exceed the amount necessary to provide that amount of money determined to be necessary for the purpose set forth in Section 7 (1) of this chapter. Provided, however, such tax shall be determined in each county lying wholly or in part within the district by multiplying the average rate, at which the total assessed value of all taxable property within the district must be taxed to raise the required amount of taxes, by a fraction determined separately for each county, the numerator of which shall be the average percentage of assessed value to true value of all counties within the district as determined by the state railroad assessment board for that year and the denominator of which shall be the percentage of assessed value to true value of the particular county for which the annual tax rate is being determined; provided that for the year 1962 the average annual rate shall be one-tenth (1/10) mill on the dollar (\$1.00) of assessed value of such property and in subsequent years the annual tax rate for these purposes shall not exceed three-tenths (3/10) mill on the dollar (\$1.00) of assessed value of such property in any county in the district. The maximum tax rate to be levied in any one (1) year under the authority of this section shall not exceed three-tenths (3/10) mill on the dollar (\$1.00) of assessed value in the county within the district having the lowest level of assessment as determined by the state railroad assessment board and the rate of taxation for each of the other counties shall be adjusted in proportion to the ratio of the level of assessment in the county with the lowest assessment to the level of assessment in the county for which the rate is being determined.

(2) A watershed basin tax levy shall be made by the governing board of the district to finance the watershed basin functions enumerated in Section 7 (2) above. The amount of money to be raised by said tax levy shall be determined by the adoption of an annual budget by the district board of governors and the average millage for the basin shall be that amount required to raise the amount called for by the annual budget when applied to the total assessment of the basin as determined for county taxing purposes. The rate of taxation of each county shall be determined by multiplying the average millage by the ratio of the average level of assessment in the basin to the level of assessment in the county as determined by the state railroad assessment board. Provided, that no such tax shall be levied within a basin unless and until the annual budget and required tax levy shall have been approved by formal action of the basin water management board. Provided that no county in the district shall be taxed under this provision at a rate to exceed one (1) mill.

(3) The taxes provided for in this section shall be extended by the county tax assessor on the county tax roll in each county within or partly within the district and shall be collected by the tax collector, in the same manner and time as county taxes, and the proceeds therefrom paid to said district. Said taxes shall be a lien until paid on the property against which assessed, and enforceable in like manner as county taxes. The tax assessor, tax collector and clerk of the circuit court of the respective counties shall be entitled to compensation for services performed in connection with such taxes at the same rates as apply to county taxes.

(4) All lands, the title to which is vested in the trustees of the internal improvement fund, located within the boundaries of the southwest Florida water management district shall be subject to the tax authorized to be levied by this act and for such purpose shall be assessed in an amount equal to the other lands in the same vicinity, which amount the said trustees shall ascertain and certify to the governing board of the district.

(5) It is hereby determined that the taxes authorized by this act are in proportion to the benefits to be derived by the several parcels of real estate within the district from the works authorized herein.

Any funds so transferred shall be expended by the district board only with the approval of the Peace River basin water management board.

(2) Peace River valley water conservation and drainage district, organized and existing under chapter 59-1002, Laws of Florida, is abolished effective June 30, 1963, at midnight.

Section 10. *Waiver of procedures creating district.*—By reason of the creation of the southwest Florida water management district by this chapter, the provisions of chapter 378, Florida Statutes, with reference to the creation of such a district are not applicable.
