EXPLANATION OF VOTE  
on Items 34, 36 and 37

Our Governor campaigned on a platform of no new taxes and has remained steadfast on this issue to the point of veto-

ing any appropriation bill that calls for expenditures sufficiently in excess of anticipated current revenue as to require new taxes.

Our Governor has accomplished much by such a stand by trimming every bit of fat out of budgets that in years of non-critical evaluation have grown fat. This accomplishment in state government should ring out loud and clear to local governments on the city and county level, encouraging them to do the same thing and to save the taxpayer even more money. By seeing that the citizens of this state receive a dollar's worth of governmental service for each tax dollar spent, our Governor has accomplished more during the past five months than has been accomplished during the previous five administrations.

I respect any Senator who votes to uphold the Governor's vetoes on every point if that Senator campaigned on a no-new-tax program; or if, by his responsibility of position within the minority party, he is bound to support the Governor's program in its every detail.

However, I campaigned on two principal issues of quality education and ad valorem tax relief. Neither of them can be accomplished by voting to restrict the state contribution to public education to the amount that the Governor's vetoes in the field of education would result in.

Therefore, while supporting the leadership of the Chief Executive of this state in all other matters, I have voted to override the veto power of his office where this power restricts a quality educational program. I believe it is necessary to have available the funds in the supplemental appropriation package in order to avert a teachers' crisis in the very near future, and in order to establish the intent of adequately funding education within this state.

I heartily support the Governor's recommendation that an interim committee study in depth the educational problems within this state, and make any changes necessary within the Minimum Foundation Program that will insure a quality educational program. However, I feel that immediate and realistic financial support for education is necessary at this time.

EXPLANATION OF VOTES

It pained me considerably to have to vote against funds for the new college in Duval County. Other items also gave me difficulty. I feel sure that if the Legislature had written a responsible Appropriation Bill, this University would have been included. Support from Senators from Duval and Dade would have assured its passage.

The Democrats, however, preferred to play games with the Appropriation Bill. First, they passed one which was fiscally unsound. The Governor vetoed this, and his action was upheld.

We then thought the Democrats would work out a reasonable bill. Instead, they passed two bills approaching the same totals as the prior one. At this late date the Governor was forced to item veto. He did not have sufficient latitude in this manner to write a good bill by himself.

It is still possible to work out a more adequate bill. The Republicans have presented two such bills containing some planning monies for these Universities. If the Democrats would sit down and work with us, within the limits of a balanced budget, we could secure a start for the Universities for Dade and Duval.

Only by upholding the veto is there an avenue through which compromise can be attained.
