Prayer by Senator Elizabeth J. (Beth) Johnson of the 29th Senatorial District:

Lord, I've picked up a cinder in my eye. It gives me blind spots and keeps me aware of my own discomfort. Eyes are your gift to me. Perspective is mine to you. In such an age I don't want to be caught with lack of vision. Help us, Lord, to not lose our perspective in the last hours of our work. Help us to see clearly, act wisely and use those gifts you gave us for the betterment of ourselves, our people and our state. We ask this in Jesus' name. Amen.

EXPLANATION OF VOTE

I voted for the Conference Committee Report on 'SB 113-X (68) for the sole reason that I felt obligated to vote for the necessary taxes to pay for our educational package since I earlier voted for that package. However, I want this record to attest that I feel the conference committee's action in putting the sales tax exemption on cheese cloth used in shading tobacco back into the bill (plus adding some new agricultural exemptions thereto) was unwarranted. There is no justification whatsoever for one industry receiving a tax exemption not granted to other industries and the Senate was right in removing this exemption. I also consider the action of the conference committee in providing that the new taxes this bill puts on the statute books will terminate after June, 1969, is "no way to write a tax bill."

EXPLANATION OF VOTE

The beer industry really has cause to sing forth in its collective voice a rousing round of "Roll out the Barrel." The barrel that got rolled out for the beer boys in the conference committee report on SB 114-X(68) contained one million dollars in new-found money. This one million dollar bonanza to the beer industry will result from the provision of SB 114-X giving licensed beer distributors 3% "of the amount of the tax due," allegedly to cover the costs to the industry in collecting the tax monies for the state. No such rebate has ever been given to the beer industry in the past but the 3% rebate will apply to the entire amount of the tax on beer, that imposed before this special session and that to be imposed after the passage of this bill. Further, the registered lobbyist for the beer industry admitted before the Senate Finance and Taxation Committee that there was no way for the industry to give an advance estimate as to what it will actually cost them to collect the tax. The Beverage Department did not feel it was in a position to make such an estimate either but none of the representatives of that department with whom I discussed this matter felt that it would cost the industry anywhere near the 3% figure.

I successfully amended SB 115-X (the bill increasing the tax on liquor) and SB 116-X (the bill increasing the tax on cigarettes) to provide that the amount of the rebate allowed those industries for collecting the taxes on the respective commodities be reduced in proportion to the respective tax increase. These amendments were necessary to prevent these two industries from making a windfall on the tax increases. However, it hardly seems fair that we have so curtailed the liquor and cigarette industries and at the same time gave a 3% one million dollar per year blank check to the beer industry. SB 114-X contains one of the worst special interest concessions I have ever seen since coming to the Legislature in 1963 and I, accordingly, voted against the conference committee report on this bill.

On motion by Senator Barron, the following report by Senator Poston on the Joint Florida Legislative Planning Conference was ordered spread upon the pages of the Journal:

The members of the Florida Joint Legislative Planning Committee met in Washington, D. C. on January 25, 1968, beginning at 9:00 a.m. and ending at 4:30 p.m. The following members attended, representing the Florida Senate and Florida House:

Senators Dempsey J. Barron, John R. Broxson, T. Truett Ott, Joseph A. McClain, Jr., and Ralph R. Poston; and Representatives A. S. Robinson, William H. Bevis, William C. Andrews, James J. Reeves, Robert C. Hartnett, William L. Gibson and Jack M. Poorbaugh.

Representing the Florida Cabinet were: The Honorable Doyle Conner, Commissioner of Agriculture; Mr. Ralph Davis, representing the Honorable Broward Williams, State Treasurer.

The following problems were discussed in depth: Agriculture and Conservation; Federal-State Relations—Urban Affairs & Local Government; Finance and Taxation; Public Health and Welfare; Public Schools; and Public Works, Roads and Highways and Public Safety.

SUMMARY

In trying to measure the effect of the Conference, by all means available, and based on comments made by participants and the Press, it was very much a success. The participants were excited about the numerous subjects that were covered in a single day, and the Congressmen were impressed by the depth of knowledge in the subject matters presented by the State Legislators.

A typical comment made by Senator Spessard Holland was that this is something that has been needed for years and it is difficult to understand why a Planning Conference has never been proposed before.

Senator George Smathers indicated that he felt that this gave the Congressmen and U. S. Senators a better perspective into the problems as related by the State Legislators.

Congressman Robert Sikes, who co-chaired the Meeting, commented that the Planning Conference was a U. S. 'First'; that he was proud to participate in it and felt that all parties were enlightened as to the true problems of the people of the State of Florida.

There were other comments . . . all favorable. A typical comment made by one of the Press was that when he entered the Conference Room he thought it would be another humdrum meeting, but was definitely surprised and pleased to learn of the in-depth studies made by the conferees on the various subject matters, and was very impressed by the excitement of the participants on the various subjects discussed.

It is the recommendation of the Chair, that after the transcripts are studied, that another meeting be held in the latter part of November, 1968.

Senator Ralph R. Poston
Chairman, Joint Florida
Legislative Planning Committee

Public schools, institutions and agencies providing this instruction shall constitute the uniform system of public free schools prescribed by Article XII of the constitution and which shall include the following:

(1) **KINDERGARTEN.**—Kindergarten classes comprising children between the ages as provided by section 232.04, shall be established by the district boards, provided, sufficient children of these ages are available to make possible an organization of at least twenty such children at any school for all such children; provided further that such classes shall be implemented on a statewide basis in annual increments so that all such children shall be served by 1973.

(2) **ELEMENTARY SCHOOLS.**—Elementary schools shall comprise all classes and grades through the sixth grade or, upon decision by the district board when authorized by regulations of the state board of education, may include work through the eighth grade.

(3) **HIGH OR SECONDARY SCHOOLS.**—High or secondary schools shall include junior high schools with grades seven to nine, inclusive; senior high schools with grades ten to twelve, inclusive; or junior-senior high schools with grades seven to twelve, inclusive; or, upon decision by the district board when authorized by regulations of the state board of education, may be organized as four-year high schools comprising grades nine to twelve, inclusive.

Section 2. Section 228.14, Florida Statutes, is amended to read:

228.14 Other public schools; nursery schools, special schools and courses.—The public schools of Florida may, in addition to the kindergarten, elementary and high schools prescribed in section 228.13, Florida Statutes, include nursery schools and special schools, courses or classes as authorized below:

(1) **NURSERY SCHOOLS.**—Nursery schools shall comprise classes for children who have attained the ages prescribed by section 232.05, and may be established in the discretion of district boards where sufficient children of these ages are available to make possible an organization of at least twenty such children at any school center, provided, however, that none of the funds to support nursery schools shall be supplied by the state.

(2) **OTHER SCHOOLS, COURSES, AND CLASSES.**—There may be established at the discretion of district boards other schools, courses and classes pursuant to law or by regulation of the Florida public school advisory board for:

(f) Offering other types of instruction of a similar nature.

Section 3. Florida public school board.—The Florida public school board is hereby created and shall consist of fifteen (15) citizens who shall be appointed by the governor and confirmed by the senate. One shall be appointed from each congressional district, that may exist from time to time and the difference between the number of congressional districts and fifteen (15) shall be appointed from the state at large. They shall have been residents and citizens of the state for a period of at least three (3) years prior to their appointment. Their terms of office shall be four (4) years and until their successors are appointed and qualified, except in case of an appointment to fill a vacancy, in which case the appointment shall be for the unexpired term, and except as in this section otherwise provided. Subject to confirmation as provided above, the governor shall fill all vacancies that may at any time occur in the board's membership; provided, however, the initial membership shall be appointed as soon as practical after the act creating the board becomes effective and the terms of the initial members shall expire as follows: Four on July 1, 1969, four on July 1, 1970, four on July 1, 1971, and three on July 1, 1972.

In addition to utilizing the services of the state department of education, it shall employ such staff as may be necessary to the full performance of its duties subject to approval of the state board of education. The chief administrative officer of the board shall be the state superintendent of public instruction.

Section 5. Powers and duties of the Florida public school board.—It shall be the responsibility of the board to exercise such powers and to perform such duties as are required by law or as are delegated by the state board of education. In carrying out these responsibilities the board is authorized to study and make recommendations regarding all phases of public education. In conducting such studies and in making such recommendations the board may include, but is not limited to the following areas:

(1) A program for educational research and development, which initially shall be directed toward the measurement of educational achievement, and the cost analysis of specific educational programs;

(2) A comprehensive program of staff development;

(3) Methods and procedures of program budgeting, of educational management information systems, of management techniques necessary to secure maximum utilization and efficiency in data processing equipment operations and in auxiliary and operating services, of uniform financial accounting, and of exception accounting, and programs of securing contractual services from industry;

(4) A comprehensive standardized maintenance program;

(5) A statewide personnel data bank; programs of in-service training for school administrators in cooperation with business and industry; and procedures for informing the public of educational programs, needs and objectives;

(6) A program of systems construction for school buildings in which all school districts shall be authorized to participate;

(7) A study of the per student cost including such student weighing as may be necessary to provide for special types of services relating to exceptional child education, vocational-technical education and other programs as a method of school financing as contrasted to the per unit method presently used for funding public education in the state of Florida.

(8) Compensatory education, exceptional child education,

instruction in basic skills, extended services for pupils, educational testing, determination of length of school year and all other matters related to the public schools or junior colleges.

In conducting such studies the board is authorized, after the adoption of and pursuant to regulations and procedures prescribed by the State Board of Education to collect such data as may be necessary, hold hearings, and take such other actions as are deemed necessary to carry out its purposes. The various agencies of the state and the several counties shall, upon request of the board, render all possible aid and assistance and shall make available records, equipment and facilities reasonably requested by the board.

All actions of the Florida public school board are subject to review by the state board of education.

Section 6. Members of the Florida public school board shall receive no compensation for their services but shall be reimbursed for traveling expenses as provided in section 112-061, Florida Statutes.

Section 7. The Florida public school board shall present to the governor and to each member of the state board of education and to each member of the legislature at least sixty (60) days prior to the beginning of each regular session of the legislature, a complete report of its most recent findings concerning the educational needs of the state including its recommendations, proposed legislation, and such additional information as in the opinion of the board should be brought to the attention of the legislature.

If the electorate approves a constitutional amendment in November, 1968, removing the state board of education from the state constitution, the board may recommend to the 1969 legislature an appropriate structure for the supervision of public education in Florida.

Section 8. There is hereby appropriated from the general revenue fund of the state of Florida the sum of one hundred thousand dollars (\$100,000.00).

Section 9. It is declared to be the legislative intent that if any section, subsection, sentence, clause or provision of this act is held invalid, the remainder of the act shall not be affected.

Section 10. This act shall take effect July 1, 1968.

VETOED BILL 1967 REGULAR SESSION

The Honorable Verle A. Pope February 16, 1968
President of the Senate

Sir:

I am directed to inform the Senate that the House of Representatives has passed by the required Constitutional two-thirds vote of all Members of the House of Representatives present on February 16, 1968, the Governor's objections to the contrary notwithstanding—

By Representative Pratt and others—

HB 1106 (1967 Regular Session)—An act making an appropriation from the general revenue fund for the eradication of the fire ant; providing an effective date.

The Governor's objections attached thereto.

—and requests the concurrence of the Senate therein.

Respectfully,
ALLEN MORRIS
Clerk, House of Representatives

The Honorable Ralph D. Turlington August 2, 1967
Speaker, House of Representatives
The Capitol
Tallahassee, Florida

Dear Sir:

Pursuant to the authority vested in me as Governor of Florida under the provisions of Article III, Section 28, of the Constitution of this State, I hereby transmit to you, with my objections, House Bill 1106, enacted by the Legislature of 1967 and entitled:

"An act making an appropriation from the general revenue fund for the eradication of the fire ant; providing an effective date."

This bill appropriates \$924,000 from the General Revenue Fund to the Department of Agriculture for the eradication of the fire ant.

While I can certainly agree that it is highly desirable to rid our State of this pest, the condition of the State's General Revenue Fund at this time will not permit such a large additional appropriation.

The Legislature included in Senate Bill 900 and Senate Bill 1317, bills which have already become law, appropriations from the General Revenue Fund totaling \$12,533,833 as a lump sum to the Department of Agriculture for financing all of the Department's activities, including fire ant control. I feel sure that the Commissioner of Agriculture, in budgeting out this large lump sum appropriation, will find means to provide for this important program.

For these reasons, I am necessarily withholding my approval of House Bill 1106, 1967 Session of the Legislature, and to hereby veto the same.

Respectfully,
CLAUDE R. KIRK, JR.
Governor

The President put the question: "Shall the bill pass the Governor's objections to the contrary notwithstanding?"

HB 1106 (1967 Regular Session) passed by the required Constitutional two-thirds vote of all members present and was certified to the House. The vote was:
