Prayer by the Secretary of the Senate:

Heavenly Father, adhering to the basic fundamentals of Christianity, we come this morning seeking forgiveness of our errors, mistakes and transgressions. If we have offended our fellowman in any fashion, we come together to Thy altar of grace, asking for pity and mercy. Weigh us not short of good but accept us as one of thy children regardless of our frailties, and may we in this legislative labor, following our adjournment, leave as brethren in Christ. We lay aside our differences and take as our cloak those things for future consideration spelling further development of our great state and exalting Thy glorious name. In Jesus' name, we pray. Amen.

Amendment 1

Page 1, line 22, following Section 1 insert the following: "Section 2. Section 371.65, Florida statutes, is amended by adding subsection (8) to read:

(8) Exemption.—Vessels and motorboats owned and operated by Sea Explorer or Sea Scout units of the Boy Scouts of America are exempt from the provisions of subsection (2) of this section. Such vessels or motorboats shall be issued certificates of registration and numbers upon application and payment of the service fee provided in subsection (4) of this section.

Section 3. Section 371.65 as hereby amended shall take effect upon becoming a law.

Section 4. Chapter 371, Florida Statutes, is amended by creating Part II consisting of sections 371.69 through 371.78 to read:

371.69 Application for certificate of title.—The owner of a motorboat required to pay the boat registration certificate tax under chapters 370, 371 and 372, Florida Statutes, shall apply to the board of conservation for a certificate of title. The application shall include the true name of the owner, the residence or business address of the owner and a description of the boat. The application shall be signed by the owner and shall be accompanied by the prescribed fee. The owner of any vessel or motorboat exempt from the boat registration certificate

tax may apply to the board of conservation for a certificate of title by filing the prescribed application accompanied by the prescribed fee.

371.70 Certificate of title required.—

(1) Except in the case of amphibious vessels which have a valid title issued by the motor vehicle commission or a boat owned by a bona fide dealer, no person shall operate a boat unless the owner has applied to the board of conservation for certificate of title for such boat.

(2) A certificate of title is prima facie evidence of the ownership of a boat. A certificate of title is good for the life of the boat so long as the certificate is owned or held by the legal holder.

(3) The board of conservation shall make regulations necessary and convenient to carry out the provisions of this act.

(4) The board of conservation shall charge a fee of two dollars (\$2.00) for issuing each certificate of title.

371.71 Hull serial number required.—No person shall operate a motorboat on the waters of this state for which the board has issued a certificate of title unless the boat has a hull serial number. Hull serial numbers shall be clearly imprinted in the stern transom or on the hull by stamping, impressing or marking with pressure. In lieu of imprinting, the serial number may be displayed on a plate in a permanent manner. If the serial number is displayed in a location other than the stern transom, the board of conservation must be notified by the manufacturer as to such location. No person, firm, association or corporation shall destroy, remove, alter, cover or deface the manufacturer's serial number or plate bearing such serial number, on any motorboat. Boats for which the manufacturer has provided no serial number and boats constructed or assembled by the owner shall have assigned a serial number by the board of conservation, said number to be the identifying number assigned the boat when registered or documented.

371.72 Refusal to issue or cancellation of certificate of number or title.—

(1) If the board determines at any time that an applicant for a certificate of title or a certificate of number has given a false statement or false information in applying for the certificate or otherwise failed to comply with the applicable provisions pertaining to application for certificates, it may refuse to issue the certificate.

(2) If the board determines at any time that an owner or dealer named in a certificate of title or certificate of number gave a false statement or false information in applying for the certificate or otherwise failed to comply with the applicable provisions pertaining to applications for certificates, it may cancel the certificate, after a hearing upon ten (10) days notice.

371.73 Duplicate certificate of number or title.—The board may issue a duplicate certificate of number or title upon application by the person entitled to hold such a certificate if the board is satisfied that the original certificate has been lost, destroyed or mutilated. The board shall charge a fee of one dollar (\$1.00) for issuing a duplicate certificate.

371.74 Motorboat revolving trust fund.—All funds collected under this act by the board of conservation shall be deposited by the comptroller in the motorboat revolving trust fund as provided for under sections 371.171 and 371.172, Florida Statutes. The budget commission is authorized to make such releases to the board of conservation from the motorboat revolving fund as it determines necessary to properly administer Part II of chapter 371, Florida statutes, through June 30, 1969.

371.75 Notice of lien on motorboats; recording.—

(1) No liens for purchase money or as security for a debt in the form of retain title contract, conditional bill of sale or chattel mortgage, or otherwise, on a motorboat shall be enforceable in any of the courts of this state against creditors or subsequent purchasers for a valuable consideration and without notice unless a sworn notice of such lien is recorded. The lien certificate shall contain the following information:

- (a) Name and address of the registered owner;
- (b) Date and amount of lien:

(c) Description of the motorboat to include make, type, motor and serial number; and

(d) Names and address of lien holder.

The lien shall be recorded in the office of the director of the board of conservation, which filing is in lieu of all filing and recording now required or authorized by law, and shall be effective as constructive notice when filed.

(2) The director of the board of conservation shall not enter any lien upon his lien records, whether it be a first (1st) lien or a subordinate lien, unless the official certificate of title issued for the motorboat is furnished with the notice of lien, so that the record of lien, whether original or subordinate, may be noted upon the face thereof.

(3) Upon the payment of any such lien the debtor, or the registered owner of the motorboat, shall be entitled to demand and receive from the lien holder a satisfaction of the lien which shall likewise be filed in the office of the director of the board of conservation.

(4) The director of the board of conservation under precautionary rules and regulations to be promulgated by him may permit the use, in substitution of the formal satisfaction of lien, of other methods of satisfaction, such as perforation, appropriate stamp, or otherwise, as he deems reasonable and adequate.

(5) The director of the board of conservation shall make such rules and regulations as he deems necessary or proper for the effective administration of this law and shall prepare the forms of the notice of liens and satisfactions thereof, to be supplied, at not to exceed fifty per cent (50%) more than cost to any applicant, for recording the liens or satisfactions and shall keep a permanent record of such notice of liens and satisfactions in a book in his office open to inspection of the public at all reasonable times. The director is hereby authorized to furnish certified copies of such notices or satisfactions for a fee of one dollar (\$1.00), which certified copies shall be admissible in evidence in all courts of this state under same conditions and to same effect as certified copies of other public records.

(6) The director of the board of conservation shall be entitled to a fee of fifty cents (\$.50) for the recording of each notice of lien and each satisfaction thereof. All of the fees collected shall be paid into the motorboat revolving trust fund.

(7) Should any person, firm or corporation holding such lien, which has been recorded in the office of the director of the board of conservation, upon payment of such lien and on demand, fail or refuse, within thirty (30) days after such payment and demand, to furnish the debtor or the registered owner of such motorboat a satisfaction thereof, then, in that event, he, it or they, shall be held liable for all costs, damages, and expenses, including reasonable attorney's fees, lawfully incurred by the debtor or the registered owner of such motorboat in any suit which may be brought in the courts of this state for the cancellation of such lien.

371.76. Penalty.—Any person convicted of violating any of the provisions of Part II of chapter 371, Florida statutes, is guilty of a misdemeanor and punishable as provided by law.

371.77 It is declared to be the legislative intent that if any section, subsection, sentence, clause or provision of Part II is held invalid the remainder of chapter 371, Florida statutes, shall not be affected.

371.78 Part II of chapter 371, Florida statutes, shall take effect January 1, 1968.

Section 1. Section 334.21, Florida Statutes, is amended to read:

(Substantial rewording of section. See section 334.21, F. S., for present text.)

334.21 Budgets; preparation; adoption; execution; and amendment.—

(1) The fiscal year of the department shall begin July 1 of each year and end on June 30 of each succeeding year. Such fiscal year shall constitute a budget year of all operating funds of the department.

(2) The department shall file all budgets in the manner required by chapter 216, Florida Statutes, except that the road construction program expenditures of the department shall be set forth only in total in said budgets with the details being set forth in the annual program-performance budget of the department, as said details are defined hereinafter in subsection (5) and by board regulations necessary to implement program-performance budgeting.

(3) The department shall prepare an annual program-performance budget pursuant to the budgets submitted and approved as provided by chapter 216, Florida Statutes, hereof, to control the annual expenditures of all funds made available for administrative, maintenance, toll operations, nonhighway property acquisition, debt service and for road construction purposes in the ensuing fiscal year.

(4) Nature and scope of the annual program-performance budget:

(a) The annual program-performance budget required by paragraph (3) above and hereinafter referred to as the annual program budget shall present a complete balanced financial plan for the state road fund and the restricted road funds, i.e., gas taxes, tolls, or other moneys made available for expenditure as restricted by law or agreement in any county or special district for road construction, physical maintenance and for the payment of toll operations and debt service and other expenditures authorized herein.

(b) The receipt side of said budget shall set forth all anticipated fund balances to be brought forward at the beginning of the budget year. The fund balance shall be the difference between the current assets and current liabilities and reserves, as commonly defined in accounting terminology, of each fund enumerated herein. It shall set forth all estimated revenues and receipts by source anticipated to be available during the ensuing year for which the budget is prepared; except that no anticipated receipts estimated to be received under Title 23, U. S. Code—"Highways," as amended, shall be budgeted in excess of the amount of state receipts set aside to match such federal aid, and the state funds thus set aside to match federal aid funds shall be used only for said matching purposes. Provided, however, the department shall, prior to the preparation of the budget, ascertain the amount of federal aid funds which shall be or which are estimated to be available to the department for expenditure in the fiscal year for which the budget is prepared, and shall budget sufficient funds for matching purposes.

(c) The expenditure side of the annual program budget shall set forth the proposed expenditures of the department classified by major programs of work such as administrative; maintenance; tolls, nonhighway capital outlay; debt service; road construction; and other classifications or subclassifications as might be necessary to properly reflect the annual program budget of the department.

(d) The annual program budgets for the state road fund and restricted funds unless otherwise provided by law or agreement shall be so planned as to exhaust the estimated resources of each fund for the year with the exception of an emergency reserve, in such amount as the board may deem necessary, for the purpose of doing emergency work which may be found to be necessary to be done during the year in order to prevent the stoppage of travel over any road over which the department has jurisdiction and control. At any time during the last two (2) months of the fiscal year, the emergency work reserve or any portion of it may be appropriated for road purposes provided for herein, upon approval of the board, which approval must be recorded in its minutes.

(5) Funding and developing a road construction program:

(a) A road construction program of work to be under-

taken during the ensuing budget year shall be prepared for the state road fund, and each restricted fund unless otherwise provided by law or board regulation, setting forth all construction projects, hereinafter referred to as project(s), to be undertaken during said budget year. For the budget year beginning July 1, 1968, and each year thereafter, the road construction program of said annual program budget shall be for the ensuing five (5) years and referred to as the five (5) year construction program. The total amount of the five (5) year construction program in each fiscal year shall not be in an amount that would prevent the department from meeting the expenditure requirements for the projects set forth therein; provided that, should cash resources not be available to meet such expenditure requirements due to unpredictable and unusual peak cash demands, the obligated fund may obtain a cash advance in the manner described in section 215.18, Florida Statutes, except that said cash advance shall be repaid within four (4) months with or without interest, as decided by the state budget commission.

The first year of the five (5) year construction program shall be known as the annual construction program and shall consist of the projects with the highest priority in the five (5) year construction program. It shall further include the total budgeted expenditure requirements for all road projects to be underway in said annual construction program fiscal year.

No road project shall be undertaken unless the same is listed in the annual construction program; provided, however, in case any road project listed in said program cannot be undertaken during that year for any justifiable reason which shall be recorded in the minutes of the board, then a project listed in the second year of the five (5) year construction program may be undertaken. This provision shall not apply to projects estimated to cost less than twenty thousand dollars (\$20,000.00) or to emergency projects approved by the state road board and which must be undertaken to protect a highway investment or to prevent the closing of an important state road not exceeding in cost the amount set aside for emergencies as above provided.

(b) Prior to the annual adoption of the five (5) year construction program, the department shall hold public hearings in each of the road districts to give consideration to the necessity of making any changes to projects included or to be included in said five (5) year construction program and to hear requests for new projects to be added or existing projects to be deleted to said five (5) year construction program. A copy of each list of requested projects presented at the public hearing set forth herein shall be filed with the legislative reference bureau by the department for use by the committee on roads and highways of the legislative council or its successor and by the appropriate standing committees of the house and senate.

(6) Publication of the annual program budget:

(a) The proposed annual program budget made up for all programs of the department as aforesaid, including the five (5) year construction program, shall be published once in one (1) of the newspapers of general circulation in the state, published in each of the road districts, together with a notice of the time and place of the public meeting for considering such proposed annual program budget and that said budget is available for inspection by the public at the office of the clerk of the circuit court or chairman or similar officer of the board of county commission.

(b) One (1) copy of the proposed annual program budget shall be forwarded to the office of the chairman or similar officer of each board of county commission and another copy shall be furnished to each clerk of the circuit court together with a notice of the public hearing above referred to. Said clerk shall post at the front door of the courthouse a copy of the public hearing notice along with a notice that the proposed annual program budget and five (5) year road construction program of the state road department is available for inspection of the public during his regular office hours.

(7) Adoption of the annual program budget of the department:

(a) The board shall appoint a time and place for the public hearing on the proposed annual program budget and five (5) year construction program prepared for the state road fund and restricted funds as required herein, at which time it shall hear all questions, suggestions, or other comments offered by the public in regard to such budget.

(b) Upon completion of such hearing, the board shall, prior to the beginning of the fiscal year, decide upon and make up a final annual program budget and five (5) year construction program for the ensuing year in accordance with the foregoing requirements.

(8) Execution of the budget:

(a) The board or department shall not during any fiscal year expend money or incur any liability, or enter any contract which, by its terms, involves the expenditure of money in excess of the amounts budgeted as available for expenditure during such fiscal year. Any contract, verbal or written, made in violation of this section shall be null and void and no money shall be paid thereon. The board and department shall require a financial report that funds are available prior to entering into any such contract or other binding commitment of funds. Any willful violation of the provisions of this section shall become a liability against the bond of any board member voting to approve such commitment of funds or if said board approval is not required to execute such commitment, then violation of this section shall become a liability against the bond of any department employee responsible for the willful execution, approval, or payment of said commitment of funds; provided, however, that nothing herein contained shall prevent the making of contracts for a period exceeding one (1) year, but any contract so made shall be executory only for the value of the services to be rendered or agreed to be paid for in succeeding fiscal years and this paragraph (a) shall be so referenced to in all contracts of the department in excess of twenty-five thousand dollars (\$25,000.00) and having a term for a period of more than one (1) year.

(b) In the operation of its state road fund, and restricted funds when applicable, the department shall have on hand at the close of business, which closing shall be not later than the tenth calendar day of the following month at the end of each month of the fiscal year, an available cash balance or estimated cash flow in an amount equivalent to meet the cash needs of the department. In the event this cash position is not maintained, no further state road or restricted fund construction contracts or other fund commitments shall be approved, entered into, awarded, or executed until the proper cash position, as defined above, has been regained.

(9) Amendment of the annual program budget:

(a) The board shall have the authority to amend its annual program budget at any time during the fiscal year as follows:

1. Transfer within the same fund of any unencumbered budget item, or any portion thereof, from one activity to another.

2. Transfer between the state road fund and the restricted funds and between the restricted funds, within the provisions of the restrictions by law or by agreement as to the expenditure of said funds, any unencumbered funds budgeted for purposes authorized by law.

3. Budget in the proper fund and expend any receipts in excess of the total anticipated receipts in the adopted budget.

4. Substitute a project in any fund to the extent provided herein or by agreement as to the expenditure of said funds.

(b) All amendments to the annual program budget shall be made by resolution of the board adopted in open session.

EXPLANATION OF VOTE ON HB 3113

From data provided by the Department of Education it appears that 92,554 full time equivalent students were enrolled in the Junior College system during the 1965-7 biennium. During that biennium state aid to Junior colleges through MFP was \$44,160,984 or approximately \$477 per full time equivalent student.

The current legislature has appropriated \$61,836,192 to MFP-Junior colleges. This appropriation will support an expanded Junior college program consisting of approximately 130,000 full time equivalent students during the next biennium at the current level of support, i.e., \$477 per full time equivalent student.

However, the Department of Education data show an anticipated enrollment of full time equivalent students of 164,205 in the next biennium, an increase of 77% in full time equivalent students over the last biennium. If the level of support for each full time equivalent student is increased from \$477 to \$600, the appropriation of \$61,836,192 will support 103,060 full time equivalent students during the next biennium.

During 1965-6 approximately 70,000 students were enrolled in grade 12. So approximately 140,000 students will leave

grade 12 during the next biennium, which means that approximately 75% of all high school graduates could be accommodated in the Junior college program at the increased support level of \$600 per full time equivalent student.

The amendment appropriating an additional \$13,087,000 would provide for an additional 21,810 full time equivalent students, or a total of 124,870 full time students, an increase of more than 1/3 in student capacity accompanied by an increase of more than 25% in financial support for each full time equivalent student, overall the increase would have been approximately 70% over expenditures in the last biennium.

Based upon these facts I voted against HB 3113.

MESSAGES FROM THE GOVERNOR

By direction of the President, the Secretary of the Senate read the following communication from Honorable Claude R. Kirk, Jr., Governor of Florida:

*Honorable Verle A. Pope
President, Florida State Senate
The Capitol
Tallahassee, Florida*

July 7, 1967

Sir:

Under Section 15 of Article IV of the State Constitution, the Governor is granted the power to suspend public officials, not liable to impeachment, for certain causes specified. Any such suspension is required to be submitted to your Honorable Body for the consideration of whether the official charged should be removed or reinstated. While the Legislature is in session the Governor does not have the power to suspend, but may only recommend to the Senate the removal of officials who have violated Article IV, Section 15.

By virtue of this authority, I hereby respectfully advise your Honorable Body that J. M. Sample has been serving in the capacity of County Judge of St. Lucie County, Florida, from January 5, 1965 to the date of this letter. I have received information and an investigation reveals that the conduct of J. M. Sample demonstrates and reflects malfeasance, misfeasance, neglect of duty in office, drunkenness and incompetency. The said information and investigation reflects that on numerous occasions Judge Sample has appeared on the bench and in chambers in such a condition as to render him unaware of the proceedings before him and incapable of per-

forming his duties as County Judge. The said information and investigation reflects that on such occasions Judge Sample was under the influence of either intoxicating beverages, barbituates, central nervous stimulants or narcotic drugs. As a result, in numerous instances, cases were unable to be properly heard by the judge and resulted in dismissals.

In addition to the foregoing, the information and investigation reflects allegations of misuse of funds by Judge Sample required by law to be received and which was received in his official capacity.

A public official and in particular, a judge is held to a high standard of legal and moral conduct in order for him to properly perform the responsibilities of his office. As a result of the foregoing information, doubt has been raised as to the integrity and ability of J. M. Sample to perform the duties of County Judge of St. Lucie County, Florida.

Now, therefore, I, Claude R. Kirk, Jr., Governor of the State of Florida, by virtue of the power and authority vested in me by Article IV, Section 15, of the Constitution of the State of Florida, do hereby notify the Florida Senate of the facts above set forth, and do hereby recommend that the Senate forthwith permanently remove from office the said J. M. Sample.

Respectfully,
CLAUDE R. KIRK, JR.
 Governor

having met, and after full and free conference, have agreed to recommend and do recommend to their respective Houses, as follows:

1. That the House of Representatives adopt the first Senate Amendment in Section 1, line 10, page 2; and
2. That the Senate recede from their second Senate Amendment in Section 1, line 10, page 2; and
3. That the Senate recede from their third Senate Amendment in Section 1 (2), line 23, page 2; and
4. That the Senate recede from their fourth Senate Amendment in Section 7, line 11, page 5; and
5. That the Senate recede from their fifth Senate Amendment in Section 8; and
6. That the Senate and the House of Representatives adopt the Conference Committee Amendments as follows:

Amendment Number 1. In Section 4, page 4, line 3, after the word "taxation" insert the following: until January 1, 1970.

Amendment Number 2. In Section 5, page 4, line 21, strike the entire section and insert the following: Section 5. Nothing contained herein shall be construed to conflict with nor repeal sections 193.03 and 193.031, Florida Statutes, provided however, the provisions of section 193.031, Florida Statutes shall not prevent an increase of millage approved as provided in section 2 hereof. Those cities or counties which now or hereafter provide both municipal and county services as authorized under sections 9, 10, 11 and 24, or similar sections hereafter adopted, of Article VIII of the Florida constitution, shall have the right to levy for county, district, and municipal purposes a millage up to twenty (20)

mills on the dollar of assessed valuation under this section. For each increase in the county millage above ten (10) mills which is attributable to an assumption of municipal services by a county having "home rule", or for each increase in the municipal millage above ten (10) mills which is attributable to an assumption of county services by a city having "home rule", there shall be a decrease in the millage levied by each and every municipality which has a service or services assumed by the county, or by the county which has a service or services assumed by the city. Such decrease shall be equal to the cost of that service or services assumed, so that an amount equal to that cost shall be eliminated from the budget of the county or city giving up the performance of such service or services.

Amendment Number 3. On page 5, line 14, insert the following:

Section 6. The comptroller of the state of Florida is hereby directed to determine each year whether the several counties of this state are assessing the real and tangible personal property within their jurisdiction in accordance with law. If the comptroller determines that any county is assessing property at less than that prescribed by law, the comptroller shall withhold from such county a portion of any state funds to which the county may be entitled equal to the difference of the amount assessed and the amount required to be assessed by law.

Section 7. The legislature of the state of Florida hereby finds and determines that taxation on real and tangible personal property above the rate of two percent (2%) or twenty (20) mills is oppressive, and that there are many areas in the state of Florida in which the combined millage levied against real and tangible personal property by the various taxing authorities, including county boards of commissioners, municipalities, and various other districts and boards, far exceeds a rate of two percent (2%) or twenty (20) mills. Thus, the legislature of the state of Florida hereby declares its intent to provide replacement revenues for the operation of local governmental bodies by the fiscal year 1970-1971, or as soon thereafter as possible, so that ad valorem or property taxation may be further reduced to such an extent that they are no longer oppressive, and will not exceed an aggregate or total rate of two percent (2%) or twenty (20) mills.

Renumber the subsequent sections.

Amendment Number 4. (Effective date) In Section 8, strike the entire section and insert the following: Section 10. This act shall become effective January 1, 1968.

Amendment Number 5. (To the Title) In the Title, page 1, line 9, after the words "except in", insert the following: cities and in

By Senator Hollahan—

SCR 1770—A concurrent resolution requesting the state purchasing commission of Florida to take immediate steps to implement the provisions of House Bill 416 as passed by the 1967 session of the Florida legislature.

WHEREAS, the Governmental Reorganization Committee has conducted a study of state purchasing in Florida for the past four years, and

WHEREAS, the emphasis of the study during the past two years was to determine what function the state purchasing commission of Florida should perform, and

WHEREAS, after this thorough, in-depth study of the purchasing practices and procedures of Florida and of several other states was made by said committee, this committee found and the legislature of Florida finds as follows:

1. That in Florida today we have over one hundred fifty (150) people in the various state agencies purchasing upward of eighty million dollars (\$80,000,000.00) annually of supplies, materials, and equipment, without any direction or control from the state purchasing commission of Florida.

2. That the various agencies and their purchasing agents have no knowledge of prices paid by other agencies or the state purchasing commission of Florida for the same commodity, and that the purchasing commission is not aware of prices paid by the various agencies for supplies, material, and equipment.

3. That the state purchasing commission of Florida is not aware of quantities or types of commodities purchased by the agencies and does not have any control of the procedures and the specifications used in purchasing by the various agencies.

4. That in other states, notably North Carolina, where central purchasing procedures were used by the purchasing department or commission, prices for the identical same commodity were consistently lower in those states than in Florida.

5. That it became obvious to the Governmental Reorganization Committee, which is composed of members of both houses of the legislature, members of the cabinet, members of the judiciary, and the state auditor, that large savings could be

accomplished in Florida by the institution of central purchasing procedures and practices by the state purchasing commission of Florida.

6. That there are many other results of the study not listed in these findings which lend support to the conclusion that Florida should institute a strong central purchasing procedure, and

WHEREAS, the Governmental Reorganization Committee did recommend to the 1967 session of the Florida legislature that this central purchasing procedure be instituted by means of provisions of Senate Bill 291 and its companion House Bill 416, and

WHEREAS, the legislature, in its wisdom, did approve this bill by unanimous vote in the Senate and by vote of 92 to 24 in the House of Representatives, and

WHEREAS, the House of Representatives did again pass a measure, subsequent to the governor's veto of House Bill 416, Committee Substitute for House Bill 952, which was essentially the same as House Bill 416 with some minor corrections suggested by the governor's veto message, and

WHEREAS, by all of the above, it is abundantly clear and apparent that the legislature of Florida is committed to the theory of strong central purchasing, and

WHEREAS, it is the opinion of this legislature that the state purchasing commission of Florida has sufficient statutory authority in chapter 287, Florida Statutes, to effect by rule and regulation and adoption of policy a major portion of the provisions of House Bill 416, NOW, THEREFORE,

Be It Resolved by the Senate of the State of Florida, the House of Representatives Concurring:

Section 1. The state purchasing commission of Florida shall begin immediately to implement the provisions of House Bill 416 passed by the 1967 Florida legislature. The state purchasing commission of Florida shall by rule and regulation and adoption of policy have substantially implemented the provisions of House Bill 416 by February 1, 1968.

Section 2. The state purchasing commission of Florida shall make every effort possible under Chapter 287, Florida Statutes, to fully implement the provisions of the entire House Bill 416 and, especially, shall implement the provisions of section 4, section 6, section 7, section 9, section 12, section 16, and section 19 of said act.

Section 3. The Governmental Reorganization Committee shall make a continuing study of the purchasing practices in Florida and shall give particular attention to the manner in which the provisions of section 1 and section 2 of this resolution are put into effect, and shall report to the 1969 session of the Florida legislature its findings and recommendations.

Section 4. A copy of this resolution shall be sent to all members of the state purchasing commission of Florida.

(Substantial rewording of section. See section 334.21, F. S., for present text.)

334.21 Budgets; preparation; adoption; execution; and amendment.—

(1) The fiscal year of the department shall begin July 1 of each year and end on June 30 of each succeeding year. Such fiscal year shall constitute a budget year of all operating funds of the department.

(2) The department shall file all budgets in the manner required by chapter 216, Florida Statutes, except that the road construction program expenditures of the department shall be set forth only in total in said budgets with the details being set forth in the annual program-performance budget of the department, as said details are defined hereinafter in subsection (5) and by board regulations necessary to implement program-performance budgeting.

(3) The department shall prepare an annual program-performance budget pursuant to the budgets submitted and approved as provided by chapter 216, Florida Statutes, hereof, to control the annual expenditures of all funds made available for administrative, maintenance, toll operations, nonhighway property acquisition, debt service and for road construction purposes in the ensuing fiscal year.

(4) Nature and scope of the annual program-performance budget;

(a) The annual program-performance budget required by paragraph (3) above and hereinafter referred to as the annual program budget shall present a complete balanced financial plan for the state road fund and the restricted road funds, i. e., gas taxes, tolls, or other moneys made available for expenditure as restricted by law or agreement in any county or special district for road construction, physical maintenance and for the payment of toll operations and debt service and other expenditures authorized herein.

(b) The receipt side of said budget shall set forth all anticipated fund balances to be brought forward at the beginning of the budget year. The fund balance shall be the difference between the current assets and current liabilities and reserves, as commonly defined in accounting terminology, of each fund enumerated herein. It shall set forth all estimated revenues and receipts by source anticipated to be available during the ensuing year for which the budget is prepared; except that no anticipated receipts estimated to be received under Title 23, U. S. Code — "Highways," as amended, shall be budgeted in excess of the amount of state receipts set aside to match such federal aid, and the state funds thus set aside to match federal aid fund shall be used only for said matching purposes. Provided, however, the department shall, prior to the preparation of the budget, ascertain the amount of federal aid funds which shall be or which are estimated to be available to the department for expenditure in the fiscal year for which the budget is prepared, and shall budget sufficient funds for matching purposes.

(c) The expenditure side of the annual program budget shall set forth the proposed expenditures of the department classified by major programs of work such as administrative; maintenance; tolls, nonhighway capital outlay; debt service; road construction; and other classifications or subclassifications as might be necessary to properly reflect the annual program budget of the department.

(d) The annual program budgets for the state road fund and restricted funds unless otherwise provided by law or agreement shall be so planned as to exhaust the estimated resources of each fund for the year with the exception of an emergency reserve, in such amount as the board may deem necessary, for the purpose of doing emergency work which may be found to be necessary to be done during the year in order to prevent the stoppage of travel over any road over which the department has jurisdiction and control. At any time during the last two (2) months of the fiscal year, the emergency work reserve or any portion of it may be appropriated for road purposes provided for herein, upon approval of the board, which approval must be recorded in its minutes.

(5) Funding and developing a road construction program;

(a) A road construction program of work to be undertaken during the ensuing budget year shall be prepared for the state road fund, and each restricted fund unless otherwise provided by law or board regulation, setting forth all construction projects, hereinafter referred to as project(s), to be undertaken during said budget year. For the budget year beginning

July 1, 1968, and each year thereafter, the road construction program of said annual program budget shall be for the ensuing five (5) years and referred to as the five (5) year construction program. The total amount of the five (5) year construction program in each fiscal year shall not be in an amount that would prevent the department from meeting the expenditure requirements for the projects set forth therein; provided that, should cash resources not be available to meet such expenditure requirements due to unpredictable and unusual peak cash demands, the obligated fund may obtain a cash advance in the manner described in section 215.18, Florida Statutes, except that said cash advance shall be repaid within four (4) months with or without interest, as decided by the state budget commission.

The first year of the five (5) year construction program shall be known as the annual construction program and shall consist of the projects with the highest priority in the five (5) year construction program. It shall further include the total budgeted expenditure requirements for all road projects to be underway in said annual construction program fiscal year.

No road project shall be undertaken unless the same is listed in the annual construction program; provided, however, in case any road project listed in said program cannot be undertaken during that year for any justifiable reason which shall be recorded in the minutes of the board, then a project listed in the second year of the five (5) year construction program may be undertaken. This provision shall not apply to projects estimated to cost less than twenty thousand dollars (\$20,000.00) or to emergency projects approved by the state road board and which must be undertaken to protect a highway investment or to prevent the closing of an important state road not exceeding in cost the amount set aside for emergencies as above provided.

(b) Prior to the annual adoption of the five (5) year construction program, the department shall hold public hearings in each of the road districts to give consideration to the necessity of making any changes to projects included or to be included in said five (5) year construction program and to hear requests for new projects to be added or existing projects to be deleted to said five (5) year construction program. A copy of each list of requested project presented at the public hearing set forth herein shall be filed with the legislative reference bureau by the department for use by the committee on roads and highways of the legislative council or its successor and by the appropriate standing committees of the house and senate.

(6) Publication of the annual program budget:

(a) The proposed annual program budget made up for all programs of the department as aforesaid, including the five (5) year construction program, shall be published once in one (1) of the newspapers of general circulation in the state, published in each of the road districts, together with a notice of the time and place of the public meeting for considering such proposed annual program budget and that said budget is available for inspection by the public at the office of the clerk of the circuit court or chairman or similar officer of the board of county commission.

(b) One (1) copy of the proposed annual program budget shall be forwarded to the office of the chairman or similar officer of each board of county commission and another copy shall be furnished to each clerk of the circuit court together with a notice of the public hearing above referred to. Said clerk shall post at the front door of the courthouse a copy of the public hearing notice along with a notice that the proposed annual program budget and five (5) year road construction program of the state road department is available for inspection of the public during his regular office hours.

(7) Adoption of the annual program budget of the department:

(a) The board shall appoint a time and place for the public hearing on the proposed annual program budget and five (5) year construction program prepared for the state road fund and restricted funds as required herein, at which time it shall hear all questions, suggestions, or other comments offered by the public in regard to such budget.

(b) Upon completion of such hearing, the board shall, prior to the beginning of the fiscal year, decide upon and make up a final annual program budget and five (5) year construction program for the ensuing year in accordance with the foregoing requirements.

(8) Execution of the budget:

(a) The board or department shall not during any fiscal year expend money or incur any liability, or enter any contract which, by its terms, involves the expenditure of money in excess of the amounts budgeted as available for expenditure during such fiscal year. Any contract, verbal or written, made in violation of this section shall be null and void and no money shall be paid thereon. The board and department shall require a financial report that funds are available prior to entering into any such contract or other binding commitment of funds. Any willful violation of the provisions of this section shall become a liability against the bond of any board member voting to approve such commitment of funds or if said board approval is not required to execute such commitment, then violation of this section shall become a liability against the bond of any department employee responsible for the willful execution, approval, or payment of said commitment of funds; provided, however, that nothing herein contained shall prevent the making of contracts for a period exceeding one (1) year, but any contract so made shall be executory only for the value of the services to be rendered or agreed to be paid for in succeeding fiscal years and this paragraph (a) shall be so referenced to in all contracts of the department in excess of twenty-five thousand dollars (\$25,000.00) and having a term for a period of more than one (1) year.

(b) In the operation of its state road fund, and restricted funds when applicable, the department shall have on hand at the close of business, which closing shall be not later than the tenth calendar day of the following month at the end of each month of the fiscal year, an available cash balance or estimated cash flow in an amount equivalent to meet the cash needs of the department. In the event this cash position is not maintained, no further state road or restricted fund construction contracts or other fund commitments shall be approved, entered into, awarded, or executed until the proper cash position, as defined above, has been regained.

(9) Amendment of the annual program budget:

(a) The board shall have the authority to amend its annual program budget at any time during the fiscal year as follows:

1. Transfer within the same fund of any unencumbered budget item, or any portion thereof, from one activity to another.

2. Transfer between the state road fund and the restricted funds and between the restricted funds, within the provisions of the restrictions by law or by agreement as to the expenditure of said funds, any unencumbered funds budgeted for purposes authorized by law.

3. Budget in the proper fund and expend any receipts in excess of the total anticipated receipts in the adopted budget.

4. Substitute a project in any fund to the extent provided herein or by agreement as to the expenditure of said funds.

(b) All amendments to the annual program budget shall be made by resolution of the board adopted in open session.

Section 2. This act shall take effect immediately upon becoming law.

—and requests the Senate to recede therefrom.
