EXPLANATION OF VOTE

The following explanation of vote was filed with the Secretary of the Senate:

"I introduced SB 10 which provided for mandatory testing for PKU. The medical profession killed this bill in Committee. The Committee indicated that if the medical profession did not institute these tests on a voluntary basis they would recommend mandatory testing next session. Now the medical profession is attempting to circumvent this possibility by introducing HB 1978 which does absolutely nothing and is the most useless piece of legislation ever enacted by a legislative body. A law making body should enact laws, not acts which simply urge the State Board of Health to promote certain functions. The promotion of PKU testing remains with the medical profession and they cannot escape this responsibility.
