to a free country, America, the freest nation in all the world.

"I will now read some passages of scripture which will be a greater tribute to God, to our nation, and to this man than anything I can say.

"O Lord, how excellent is Thy name in all the earth! Who hast set Thy glory above the heavens. When I consider Thy heavens, the work of Thy fingers, the moon and the stars, which Thou hast ordained: What is man, that Thou art mindful of him? And the son of man that Thou visitest him?

"For Thou hast made him a little lower than the angels, and hast crowned him with glory and honour. Thou madest him to have dominion over the works of Thy hands; Thou hast put all things under his feet. O Lord, our Lord, how excellent is Thy Name in all the earth!

"Our Father, we thank Thee for this miracle which Thou hast performed before all people in bringing this man back to earth alive.

"We pray that You will do many great things for the good and for the safety of the American people. We ask this in the name of Jesus Christ. Amen."

Pursuant to the authority vested in me as Governor of

Florida, under the provisions of Section 28, Article III, of the Constitution of this State, I hereby transmit to you, with my objections, Senate Bill 256, enacted by the Legislature of 1961, and entitled:

"AN ACT relating to harness horse racing or horse racing in harness and the holding of harness horse race track meetings and permits and licenses therefor; validating and confirming certain permits for horse racing in harness and holding of harness horse race track meetings; providing that the holder or owner of any such permit validated and confirmed by this act or any one lawfully acquiring any such permit shall have the right to conduct horse racing in harness and hold harness horse race track meetings in Broward county, Florida; prescribing requirements as to location of harness horse race track in Broward county, Florida; prescribing period during which harness horse racing may be conducted in Broward county, Florida, under this act and requiring license to be issued therefor upon compliance with this act; fixing commission payable to any licensee from pari-mutuel pool on harness racing conducted under the provisions of this act; providing that the conduct of harness horse racing provided for in this act shall be governed by chapter 550, Florida Statutes, except as otherwise provided by this act; repealing all laws and parts of laws in conflict with this act; fixing the effective date of this act and providing for a referendum; and providing that no other election or referendum except as provided for in this act shall be necessary to fully effectuate this act."

I think we can assume, and it is my observation, that the people directly and at the moment interested in the proposal contained in this bill are honorable and well-intentioned people, and that they have the support, among others, of citizens of Florida engaged in the business of horse breeding who are representative of the finest and most stable elements of our society. It is also true that there are certain apparent equities to which the proponents of this legislation can appeal with considerable force. Unfortunately, these considerations do not to me seem to be the whole story.

Legalized gambling contributes nothing to the economy of Florida. It takes from those who have earned and gives to those who have not earned. It fosters a philosophy of "something for nothing," destructive of the American conviction that success follows the application of industry and abilities to activities productive for the common good. Sooner or later it attracts in its train a class of citizens that is not a credit to society and that makes no contribution to the welfare of the people. It brings into the legislative halls divisive forces that interfere with the consideration of constructive legislation and divides legislators on an issue for which there is no good solution in a way that carries over to other issues that can and should be resolved.

For me to put the stamp of my approval on this bill would be to say to the youth and other citizens of Florida that I approve the extension of legalized gambling. I do not. Let us turn our energies and wealth to those things that build and strengthen, rather than corrupt and destroy.

The Racing Commission of Florida during this administration will not let this be an isolated decision. Its purpose will continually be to restrict the extension of legalized gambling. Florida is not a Reno, nor Havana, and I do not want it to be. We should sell sunshine and good living, a good environment in which to raise children and build industry. Gambling is harmful to those goals.

For those reasons I withhold my approval from this act.

Respectfully,

WHEREAS, in order to foster this development, it is necessary to connect these waterways and thus provide a comprehensive interconnected system of waterways in Florida, and

WHEREAS, the 1959 Legislature recognized this need in appropriating funds with which to undertake a feasibility study of the Sanford-Titusville Canal and the study has been conducted and a written report of the same prepared, and

WHEREAS, this report shows beyond question the feasibility of constructing a canal connecting the Indian River and the St. Johns River, and

WHEREAS, the construction of this link in our waterways development would be of vast benefit and unquestioned necessity in fostering and opening up the recreation and commercial development of the St. Johns River Basin and the East Coast of Florida, and

WHEREAS, the construction of this canal will lend large benefits to the defense effort being carried on at Cape Canaveral and place this important segment of our defense in a much greater strategic position than now exists, and

WHEREAS, the benefit-cost ratio, as determined by the engineering survey, will produce non-defense benefits of 6.6 to 1, and if defense benefits are included, this ratio is increased to 8.2 to 1, and

WHEREAS, the dollar amount of annual benefits will be in excess of \$4,000,000 with an annual cost of slightly in excess of \$600,000, based upon an initial construction cost of less than \$12,000,000, and

WHEREAS, the anticipated type of construction by using locks and water control gates will materially assist and not hinder the conservation of water and natural resources and aid in fish and game management in the canal area, and

WHEREAS, the Legislature is desirous of accepting this study and approving the Sanford-Titusville Canal as a badly needed waterway development for the State and as a project lending itself to the comprehensive development of Florida's waterways.

Be It Resolved by the House of Representatives, the Senate Concurring:

That the Legislature of the State of Florida hereby accepts and approves the feasibility study of the Sanford-Titusville Canal, prepared for the Florida Geological Survey and published July 8, 1960, and
