Most Heavenly Father, we come this morning with grateful hearts for the beautiful blessings made available for us through Jesus Christ, thy son and our Saviour, and the Holy Spirit our comforter. We know all things good come of thee and we ask that you would let us continue to be a recipient of those gifts—only that measure necessary for sustenance and growth in our physical and spiritual lives.

We would pray that this legislative effort adds much progress to our state and to further proclaim those things that would improve our position with thee, spiritually. May we return to our respective places of abode and continue to concern ourselves with problems of state. In Jesus' name, we pray. Amen.

WHEREAS, his untiring efforts in support of needed and beneficial legislation are well known to the members of this Senate and the people of the State of Florida; and

WHEREAS, notwithstanding that his dedicated devotion to public duties has left little time for the pursuit of other activities, he has unselfishly given of this precious time to the advancement and growth of the Republican Party in this great State; and

WHEREAS, as a result of his efforts in behalf of the Republican Party this body has among its members twenty Republican senators whose presence here attests to the unceasing efforts of Senator Young on behalf of the Republican Party; and

WHEREAS, Senator Young is the first minority leader of this body we reflect on the thoughts of writer John B. Gough who wrote, "The chosen heroes of this earth have been in a minority. There is not a social, political, or religious privilege that you enjoy today that was not bought for you by the blood and tears and patient suffering of the minority. It is the minority that have stood in the van of every moral conflict, and achieved all that is noble in the history of the world.", and

WHEREAS, Senator Young, for many years, as the sole Senator of the minority party, has stood alone in this chamber and propounded the philosophy of the Republican Party with great success thereby demonstrating that democracy's real test lies in its respect for minority opinion; and

WHEREAS, we would record this our expression of esteem for Senator C. W. "Bill" Young as a citizen and legislator and our thanks for his fine abilities and untiring efforts in behalf of the people of this great State; Now, therefore,

SR 1782—A resolution in commendation of Kenneth Ireland

WHEREAS, for a long number of years the Senate of the State of Florida has been the recipient of the faithful and able services of Kenneth Ireland in the capacity of fiscal analyst and statistician, and

WHEREAS, he has given unstintingly of his time and efforts during successive Sessions of the Legislature, working without regard to the dates upon the calendar or the hands upon the face of the clock when occasion demanded, and

WHEREAS, no matter the grueling task—the lateness of the hour spent in pyramiding endless figures or the process of going over and over the same matter searching for solutions to perplexing problems and situations—no matter the monotony and seemingly fruitless effort on some occasions—he is ever to be found with a smile on his face and a cheerful demeanor "still achieving, still pursuing" in a manner which is an inspiration to those working by his side who are often much wearied by the task at hand, and

WHEREAS, because of the qualities of his expertness and his unselfish devotion to duty we would record this testimonial in appreciation, NOW, THEREFORE,

Be It Resolved by the Senate of the State of Florida:

That we do hereby recount in some measure the work and achievements

IN COMMENDATION—KENNETH IRELAND

Kenneth Ireland was born in Tampa, Florida, on August 10, 1912. He was educated in the public schools of Hillsborough County. After taking a business course he began his career with the Florida Emergency Relief Administration, where he served from November 1, 1932 to April 16, 1937, where his positions stepped up from bookkeeper, to Field Auditor to District Auditor and lastly Assistant Chief Auditor. He was not in state employment for a time and then on August 1, 1941, he took the position of accountant for the State Board of Administration where he served until September 3, 1943. He saw service in the United States Navy from September 4, 1943, until February 18, 1946. During this service he was promoted from Seaman 2nd Class to Storekeeper 2nd Class and received commendation for outstanding service at the Captain's Mast. His early release from duty in the Navy was occasioned by an unsolicited request by the late Honorable J. Edwin Larson, then State Treasurer, who based the request on the ground that Kenneth's services were badly needed by the State of Florida. The war had ended and Mr. Larson's request, which was quite a surprise to Kenneth when he learned of it, was granted. He returned to state service and was Chief Accountant with the State Board of Administration from March 1, 1946 to March 15, 1958.

His service with the Legislative Reference Bureau as Fiscal Analyst began on March 16, 1958, and has continued to date. He began service with the Senate Standing Committee on Appropriations in 1951 and continues to serve in the capacity of Fiscal Analyst. He served the Senate Apportionment Committee as statistician in the years 1965 and 1967, serving during the regular and extraordinary sessions. March 8, 1967, was the completion date of his thirtieth year of service with the State of Florida.

In the course of Legislative Sessions, he has served six members of the Senate in their respective tenures as Chairman of the Senate Standing Committee on Appropriations, viz., Senator Henry S. Baynard, 1951; Senator George C. Dayton, 1953; Senator Verle A. Pope, 1955; Senator Wilson Carraway, 1957, 1959, 1961; Senator L. K. Edwards, 1963; Senator Wilson Carraway, 1965; Senator Reubin O'D Askew, 1967.

BE IT FURTHER RESOLVED that a copy of this Resolution, duly inscribed by the President and the Secretary of the Florida Senate under the Seal of the Senate, be presented to Kenneth Ireland as a further token of the regard and esteem in which he is held by the members of this Body which he has served so long, so ably, so faithfully and so well.

Was read the first time by title. On motions by Senator Askew, SR 1782 was read the second time in full and unanimously adopted.

On motion by Senator Askew that a committee be appointed to escort Mr. Kenneth Ireland to the rostrum, the President appointed Senators Askew, Mathews and Edwards.

The commission shall have the necessary authority to adopt rules and regulations governing the following:

(g) Adopting any other rules and regulations necessary to carry out the purposes of this act.

Section 8. The commission shall require bidders to certify that each bid is submitted competitively and without collusion. False certification shall be punishable as in cases of perjury.

Section 9. Requisitioning for supplies by agencies; must purchase through sources certified.—After sources of supply have been established by contract under competitive bidding and certified by the commission to the said departments, institutions and agencies as herein provided for, it shall be the duty of all departments, institutions and agencies to make requisition on blanks to be approved by the commission, for all supplies, materials and equipment required by them upon the sources of supply so certified, and, except as herein otherwise provided for, it shall be unlawful for them, or any of them, to purchase any supplies, materials or equipment from other sources than those certified by the commission. One copy of

such requisition shall be sent to the commission when the requisition is issued.

Section 10. Certain purchases excepted from provisions of act.—Unless otherwise ordered by the commission, the purchase of supplies, materials and equipment through the commission shall not be mandatory in the following cases:

(1) Technical instruments and supplies and technical books and other printed matter on technical subjects; also manuscripts, maps, books, pamphlets and periodicals for the use of the state library or any other library in the state supported in whole or in part by state funds.

(2) Perishable articles and such as fresh vegetables, fresh fruit, fresh fish, fresh meat, fresh poultry, eggs and milk; providing, that no other article shall be considered perishable within the meaning of this clause, unless so classified by the commission.

Whenever an order or contract for such articles is awarded by any of the departments, institutions and agencies of the state government, a copy of such order or contract, together with a record of the competitive bids upon which it was based, shall be forwarded to the commission.

Section 11. When the state purchasing commission purchases, contracts for, or requisitions commodities which are to be paid for or the price thereof reimbursed to the agencies from federal funds, such purchases shall be made pursuant to the provisions of this act. Provided, however, that where there are mandatory laws, rules or regulations of the federal government that require other purchasing procedures on those items, the director is authorized to adopt such rules and regulations as are required to conform with the mandatory federal purchasing procedures.

Section 12. Purchase of articles in certain emergencies.—In case of any emergency arising from any unforeseen causes, sudden unexpected happenings, including delay by contractors, delay in transportation, breakdown of machinery, or unanticipated volume of work, the commission shall have power to purchase on the open market any necessary supplies, materials or equipment for immediate delivery to any department, institution or agency of the state government. A report on the circumstances of such emergency and its transactions thereunder shall be transmitted in writing by the director to the commission at its next meeting and shall be entered in the minutes of the commission.

Section 13. Contracts contrary to provisions of law made void.—Whenever any department, institution or agency of the state government, required by this law and the rules and regulations adopted pursuant thereto applying to the purchase of supplies, materials, or equipment through the commission shall contract for the purchase of such supplies, materials or equipment contrary to the provisions of this law or the rules and regulations made hereunder, such contract shall be void and of no effect. If any such department, institution or agency purchases any supplies, materials or equipment contrary to the provisions of this law or the rules and regulations made hereunder, and if such supplies, materials or equipment are so unlawfully purchased and paid for out of state monies, the amount thereof may be recovered in the name of the state in an appropriate action instituted therefor.

Section 14. Preference given to Florida products and articles manufactured by state agencies; sales tax considered.—The commission shall in the purchase of and/or in the contracting for supplies, materials, equipment and/or printing give preference as far as may be practicable to materials, supplies, equipment and/or printing manufactured or produced in Florida; provided, however, that in giving such preference no sacrifice or loss in price, quality, or service, shall be permitted; and, provided further, that preference in all cases shall be given to surplus products or articles produced and manufactured by other state departments, institutions, or agencies which are available for distribution, subject, however, to the provisions of section 945.16, Florida Statutes. Provided further, that in canvassing and comparing bids there shall be taken into consideration any sales tax or excise tax that will accrue to the state of Florida which is levied now or hereafter may be levied and in no case shall a bidder subject to such tax suffer in comparison with bids from those to whom such tax would not apply.

Section 15. Commission directed to give preference to home products.—The commission or any state agency or institution which is authorized to purchase foodstuffs and other supplies for state institutions, is hereby directed in all cases where the prices, products, or other supplies are available and equal, the said purchasing agency or institution shall in all such cases, contract with and purchase from the citizens of Florida and as far as is reasonable and practical, taking into consideration price, quality, and service, purchase and use and give preference to all of such products and supplies as are grown or produced within the state of Florida.

Section 16. Rules and regulations covering certain purposes.—The commission may adopt, modify, or abrogate rules and regulations covering the following purposes, in addition to those authorized elsewhere in this law:

The committee shall meet at such time, or times, as it shall by rule or regulation prescribe, but it may meet at other times at the call of the chairman. The committee shall keep official minutes and such minutes shall be open to public inspection. It shall be the duty of the standardization committee, subject to the approval of the purchasing commission, to formulate, adopt, establish and/or modify standard specifications applying to the state contracts. In the formulation, adoption and/or modification of any standard specification, the standardization committee shall seek the advice, assistance and cooperation of any state department, institution or agency to ascertain its precise requirements in any given commodity. Each specification adopted for any commodity shall insofar as possible satisfy the requirements of a majority of the state departments, institutions or agencies which use the same in common. After its adoption each standard specification shall until revised or rescinded apply alike in terms and effect, to every state purchase of the commodity described in such specifications. Section 19. Law applicable to printing required by the legislative department of the state government and all of the printing required to be done for the supreme court and district courts of appeal not affected.—Nothing in this law shall be construed as amending or repealing section 283.04, Florida Statutes, relating to the printing required by the legislative department of the state government and all of the printing required to be done for the supreme court and district courts of appeal, or in any way changing or interfering with the method of printing or contracting for the printing required by the legislative department of the state government and all of the printing required to be done for the supreme court and district courts of appeal, or other class A printing as provided for in chapter 283, Florida Statutes.

Section 20. Financial interest of officers in sources of supply; acceptance of bribes.—Neither the director nor any assistant of his, nor any member of the commission, nor of the standardization committee, shall be financially interested, or have any personal beneficial interest, either directly or indirectly, in the purchase of, or contract for, any materials, equipment or supplies, nor in any firm, corporation, partnership or association furnishing any such supplies, materials or equipment to the state government, or any of its departments, institutions or agencies, nor shall such director, assistant, or member of the commission or committee accept or receive, directly or indirectly, from any person, firm or corporation to whom any contract may be awarded, by rebate, gifts or otherwise, any money or anything of value whatsoever, or any promise, obligation or contract for future reward or compensation. Notwithstanding the above this section shall not prohibit any person herein from owning not more than one (1) per cent of the common stock in any corporation listed on the New York or the American stock exchange engaged in the sale to the state of commodities, as defined in section 1, subsection (2). Any violation of this section shall be deemed a felony and shall be punishable by fine not to exceed ten thousand dollars (\$10,000.00) or imprisonment for a term not to exceed ten (10) years, or both.

Section 1. Section 334.21, Florida Statutes, is amended to read:

(Substantial rewording of section. See section 334.21, F. S., for present text.)

334.21 Budgets; preparation; adoption; execution; and amendment.—

(1) The fiscal year of the department shall begin July 1 of each year and end on June 30 of each succeeding year. Such fiscal year shall constitute a budget year of all operating funds of the department.

(2) The department shall file all budgets in the manner required by chapter 216, Florida Statutes, except that the road construction program expenditures of the department shall be set forth only in total in said budgets with the details being set forth in the annual program-performance budget of the department, as said details are defined hereinafter in subsection (5) and by board regulations necessary to implement program-performance budgeting.

(3) The department shall prepare an annual program-performance budget pursuant to the budgets submitted and approved as provided by chapter 216, Florida Statutes, hereof, to control the annual expenditures of all funds made available for administrative, maintenance, toll operations, nonhighway property acquisition, debt service and for road construction purposes in the ensuing fiscal year.

(4) Nature and scope of the annual program-performance budget:

(a) The annual program-performance budget required by paragraph (3) above and hereinafter referred to as the annual program budget shall present a complete balanced financial plan for the state road fund and the restricted road fund, i.e., gas taxes, tolls, or other moneys made available for expenditure as restricted by law or agreement in any county or special district for road construction, physical maintenance and for the payment of toll operations and debt service and other expenditures authorized herein.

(b) The receipt side of said budget shall set forth all anticipated fund balances to be brought forward at the beginning of the budget year. The fund balance shall be the difference between the current assets and current liabilities and reserves, as commonly defined in accounting terminology, of each fund enumerated herein. It shall set forth all estimated revenues and receipts by source anticipated to be available during the ensuing year for which the budget is prepared; except that no anticipated receipts estimated to be received under Title 23, U. S. Code—"Highways," as amended, shall be budgeted in excess of the amount of state receipts set aside to match such federal aid, and the state funds thus set aside to match federal aid funds shall be used only for said matching purposes. Provided, however, the department shall, prior to the Preparation of the budget, ascertain the amount of federal aid funds which shall be or which are estimated to be available to the department for expenditure in the fiscal year for which the budget is prepared, and shall budget sufficient funds for matching purposes.

(c) The expenditure side of the annual program budget shall set forth the proposed expenditures of the department classified by major programs of work such as administrative; maintenance; tolls, nonhighway capital outlay; debt service; road construction; and other classifications or subclassifications as might be necessary to properly reflect the annual program budget of the department.

(d) The annual program budgets for the state road fund and restricted funds unless otherwise provided by law or agreement shall be so planned as to exhaust the estimated resources of each fund for the year with the exception of an emergency reserve, in such amount as the board may deem necessary, for the purpose of doing emergency work which may be found to be necessary to be done during the year in order to prevent the stoppage of travel over any road over which the department has jurisdiction and control. At any time during the last two (2) months of the fiscal year, the emergency work reserve or any portion of it may be appropriated for road purposes provided for herein, upon approval of the board, which approval must be recorded in its minutes.

(5) Funding and developing a road construction program:

(a) A road construction program of work to be undertaken during the ensuing budget year shall be prepared for the state road fund, and each restricted fund unless otherwise provided by law or board regulation, setting forth all construction projects, hereinafter referred to as project(s), to be undertaken during said budget year. For the budget year, beginning July 1, 1968, and each year thereafter, the road construction program of said annual program budget shall be for the ensuing five (5) years and referred to as the five (5) year construction program. The total amount of the five (5) year construction program in each fiscal year shall not be in an amount that would prevent the department from meeting the expenditure requirements for the projects set forth therein; provided that, should cash resources not be available to meet such expenditure

requirements due to unpredictable and unusual peak cash demands, the obligated fund may obtain a cash advance in the manner described in section 215.18, Florida Statutes, except that said cash advance shall be repaid within (4) months with or without interest, as decided by the state budget commission.

The first year of the five (5) year construction program shall be known as the annual construction program and shall consist of the projects with the highest priority in the five (5) year construction program. It shall further include the total budgeted expenditure requirements for all road projects to be underway in said annual construction program fiscal year.

No road project shall be undertaken unless the same is listed in the annual construction program; provided, however, in case any road project listed in said program cannot be undertaken during that year for any justifiable reason which shall be recorded in the minutes of the board, then a project listed in the second year of the five (5) year construction program may be undertaken. This provision shall not apply to projects estimated to cost less than twenty thousand dollars (\$20,000.00) or to emergency projects approved by the state road board and which must be undertaken to protect a highway investment or to prevent the closing of an important state road not exceeding in cost the amount set aside for emergencies as above provided.

(b) Prior to the annual adoption of the five (5) year construction program, the department shall hold public hearings in each of the road districts to give consideration to the necessity of making any changes to projects included or to be included in said five (5) year construction program and to hear requests for new projects to be added or existing projects to be deleted to said five (5) year construction program.

A copy of each list of requested projects presented at the public hearing set forth herein shall be filed with the legislative reference bureau by the department for use by the committee on roads and highways of the legislative council or its successor and by the appropriate standing committees of the house and senate.

(6) Publication of the annual program budget:

(a) The proposed annual program budget made up for all programs of the department as aforesaid, including the five (5) year construction program, shall be published once in one (1) of the newspapers of general circulation in the state, published in each of the road districts, together with a notice of the time and place of the public meeting for considering such proposed annual program budget and that said budget is available for inspection by the public at the office of the clerk of the circuit court or chairman or similar officer of the board of county commission.

(b) One (1) copy of the proposed annual program budget shall be forwarded to the office of the chairman or similar officer of each board of county commission and another copy shall be furnished to each clerk of the circuit court together with a notice of the public hearing above referred to. Said clerk shall post at the front door of the courthouse a copy of the public hearing notice along with a notice that the proposed annual program budget and five (5) year road construction program of the state road department is available for inspection of the public during his regular office hours.

(7) Adoption of the annual program budget of the department:

(a) The board shall appoint a time and place for the public hearing on the proposed annual program budget and five (5) year construction program prepared for the state road fund and restricted funds as required herein, at which time it shall hear all questions, suggestions, or other comments offered by the public in regard to such budget.

(b) Upon completion of such hearing, the board shall, prior to the beginning of the fiscal year, decide upon and make up a final annual program budget and five (5) year construction program for the ensuing year in accordance with the foregoing requirements.

(8) Execution of the budget:

(a) The board or department shall not during any fiscal year expend money or incur any liability, or enter any contract which, by its terms, involves the expenditure of money in excess of the amounts budgeted as available for expenditure dur-

ing such fiscal year. Any contract, verbal or written, made in violation of this section shall be null and void and no money shall be paid thereon. The board and department shall require a financial report that funds are available prior to entering into any such contract or other binding commitment of funds. Any willful violation of the provisions of this section shall become a liability against the bond of any board member voting to approve such commitment of funds or if said board approval is not required to execute such commitment, then violation of this section shall become a liability against the bond of any department employee responsible for the willful execution, approval, or payment of said commitment of funds; provided, however, that nothing herein contained shall prevent the making of contracts for a period exceeding one (1) year, but any contract so made shall be executory only for the value of the services to be rendered or agreed to be paid for in succeeding fiscal years and this paragraph (a) shall be so referenced to in all contracts of the department in excess of twenty-five thousand dollars (\$25,000.00) and having a term for a period of more than one (1) year.

(b) In the operation of its state road fund, and restricted funds when applicable, the department shall have on hand at the close of business, which closing shall be not later than the tenth calendar day of the following month at the end of each month of the fiscal year, an available cash balance or estimated cash flow in an amount equivalent to meet the cash needs of the department. In the event this cash position is not maintained, no further state road or restricted fund construction contracts or other fund commitments shall be approved, entered into, awarded, or executed until the proper cash position, as defined above, has been regained.

(9) Amendment of the annual program budget:

(a) The board shall have the authority to amend its annual program budget at any time during the fiscal year as follows:

1. Transfer within the same fund of any unencumbered budget item, or any portion thereof, from one activity to another.

2. Transfer between the state road fund and the restricted funds and between the restricted funds, within the provisions of the restrictions by law or by agreement as to the expenditure of said funds, any unencumbered funds budgeted for purposes authorized by law.

3. Budget in the proper fund and expend any receipts in excess of the total anticipated receipts in the adopted budget.

4. Substitute a project in any fund to the extent provided herein or by agreement as to the expenditure of said funds.

(b) All amendments to the annual program budget shall be made by resolution of the board adopted in open session.

Section 2. This act shall take effect immediately upon becoming law.

—and the Speaker of the House has appointed Representatives Arnold, Pratt, and Stevens as a Conference Committee on the part of the House and requests the President of the Senate to appoint a like committee to adjust the differences on Senate amendments to HB 81.

(2) RATIO UNITS.—If, for any reason beyond the control of the county board of any county, the ratio between the total average daily attendance and the total average daily membership of students in the entire county for the year is below the ratio for the highest two (2) of the preceding four (4) years in that county, the state superintendent shall, in accordance with regulations prescribed by the state board, use the average ratio between the average daily attendance and the average daily membership in that county for the highest two (2) of the preceding four (4) years as the basis for calculating the total number of instruction units for instructional personnel for the county.

(3) RECALCULATION.—The county superintendent in each county of the state shall be required to submit to the state superintendent of public instruction, not later than December 1 of each school year, a report of the average daily attendance for each school for the first two (2) months of the current school year. If in any county the average daily attendance of all pupils in the county for the first two (2) months of any school year is greater than the average daily attendance in the county during the first two (2) months of the preceding school year, the state superintendent shall report the facts to the state board, which shall have authority to authorize an increase in the amount of state funds allocated for the minimum foundation program fund for that county by the percentage of increase; provided, however, the increase in the amount of state funds allocated for that county shall be the percentage of increase which is in excess of two percent (2%) in the fiscal year 1967-68 and the percentage of increase which is in excess of one percent (1%) in the fiscal year 1968-69; provided that the percentage referred to herein shall be computed to the nearest one one-hundredth per cent (0.01%), provided further that state funds provided in section 236.07(6), Florida Statutes, relating to capital outlay and debt service and the state funds provided in section 236.075, Florida Statutes, relating to county school sales tax funds shall be increased by the same percentage by which the state funds for the minimum foundation program are increased for that county pursuant to this section.

Section 7. Section 128, chapter 65-239, Laws of Florida, is hereby repealed.

Section 8. Subsections (7), (8) and (10) of section 236.04, Florida Statutes, are amended to read:

(7) UNITS FOR ADMINISTRATIVE AND SPECIAL INSTRUCTIONAL SERVICES.—

(a) For each eight (8) instruction units in a county, determined as provided in subsections (1) to (6) inclusive of

this section: One (1) instruction unit or proportionate fraction of a unit shall be allowed for administrative and special instructional services when used in accordance with regulations prescribed by the state board.

1. The person employed on such a unit shall be a qualified librarian as defined by the state board.

2. [After the 1966-67 school year the number of library service instruction units allocated to any county shall be decreased by the number of full time librarians provided in 1963-64 in that county except that.] Each county shall be allocated at least one (1) library unit each year.

3. The personnel employed on the library service instruction unit shall develop plans to secure funds from federal, state, and other sources for the acquisition of instructional materials in the schools of the county.

6. The personnel employed on a library service instruction unit shall provide guidance and help which will afford each pupil an opportunity to strengthen his reading skills in the content areas and develop reading habits which fulfill his varied and changing needs throughout his school career.

[7. Provided further that for each of the fiscal years 1965-66 and 1966-67 the state superintendent shall approve one such library service instruction unit in each county each year.]

(8) [UNITS FOR SUPERVISORS OF INSTRUCTION.]—Units for improvement of instruction.—Each county board [which employs for the purpose of improving instruction in the county one (1) or more qualified supervisors of instruction and] which adopts and carries out a plan for improvement of instruction in the county, in accordance with regulations of the state board and which employs qualified personnel to implement such plan shall be entitled to [additional instruction] instructional improvement units [for each supervisor of instruction employed] in the county as prescribed below; provided, that any adjacent counties may propose a plan which may be approved in accordance with regulations of the state board for [cooperative employment of a supervisor or supervisors of instruction] cooperation. The number of [instruction] instructional improvement units [for supervisors] to which each county is entitled shall be determined as follows:

(a) For the first one hundred (100) instruction units or fraction thereof, [one (1)] two (2) [instruction] instructional improvement units shall be allowed. [for the employment of a general supervisor of instruction.]

(b) For each additional one hundred (100) instruction units or fraction thereof, one (1) additional [instruction] instructional improvement unit shall be allowed; provided, that for the fiscal year 1967-68 only, no county shall be entitled to more than six such additional instructional improvement units.

(c) All instructional improvement units not filled by full-time instructional personnel shall be computed at the average value of instruction units in ranks II, and I as prescribed by law for twelve (12) months employment.

(d) Instructional improvement units are provided for the purpose of solving specific educational problems and providing within the schools of the state materials and services related directly to the quality of instruction and not for merely administrative purposes. The use of all units shall be in accordance with regulations promulgated by the state board and the effectiveness of the use of these units shall be valued critically by the respective county board of public instruction and the state superintendent and results reported to the state board.

(10) INSTRUCTIONAL PERSONNEL PAID FROM MINIMUM FOUNDATION PROGRAM.—

(a) The total number of instructional personnel in any county employed and paid in whole or in part from funds used to support the minimum foundation program during any year shall not be less than [the percentages prescribed herein in relation to] the total number of instruction units for instructional personnel [: 1965-66 and 1966-67 not less than ninety-five] exclusive of instructional improvement units; one hundred per cent (100%) of the instruction units exclusive of instructional improvement units must be filled by personnel qualified to participate in the minimum foundation program; [and in subsequent years the following minimum percentage shall apply in lieu of the ninety-five per cent prescribed above; 1967-68, ninety-six per cent; 1968-69, ninety-seven per cent; 1969-70, ninety-eight per cent; 1970-71, ninety-nine per cent; and in 1971-72 and all years thereafter one hundred per cent;] provided that if any county board authorizes instructional salary payments from funds used to support the minimum foundation program to instructional personnel employed in the county less than the [minimum] minimum prescribed above, the state superintendent shall forthwith notify the state comptroller of the amounts of such discrepancy and an equal amount shall be withheld from each subsequent monthly apportionment for instructional salaries to said county until full correction has been made; provided further that in determining the number of instructional personnel full-time equivalent instructional positions shall be determined as provided by regulations of the state board.

(b) For the first fiscal year after any county board of public instruction has ceased to operate a federally owned school facility located on federal property the computation of the allocations for the minimum foundation program fund shall include the number of teachers and the salaries paid said teachers who taught in the federally owned school during the preceding school year.

Section 9. Effective July 1, 1968, section 236.05, Florida Statutes, is amended to read:

236.05 Procedure for determining annual apportionment for transportation to each county.—The annual apportionment to each county board of public instruction for transportation to the public schools of pupils in kindergarten through grade twelve (12) and for physically handicapped pupils shall be determined as follows:

(1) The number of pupils in average daily attendance, who during the period prescribed by law, are transported at public expense to public schools in the county approved for transportation under regulations of the state board and whose homes are two (2) or more miles from the nearest appropriate school shall be determined and certified to the state superintendent by the county superintendent; provided that the mileage limitation shall not apply to transportation of physically handicapped pupils as authorized under regulations of the state board.

(2) The one-way miles in the morning, as adjusted by the state superintendent, traveled by school transportation vehicles operated at public expense for purposes of apportionment shall be determined annually from certified data and maps of school bus routes submitted by each county superintendent by adding:

(a) The loaded one-way miles of each school bus route in the morning when designated in accordance with section 234-10, Florida Statutes, and served by a bus having a combined passenger seating capacity in excess of eighteen (18) linear feet, and one-half ($\frac{1}{2}$) of the loaded miles of each school bus route served by a bus of a capacity of eighteen (18) linear feet or less, when used to transport pupils whose homes are two (2) miles or more from school except that miles traveled for a side route to pick up children living within one and one-half ($1\frac{1}{2}$) miles of the trunk route and mileage not essential in transporting pupils eligible for transportation, as prescribed by regulations of the state board shall not be added.

(b) Fifty per cent (50%) of the one-way miles traveled without pupils in the morning on any school bus route by any vehicles meeting criteria of paragraph (a)

(c) Ten per cent (10%) of the one-way miles traveled in the morning on any school bus route on unpaved or unimproved roads by any bus meeting criteria in paragraphs (a) and (b).

(3) A density index for each county shall be determined by dividing the average daily attendance of pupils transported as determined in subsection (1) by the adjusted one-way miles of vehicular travel as determined in subsection (2) for each county.

(4) The minimum foundation program allocation for transportation for any one (1) county shall be calculated as follows:

(a) Multiply the average daily attendance for transported pupils as determined in subsection (1) by the allowance per pupil determined by the density index of the county and multiply the adjusted one-way miles traveled as determined in subsection (2) by the allowance per adjusted bus mile as prescribed below:

Density Index	Annual allowance per pupil in average daily attendance in kindergarten through grade twelve (12)	Annual allowance per adjusted bus mile
6.00 and more	\$10.00	\$61.20
5.50 through 5.99	11.00	59.40
5.00 through 5.49	12.00	57.60
4.50 through 4.99	13.00	55.80
4.00 through 4.49	14.00	54.00
3.50 through 3.99	15.00	52.20
3.00 through 3.49	16.00	50.40
2.50 through 2.99	17.00	48.60
2.00 through 2.49	18.00	46.80
1.50 through 1.99	19.00	45.00
1.49 and less	20.00	43.20

(b) When authorized by regulations of the state board, in lieu of average daily attendance in this subsection one thousand two hundred fifty dollars (\$1,250.00) shall be allowed for each bus used exclusively for the purpose of transporting ten (10) or more physically handicapped pupils to a public school, and a proportionate amount shall be allowed for a vehicle used exclusively for the transportation of a smaller number of exceptional children in average daily attendance as prescribed by regulations of the state board.

(c) When authorized by regulations of the state board an annual allocation of twenty-one dollars and sixty cents (\$21.60) per mile shall be allowed for miles traveled by passenger cars one-way in the morning with pupils as prescribed by regulations of the state board.

(5) The following procedure shall be used in computing the allocation of funds under the minimum foundation program for the transportation of pupils who are enrolled in and transported at public expense to vocational-technical centers designated by the state board for vocational education to serve the area:

(a) For each thirty (30) pupils in average daily attendance as prescribed by the state board who live two (2) miles or more from school, a transportation unit of one thousand two hundred fifty dollars (\$1,250.00) shall be added to the minimum foundation program for transportation, and a proportionate part of one thousand two hundred fifty dollars (\$1,250.00) shall be allowed for any number of such transported pupils in average daily attendance of less than thirty (30) whenever:

1. The vocational-technical center is operated as a separate school center and pupils attending from the county of location are assigned primarily to such centers by the county board.

2. The pupils are transported to the school designated as a vocational-technical center from a cooperating county for instruction primarily in the vocational-technical program.

(b) For each pupil enrolled in a school center providing basic education who during the school day is transported to or from said center for a distance of two (2) or more miles to a vocational-technical center designated for the area and located within the same county and who is in attendance as prescribed by regulations of the state board at such vocational-technical center, there shall be allowed additional funds for transportation to be determined as follows:

1. The equivalent vehicular units shall be determined by dividing the average daily number of pupils transported by fifty (50).

2. Then multiply the equivalent vehicular units as determined in paragraph (a) by twice the mileage distance between the two (2) schools by the nearest traveled road.

3. Then multiply the number of miles traveled by twenty cents (20¢).

(c) During the first two (2) years of operation of a vocational-technical center a transportation unit of one thousand two hundred fifty dollars (\$1,250.00) shall be allowed the county board furnishing transportation for each thirty (30) pupils or fraction thereof in average daily attendance during the first month of each year of operation of the vocational-technical center.

(6) The sum of paragraphs (a), (b) and (c) of subsections (4) and (5) shall be the minimum foundation program allocation for transportation for each county.

Section 10. Subsection (3), (4), (5), (8) and (9) of section 236.07, Florida Statutes, are amended to read:

236.07 Procedure for determining annual apportionment to each county.—The procedure for determining the apportionment annually to each county foundation program fund shall be as follows:

(3) DETERMINING THE AMOUNT TO BE INCLUDED FOR INSTRUCTIONAL SALARIES.—

(a) For each instruction unit sustained by instructional personnel under annual contract multiply such instruction units by Rank I by six thousand fifty dollars (\$6,050.00), in Rank II by five thousand four hundred fifty dollars (\$5,450.00), in Rank III by five thousand dollars (\$5,000.00), in Rank IV by three thousand dollars (\$3,000.00), and in Rank V by two thousand eight hundred dollars (\$2,800.00).

Effective July 1, 1968, the above amounts shall be increased one hundred dollars (\$100.00).

(b) For each instruction unit sustained by instructional personnel who have served continuously, except for authorized leave, for three (3) years within the county, the above amount for Ranks I, II, and III shall be increased by four hundred dollars (\$400.00).

(c) For each instruction unit sustained by instructional personnel under continuing contract who have completed ten (10) years of efficient teaching service in Florida public schools the above amounts shall be increased by an additional four hundred dollars (\$400.00).

(d) Provided, that for any county, which by local law a tenure program is provided in lieu of continuing contracts, the state board of education shall by regulations provide for the recognition and application of comparable tenure requirements in lieu of the requirements herein relating to continuing contracts.

(e) The amounts included for salaries for instructional improvement personnel, administrative and special instructional personnel, adult education teachers, and vocational teachers under the minimum foundation program in each county shall be increased by up to twenty per cent (20%) when such money is used to pay the salaries of personnel who are employed, pursuant to regulations of the state board, for the two (2) month period, or fractional part thereof, beyond the ten (10) months of employment required in section 236.02, Florida Statutes. Such regulations of the state board shall permit during such two (2) month period, or fractional part thereof, employment of instructional improvement personnel, administrative and special instructional services personnel, adult education teachers, and vocational teachers, and shall likewise also permit use of salaries for administrative and special instructional services personnel for the employment of teachers to teach, during such two (2) month period, or fractional part thereof, academic subjects or preschool orientation classes which such teachers are certified to teach and are regularly engaged in teaching in the county during the preceding or succeeding regular ten (10) month school year. Classes in academic subjects during such two (2) month period or fractional part thereof shall be of such minimum size as shall be prescribed by the state board, and may be composed of students taking advance work for acceleration purposes, or of students repeating subjects previously taken either for make-up or remedial work, or both, and such work shall be credited as work taken during the regular school year.

These amounts are to be used only for apportionment purposes and are not to be construed as a state salary schedule. No member of the instructional staff shall be paid an amount less than ninety per cent (90%) of the salary allotment for the rank of the certificate and contract status of that person, or the amount prescribed in section 236.02 (6), Florida Statutes, whichever is the greater. The sum of these products shall be the total amount included in the minimum foundation program for instructional salaries, which shall not exceed the amount paid as salaries in any case.

(f) The state board of education shall promulgate and adopt necessary regulations for the determination of the classification of instructional personnel and instruction units with relation to continuing contracts and efficient teaching service in Florida public schools.

(4) Determining the Amount to Be Included for Transportation.—Multiply the number of units for transportation determined for each county according to law by one thousand two hundred fifty dollars (\$1,250.00) and the product shall be the amount included in the minimum foundation program for transportation and effective July 1, 1968, and for each year thereafter, the amount included in the minimum foundation program for transportation shall be as provided in section 236.05, Florida Statutes. No county shall use foundation program funds to purchase transportation equipment and supplies at prices which exceed those found by the state department of education to be the lowest which can be obtained as prescribed in section 229.79, Florida Statutes.

(5) Determining the amount for current expenses [other than instructional salaries and transportation.] Multiply the number of instruction units, determined for each county according to law by nine hundred twenty-five dollars (\$925.00) and effective July 1, 1968, and for each year thereafter, by one thousand dollars (\$1,000.00) and this product shall be the amount included for current expenses. [other than instructional salaries and transportation; provided, that of this product twenty-five dollars per instruction unit shall be specifically designated for the purchase of instructional materials; and provided, further, that the state board shall establish minimum standards to be met by county boards in expending funds for other current expenses.]

(8) Determining the minimum financial effort in each fiscal year required of each county for the minimum foundation program.—The amount which each county shall provide toward the cost of the minimum foundation program is that county's per cent of the financial ability of the state as determined by an index of relative taxpaying ability prescribed by law in section 236.071, Florida Statutes, multiplied by twenty-five per cent (25%) of the total calculated cost of the minimum foundation program for kindergarten and grades one (1) through twelve (12) for all counties for the preceding fiscal year for instructional salaries, transportation, and current expense, and recalculation funds provided in sections 236.03 and 236.031, Florida Statutes, but exclusive of adjustments for prior years as provided in section 236.07 (9), Florida Statutes. Provided, however, that the combined required effort of all counties for grades one (1) through twelve (12) shall not increase more than five per cent (5%) in any year. The financial effort of any county toward meeting the cost of the minimum foundation program for that county shall consist of the proceeds of either county or district or of both the county and district current school taxes; provided, that when a county is levying the maximum mills permitted by law, race track, federal impact, and national forest funds may be included. If a county requests that instruction units for kindergartens be included in its minimum foundation program and is entitled to such units under the laws of the state, the financial effort required of that county as prescribed herein shall be increased by five per cent (5%); provided, however, that during each of the first six (6) years in which kindergarten units are approved in the minimum foundation program the increased local effort shall not exceed three thousand dollars (\$3,000.00) for each kindergarten unit approved in the respective counties; provided, further, that effective July 1, 1969, and for each year thereafter, no county shall be required to increase the financial effort required of such county for grades one (1) through twelve (12) as herein prescribed when kindergarten units are included in the minimum foundation program for that county.

DETERMINING THE ALLOCATION FROM STATE FUNDS.—The total allocation to each county foundation program fund shall be the total calculated cost of the minimum foundation program for that county as determined in subsection (7) less the minimum financial effort required of that

county as determined in subsection (8); provided, however, from this amount shall be deducted in the succeeding fiscal year:

(a) Any amount required to be deducted from the full apportionment for any school or schools that operated less than one hundred eighty (180) teaching days during the preceding year;

(b) In such counties as fail to pay instructional personnel at least the amount included in the minimum foundation program for instructional salaries, the difference between the amount included in the minimum foundation program for instructional salaries and the amount actually paid [to teachers] in such counties;

(c) Any portion of the amount included in the minimum foundation program for capital outlay and debt service which a county board expends in violation of the state board regulations;

(d) Any unused portion of the amount included in the minimum foundation program for instruction units of any type or classification.

Section 11. Paragraph (b) of subsection (2) of section 236.071, Florida Statutes, is amended to read:

236.071 Foundation program fund; state supervisory service fund; formula for index of taxpaying ability.—

(2) The legislature finds and declares that substantially equal public educational advantages should obtain in all counties of the state; that such equality does not now exist. In order to provide in every county, from combined state and county sources, substantially equivalent educational advantages, the state minimum foundation program funds shall be apportioned and distributed on the basis of educational needs and relative taxpaying ability as prescribed by law, in the ascertainment of which, the state board shall determine:

(b) The cost of the minimum foundation program as determined in section 236.07, Florida Statutes.

In determining said index of the relative taxpaying ability of the several counties of Florida the state superintendent shall find each county's per cent of the state total of each of the following factors: Sales tax returns, gainfully employed workers excluding government and farm workers, value of farm products, assessed value of railroad and telegraph, automobile tag registration. The index of taxpaying ability for each county expressed in terms of its percent of the state total taxpaying ability shall be determined as follows: Find the sum of the county's per cent of sales tax returns multiplied by [.2654] .2541 plus its per cent of gainfully employed workers less government and farm workers multiplied by [.2442] .1832 plus its percent of the value of farm products multiplied by [.0586] .0530 plus its per cent of the railroad and telegraph assessments multiplied by [.0461] .0319 plus its per cent of automobile tag registration multiplied by [.2857] .4778; furthermore, if any county fails for any reason to make the minimum financial effort required for the minimum foundation program the state's portion of the foundation program allocation to that county shall be decreased proportionately. The state superintendent shall obtain data for the factors included in the index from the most reliable published source as determined by the state board of education.

Section 12. Subsection (3) and paragraph (a) of subsection (4) of section 236.074, Florida Statutes, is amended to read:

236.074 County school additional capital outlay trust fund created.—

(3) **APPROPRIATION FOR ADDITIONAL CAPITAL OUTLAY.**—There is created in the office of the state treasurer a county school additional capital outlay trust fund. There is hereby annually appropriated from the general revenue fund to the county school additional capital outlay trust fund of the several counties maintained in the office of the state treasurer [the a] sum [of thirteen million seven hundred fifty thousand dollars to be distributed at the rate of an amount] which shall be equal to two hundred dollars (\$200.00) and effective July 1, 1968, and for each year thereafter, sum which shall be equal to three hundred dollars (\$300.00) multiplied by the number of pupils in average daily attendance for the last completed school year commencing with the school year 1958-1959 which is in excess of the number of pupils in average daily attendance during the next preceding school year as determined by law;

provided that the average daily attendance for the next preceding school year shall never be computed for the purposes of this section as less than the average daily attendance for any school year commencing with and subsequent to the 1955-1956 school year; provided further, that any undistributed balance of the appropriation herein made remaining at the end of the first year of the biennium may be carried forward and added to the amount available in the second year of the biennium.

(4) Limitations on appropriation.—The annual appropriation made in subsection (3) of this section is subject to the following limitations:

(a) In order for a county board of public instruction to avail itself of the appropriation in subsection (3) of this section, it must create in its county school fund a separate fund known as the school construction fund, and place in the school construction fund from any source available to such board an amount equal to two-thirds (2/3) the amount it seeks to obtain from the appropriation under subsection (3) of this section; provided, however, for the fiscal year 1967-68 the county board shall place in the school construction fund an amount equal to the amount it seeks to obtain from the appropriation under subsection (3) of this section; provided that no money received from capital outlay funds other than as provided in this section or proceeds from loans against state appropriations for capital outlay shall be included in the school construction fund. The school construction fund so placed in the county school fund shall be used solely for school construction or reconstruction.

Section 13. Section 236.075, Florida Statutes, is hereby repealed.

Section 14. Section 231.24, Florida Statutes, is amended to read:

231.24 Extension of certificates.—

(1) All certificates except temporary and provisional certificates issued under the provisions of the Florida Statutes, shall be extendible for successive periods under regulation of the state board prescribing such additional training or experience, or both, as may be deemed necessary for said extension; provided, that the applicant for the extension of the certificate has not reached his seventieth birthday, and provided, however, that when any person holding a valid Florida teacher's certificate is called into or volunteers for actual wartime service or required peace-time military training, his certificates shall be extended for a period of time equal to the time he spends in military service, providing such person makes proper application and presents substantiating evidence to the state superintendent regarding such military service.

(2) Each county board of public instruction shall, upon recommendation of the county superintendent, adopt a plan for in-service education of all instructional personnel designed to assist each member to maintain current competence in the field or fields in which he is assigned. Such plans shall be formulated in cooperation with the state department of education, the educational leadership institute, and the university system and when adopted or amended shall be filed with the state superintendent. To the maximum extent practicable each county board shall make available to each member of the instructional staff time for interaction with other members in the same or related field or fields of assignment, an adequate professional library, and an opportunity to participate in programs offered through the educational leadership institute, the university system and the county board as may be required to maintain the current competence of each member. Effective participation in county in-service education programs approved by the State superintendent shall be acceptable toward meeting the requirements prescribed by the state board of education for the extension of certificates, provided that college credit courses which are not earned as part of a county in-service program as described above shall not be required for the extension of certificates.

Section 15. Sums appropriated to the state department of education for salaries may be expended for other personal services related to curriculum and instruction for salaries of persons appointed jointly by the state superintendent and any university for part-time services related to curriculum and instruction irrespective of the number of positions stated and the provisions of section 282.051, Florida Statutes.

Section 16. There is appropriated to the state board of education for the purpose of implementing sections 248.01 and

248.02, Florida Statutes, the sum of fifty thousand dollars (\$50,000.00) for the biennium 1967-69.

There is appropriated out of the general revenue fund to the trustees of the educational leadership institute for the biennium 1967-69 four hundred thousand dollars (\$400,000.00) in 1967-68 and four hundred and fifty thousand dollars (\$450,000.00) in 1968-69.

For each year of the 1967-69 biennium, the funds appropriated to the county school sales tax trust fund under Section 236.075, Florida Statutes, shall become a part of the other current expense allocation and shall be in addition to the amount provided in Section 236.07(5), Florida Statutes, for grades K-12, and Section 230.0117(4), Florida Statutes, as to junior colleges.

Section 17. Sections 1, 4, 11, 13, 14, 15 and 16 shall take effect immediately upon becoming a law, and all other sections shall take effect July 1, 1969.

VETOED BILL 1967 REGULAR SESSION

The Honorable Verle A. Pope
President of the Senate

July 14, 1967

Sir:

I am directed to inform the Senate that the House of Representatives has passed by the required Constitutional two-thirds vote of all Members of the House of Representatives present on July 14, 1967, the Governor's objections to the contrary notwithstanding—

By Representatives Yarborough and Ashler—

HB 3113—A bill to be entitled An act relating to Junior Colleges; providing an appropriation to fully finance the Junior College Minimum Foundation Program for the 1967-69 biennium; providing an effective date.

The Governor's objections attached thereto.

July 14, 1967

Dear Sir:

Pursuant to the authority vested in me as Governor of Florida under the provisions of Article III, Section 28, of the Constitution of the state, I hereby transmit to you, with my objections, House Bill 3113, enacted by the Legislature of 1967 and entitled:

"An act relating to Junior Colleges; providing an appropriation to fully finance the Junior College Minimum Foundation Program for the 1967-69 biennium; providing an effective date."

General Revenue appropriations which have already become law provide 61.8 million dollars for Junior Colleges. This represents an increase of 16.9 million dollars or 37.6% more than estimated expenditures during the current biennium.

Total general revenue appropriations which have already become law exceeds by approximately 50 million dollars the amount the Budget Director estimates to be available. As a result the Budget Commission has found it necessary to require a 3% across-the-board reduction from all general revenue appropriations. If this bill became law, it would mean that an additional 1% across-the-board withholding would have to be effectuated. This additional withholding would create hardships on other governmental functions, including other educational activities, as we are still required to operate all governmental functions within the total funds available.

A smaller general revenue appropriation of \$13,087,000 supplemented by a \$25 increase in student fees could accomplish the same objectives as this bill without creating such severe hardships on other governmental functions, and for this reason

I am necessarily withholding my approval from House Bill 3113, 1967 session of the Legislature, and do hereby veto the same.

Respectfully,
CLAUDE R. KIRK, JR.
Governor

EXPLANATION OF VOTE

For the reasons stated on the floor of the Senate that the issue concerned here is not education but purely a political issue between the majority party of the Senate and the Governor of this state; and as resentment that this important educational matter has been made a political matter, with the youth of Florida the loser, I voted in favor of the Governor's veto; trusting that adequate financing for the Junior College program will be forthcoming as a compromise measure by this body in the near future.

JOHN J. FISHER
Senator, 10th District
