

# Journal of the Senate

Number 1

Tuesday, April 3, 1984

**Beginning the Sixteenth Regular Session of the Legislature of Florida convened under the Florida Constitution of 1968, at the Capitol, in the City of Tallahassee, Florida, on Tuesday, the Third day of April, A.D., 1984, being the day fixed by the Constitution of the State of Florida for convening the Legislature.**

The Senate was called to order by Senator Curtis Peterson, President of the Senate, at 10:00 a.m. A quorum present—39:

Mr. President	Frank	Jennings	Neal
Barron	Gersten	Johnston	Plummer
Beard	Girardeau	Kirkpatrick	Rehm
Carlucci	Gordon	Langley	Scott
Castor	Grant	Malchon	Stuart
Childers, D.	Grizzle	Mann	Thomas
Childers, W. D.	Hair	Margolis	Thurman
Crawford	Henderson	McPherson	Vogt
Dunn	Hill	Meek	Weinstein
Fox	Jenne	Myers	

Excused: Senator Neal at 4:30 p.m.

Prayer by Dr. Robert Davis, President, Florida Southern College, Lakeland:

Almighty and eternal God and our Father, the source of all just and good laws, the source of all power and wisdom, whose statutes are good and whose wisdom is truth; we beseech thee to bless and guide this Senate of the State of Florida that it may determine for our government only such things as please thee.

May they be guided by a higher law, even your divine law. You have dealt favorably with your people, O God, and given us a pleasant and good land; a land of sunshine and orange groves, a land of white beaches and graceful palm trees, a land of lakes and seashores. Help us to be good stewards of all that you have entrusted to us.

And, O Divine Father, teach us the path of kind and equal justice. Cause envy and grievance to fade away that the accomplishments of this body may prosper and be great. And grant that all of its deliberations and actions shall be in keeping with a higher law, even your divine law.

For thine, O God, is the kingdom, and the power, and the glory forever and forever. Amen.

Senator Hill led the Senate in the pledge of allegiance to the flag of the United States of America.

## Special Performance

The President recognized the Suzuki Violin Players from Dommerick Elementary School, Maitland, Florida. The group, led by their director, Mrs. Doris Hotaling, performed for the Senate. Mrs. Hotaling is president-elect of the Florida Elementary Music Educators.

The President recognized Senators Philip Lewis and Randolph Hodges, former Presidents of the Senate, and Mrs. Hodges; former Senator Robert Elrod, and Mrs. Elrod.

On motion by Senator Barron that a committee be appointed to notify the House of Representatives that the Senate was convened and ready to proceed with the business of the session, the President appointed Senators Thomas, Fox, Henderson, Carlucci and Weinstein. The committee was excused.

On motion by Senator Barron that a committee be appointed to notify the Governor that the Senate was convened and ready to proceed with the business of the session, the President appointed Senators Barron, Johnston, Jennings, Gordon and Hill. The committee was excused.

A committee from the House of Representatives composed of Representatives Carpenter, Ogden and Richmond was received and informed the Senate that the House of Representatives was convened and ready to proceed to the business of the session. The committee then withdrew from the chamber.

## MESSAGES FROM THE HOUSE OF REPRESENTATIVES

*The Honorable Curtis Peterson, President*

I am directed to inform the Senate that the House of Representatives has adopted HCR 1-Org. and requests the concurrence of the Senate.

*Allen Morris, Clerk*

By Representative Thompson—

**HCR 1-Org.**—A concurrent resolution providing that the House of Representatives and Senate convene in joint session for the purpose of receiving a message from the Governor.

—was read the first time in full. On motion by Senator Scott, by two-thirds vote HCR 1-Org. was read the second time by title, unanimously adopted and certified to the House.

The committee appointed to notify the House of Representatives returned to the chamber and reported that its duty had been performed. The committee was thanked by the President for its service and discharged.

The committee appointed to notify the Governor returned to the chamber and reported that its duty had been performed. The committee was thanked by the President for its service and discharged.

## The President's Address

Fellow senators, friends and family, honored guests, I will not take too much time because we will soon be joining our colleagues down the hall to enjoy what the Governor has promised me will be an entertaining speech.

I have a few words to say about the upcoming session, but I'd like to begin by extending my most sincere congratulations and gratitude to you senators for the outstanding work of the 1983 session. Although it was lengthy and tedious at times, I am proud, as each of you should be, of our landmark accomplishments for Florida.

The Water Quality Assurance Act and the Raise Bill are just two examples of the major bills passed last year.

They represent the product of true legislative process. We listened to the people and heard their problems. We did not shirk our responsibility. Instead, we proceeded head on to attack the barriers.

The end product was the people's policy born out of representative government and ultimately will make the State of Florida a better place for each of us to work and live. Before I go any further, I want to commend many of our senators for the leadership they exhibited in their many areas of expertise and the strong support which the others showed despite conflicting feelings.

The Senate did not enjoy a very good image at the beginning of last session. But, I guess that of all the accomplishments made last year, I feel the return of statesmanship to the Florida Senate was the greatest. It took effort on the part of each of us. We worked together to do the job which needed to be done. Even though I am sure we will continue to maintain our unified front, I want once again to thank you.

I also want to acknowledge the Senate's bravery to vote for major revenue sources to fund our much needed educational and transportation improvements.

We should recognize the insight and forethought which were used to formulate our landmark legislation and acknowledge the focus of national attention we are receiving in Florida as a leader.

However, we cannot sit back comfortably, patting each other on the back for too long. There is much work to do in perfecting much legislation, and issues that are unresolved require serious attention.

Committees and staff have diligently been investigating issues during the interim for our consideration and review.

Our state's citizens are greatly concerned about unconscionable health care cost increases.

I don't know the answer. Do you?

I am not sure we have identified the problem. But, with declining Medicare and Medicaid benefits available to our older citizens and those with limited incomes, our constituencies are looking to us to put a stop to the constantly upward spiraling cost of their much needed health care.

Another area which will require our close attention will be the mandatory rewriting of our State Transportation Code. In March of 1983, we met in Special Session to provide dollars for our grossly under-funded transportation system. The 1984 code revision is timely. Adequate resources are available to the Department of Transportation to do the job, so we have this opportunity for accountability.

We will continue to work to protect our water resources. Future Floridians must be able to enjoy a clean and bountiful supply of this essential natural resource.

In securing this, we must be cautious, however, that we do not trample on the rights of the property owner. Property rights are still a most fundamental guarantee of this land. We must reach a careful balance between government regulation and individual rights to ensure that State Regulation does not make owning land either a hindrance or a form of punishment.

Last year, we maintained our strong position against crime and took progressive steps to reduce the overcrowding in our prisons. At the same time, we worked to ensure that the convicted continue to receive just and fair punishment.

But, we need to review the sentencing guidelines which recently were put into effect throughout our state judicial system. We must ensure that the guidelines are not excessively lenient in the early release of violent criminals. We want to work toward the goals of safety and justice for all of our citizens.

Education will remain a top priority as we fully implement the rigor of the Raise Bill and add the finishing touches to our Educational Improvement Plan. We have taken great strides to make education in Florida a meaningful experience for our young people and one which will prepare them for the technologically complex world in which they will compete as adults.

I have touched on only a few of the topics before us. For instance, we still must address the ever increasing incidence of child abuse and neglect in our detention centers.

With the lengthy agenda we have assembled, the first and last item must be a responsible budget. One, as always, that we can account to the people.

The continual lack of understanding of our fiscal responsibility and process remain in the people. The only way I know to help alleviate this is to educate the people by reporting to them in a more comprehensive way. The mechanics of the score card are not complete, but I ask each of you and the press to make an extra effort to inform our constituents fairly and *comprehensively* about our progress.

Just the other day, the Speaker and I were interviewed by a commentator. He asked whether we will agree on any issue this session. I responded quickly by stating that full, fair, and vigorous debate produces a responsible solution. That is the legislative process.

No one person has the simple answer. Instead, we work together to reach a fair compromise, and this system always works.

The President announced that upon dissolution of the joint session, the Senate would recess to reconvene at 3:00 p.m.

### JOINT SESSION

Pursuant to HCR 1-Org., the Senate formed in processional order and marched in a body to the chamber of the House of Representatives where they were received in due form. The joint session was called to order by the Honorable H. Lee Moffitt, Speaker of the House of Representatives.

The Lieutenant Governor, members of the Florida Cabinet and Justices of the Florida Supreme Court were received and seated.

The Speaker invited the President of the Senate, Curtis Peterson, and the President Pro Tempore of the Senate, Jack Gordon, to the rostrum and requested the President to preside over the joint session.

### The President in the Chair

The President declared a quorum of the joint session present.

Dr. Robert Davis, President, Florida Southern College, Lakeland, delivered the prayer.

The President led the pledge of allegiance to the flag of the United States of America.

On motion by Representative Thompson that a committee be appointed to notify the Governor that the joint session was assembled to receive his message, the President appointed Senators Barron, Johnston and Jennings; and on behalf of the Speaker, appointed Representatives Mills, Gustafson and Patchett. The committee withdrew from the chamber.

The committee appointed to wait upon the Governor subsequently returned to the chamber escorting His Excellency, the Honorable Bob Graham, Governor of Florida, who was escorted to the rostrum.

The President introduced the First Lady, Adele Graham and daughters Suzanne and Kendall; Margie Mixson, wife of the Lt. Governor; and other special guests.

The President presented the Governor to the joint assembly.

### The Governor's Address

Members of the Florida Legislature, fellow citizens:

A year ago when we met in joint session of the Florida Legislature, we recognized that this particular Legislature had the potential for distinction.

Today we gather with a sense of fulfillment. You have, by your vote, achieved the distinction demanded of you by the people you represent.

Working together with men and women of the caliber of President Curtis Peterson, Speaker Lee Moffitt, Representatives James Harold Thompson and Herb Morgan, and Senator Betty Castor, we forged into law the nation's most far reaching educational reforms.

Now we are entering the fourth year of a five-year plan to reach the top 12 states in America in educational quality. When you enact the budget for this year, we will be just one year away from achieving that goal on schedule in 1986 for teacher salaries across the board, and for faculty salaries in our colleges and universities.

The most important single professional in public education is the classroom teacher. We are moving to improve the status, the professional standards—and the salary—of this most important person.

Today, because of the actions of this Legislature, a Florida high school diploma stands for something—it stands for quality.

By the time the class of 1987 graduates, the demanding standards of excellence we are requiring will comprise the most rigorous high school curriculum in America.

The word is out—the Education Commission of the States has surveyed all 50 states and reported that Florida's standards are the highest.

Florida is expanding the high school day to accommodate these tough new requirements, at the urging of President Curtis Peterson.

Today, a third of Florida's high school students are receiving the benefit of the expanded school day. By next year, almost three-fourths of our students will feel the effect of this higher standard.

And Florida is implementing its state Master Teacher program, and local district merit pay plans, to recognize the excellence of our very best teachers, as recommended by Speaker Lee Moffitt.

As of today, the Department of Education reports that 13,875 Florida teachers have applications on file in Tallahassee for the professional recognition of Associate Master Teacher—and the \$3,000 annual check that goes with it.

To some, change is threatening, and Florida is changing rapidly. But we must accept the challenge of change and rise to new incentives. You have accepted that challenge.

Since you voted to end the neglect of our roads and bridges last year, the Department of Transportation has repaired more than 1,000 miles of existing roads—in time to prevent the need to rebuild.

The fight not only to provide resources, but to continue to monitor performance to get the job done, has been led by Senator Malcolm Beard and Representative Tom Gustafson.

The job *is* getting done in Florida today.

In downtown Miami, the Miami Avenue Bridge had been stuck in the upward position for years—a monument to futility. Today, the Miami Avenue bridge is being replaced to improve urban traffic flow.

In Okaloosa and Walton Counties, U.S. 98 is being moved away from the beach and widened, to make the highway safer and protect a portion of magnificent beachfront.

From Palm Beach County to Fort Myers, the multi-laning of sections of State Road 80 is under way on an accelerated basis.

And in Tampa Bay, a magnificent new landmark is rising. The new Skyway Bridge will be an architectural statement of the energy and purpose of our state.

By the spring of 1986, not only will the Skyway be complete, Interstate 75 will connect dozens of communities from the Georgia line, all the way to Naples.

The dimensions of this Legislature's accomplishments are historic. You have recognized Florida's new priorities, and you have enacted new laws—particularly in the area of water quality.

You have allocated the resources to protect our drinking water, to find sources of pollution and eliminate them, and to test our wells for purity.

You have continued in the tradition of recent Legislatures by providing growing resources for criminal justice. With the support and cooperation of Attorney General Jim Smith and others, you have helped to supply the leadership to make the system work.

By your vote, you have put more police officers on the street, more prosecutors and defenders in the courts, more judges on the bench—and more criminals behind bars.

The Florida Department of Law Enforcement reports that the crime rate fell by 8.8 percent in 1983 throughout Florida. But that's not the whole story.

In Hillsborough County, the crime rate has declined by more than 10 percent.

In Broward County and Orange County, the crime rate is down by nearly 14 percent.

And in Charlotte County, one of Florida's fastest growing communities, the crime rate is down today by 34.4 percent, compared with a year ago.

Statewide, crime is down in Florida today by nearly 20 percent since 1980, when Cuban Communist dictator Fidel Castro bombarded us with thousands of criminal refugees, and when billions in drug dollars threatened to overwhelm our criminal justice system.

Today, not only is the rate of crime down 20 percent, the absolute number of crimes is down—despite rapid population growth.

Today, although law enforcement has stepped up its efforts, drug-related arrests are down 15 percent, and drug seizures by state and local lawmen are down 52 percent—down, because smugglers are learning that Florida is no place to traffic in drugs.

These are accomplishments you can be proud of.

This is a year for building on our accomplishments, for consolidating our gains, and for looking once again to the future.

On March 3, 1995, Florida will celebrate its 150th birthday as a state.

What goals for that celebration would you set for your communities back home?

What goals will we set together for our state?

And what actions will we take *today* to see that we achieve our goals?

Just as President Kennedy lifted our vision to the heavens with a goal of landing an American on the moon within the decade of the 1960's, let us set goals for our 150th birthday celebration worthy of our statehood.

Here are six goals for Florida's birthday—goals which place demands on all of us this year, in concrete terms.

*By the end of our first century and a half*, Florida's system of public education will have enjoyed a decade of distinction.

By that year, Florida will have created the intellectual and economic environment to attract and keep the best teachers in America for the best schools in America.

By 1995, the educational experience of every child in Florida can be second to none.

By 1995, 95 percent of all our students will be performing at their grade level, and those who stumble will be helped to achieve their full potential.

To meet this goal, this session we must continue to support our reforms with resources. Excellence is not a bill we can pass and sign into law in a single session. Excellence requires years of continuous concerted effort.

We need to raise the salaries of all our teachers—by an average of \$2,820 a year in this year's budget. We need computers for our classrooms, science laboratories, and more guidance counselors for our children.

Within the past two days, our state's largest newspaper published a survey showing that two of every three Floridians think the public schools are getting better—and two of every three Floridians want them to keep on getting better.

And two of every three say they are willing to pay higher taxes if it means better schools.

These citizens are showing that they approve enthusiastically the work of such Legislators as Representatives Betty Easley, Bob Johnson and Steve Pajcic.

In demonstrating their confidence in our work, and by volunteering to work in hundreds of our schools, Floridians are showing they take education seriously.

By 1995, Florida can have a world-class department in each of the major disciplines in higher education, located either at a public or independent college or university in Florida.

Ours can be a future of widely distributed excellence.

*By the end of our first century and a half*, the average Floridian's income will surpass the national average by a minimum of five percent.

No Southern state in a century has achieved for its people an average income equal to the nation as a whole.

Florida is on the verge of achieving that standard.

Under the leadership of Lieutenant Governor Wayne Mixson, the Florida Department of Commerce is helping to prepare Florida for that breakthrough.

Ours can be a future of widely distributed prosperity.

That success will be enhanced by a strong banking system with a Florida personality. To accomplish that goal, in this session we must enact and sign into law a regional interstate banking bill.

Florida's banks will grow and survive the transition to full, national interstate banking. Florida will benefit from the stimulus of competition from other Southern states.

*By the end of our first century and a half*, Florida will crown a decade in which the cost of health care rose no faster than inflation in general.

This session of the Legislature is fortunate to have the benefit of the work of former Senator Bob McKnight and all those who served with him on the Florida Task Force on Competition and Consumer Choices in Health Care.

The many legislators who have worked during the interim—Representatives Sam Bell and Fred Lippman, Senators Harry Johnston, Jack Gordon, Don Childers, Ken Jenne and others—have contributed effectively to the quality of the legislation emerging as a major element of the session we begin today.

In this session, we must stimulate free market competition in the health care segment of our economy.

Second, we must provide for a fair and equitable distribution of the care required by those who can't afford to pay. A free marketplace, where consumers make the decisions, requires that all segments of the hospital industry share their proper burden of caring for the indigent.

Third, we must create a safety net to keep from tumbling back into an unacceptable situation, with health care costs rising beyond the reach of the average Floridian.

I commend Commissioner Bill Gunter for his commitment to work together with you to develop this vital legislation.

By 1995, Florida will also meet the goal of providing community care for the elderly for every senior Floridian who requires it.

We will expand this program this year, to provide varying levels of care for 10,000 additional senior Floridians in need. Florida has the largest population of people over the age of 65 of all the states. We are proud of our active, participating senior Floridians, and we need to help them remain as healthy and free as possible.

Community Care for the Elderly is a major reason why Florida has the second lowest-cost Medicaid program of any of the 10 largest states.

But Community Care does more—it keeps our older citizens active, functioning in freedom and dignity rather than condemning them prematurely to a nursing home bed.

*By the end of our first century and a half*, Florida will preserve the quality of life we enjoy today and share it with the 3 million more people who are projected to live in Florida by 1995.

Make no mistake—Florida's matchless environment is the reason for Florida's growth. People want to come here to live because they want to live the way we Floridians do.

We are happy to share our quality of life—but our quality of life is not for sale.

The issue of the wetlands is a key to our future. We have progressed in Florida beyond the instinct to immediately drain every swamp. Because of the leadership shown by this Legislature, Floridians are now virtually unanimous in recognizing the importance of wetlands for clean water.

Now it is time to additionally recognize the significance of wetlands in the web of life. Wetlands not only protect water quality and water quantity. Wetlands also provide habitat for the fish and wildlife which add greatly to the quality of life in Florida.

This critical legislation will bear the mark of the Legislators who guide its development—Representative Jon Mills and Senator Pat Neal.

Florida can preserve its wetlands, including the mighty Everglades system, by establishing the jurisdiction of the Department of Environmental Regulation to protect them. Florida can meet the goal of preparing for 3 million additional Floridians—without sacrificing our unique and fragile environment.

The work of the Second Environmental Land Management Study Committee, Senator Dunn and Representatives Liberti and Moffitt, have helped to bring us to a new recognition of planning for a sound future environment.

Protecting our environment is like building a home.

Previous Legislatures enacted the Conservation and Recreational Lands Program, the Land and Water Management Act, the Water Resource Act. You have passed the Water Quality Assurance Act.

These are the building blocks and materials for a sturdy home. Today, we have the lumber, we have the nails, we have the wiring and the pipes.

What we lack are the architectural plans to make the house a useful, functional home. In this session, our task will be to draw those plans, and connect the parts in a coherent and logical way.

The fastest growing urban state in America requires a strategic vision of its future, from local neighborhoods to the state capitol.

This vision must respect and encourage local values and initiatives. We must commit ourselves to consistency and predictability of planning from state to regional to local levels of government.

And in this session, we must provide resources for the planning process—to document today's trends and present conditions, and support state and local efforts to draw our planning blueprint.

*By the end of our first century and a half*, Florida will have a high-speed train connecting Tampa Bay, Orlando and Miami.

This world-class train will both move tourists and residents rapidly, and it will help keep Florida the number one tourist destination in the world.

In this session, this Legislature will be asked to take steps to prepare for that high-speed rail link, much as the 1967 Legislature was asked to lay the groundwork for what has become the world's greatest tourist attraction—Walt Disney World and EPCOT.

In this high-speed rail project, yet another historic partnership between government and the private sector will be forged.

*By the end of our first century and a half*, Florida will enjoy the rewards of our strategic war on crime.

Ours is a dual strategy. We will continue strong support for our criminal justice system. It is this system which has brought about the crime rate reduction we celebrate today.

And, by attacking the root causes of crime—poverty, ignorance, child abuse, alcohol and drug abuse, Florida will accelerate this decline and continue to send the crime rate down.

We can send the crime rate down so that by the year 1995, our priority can be building schools and not jails and our satisfaction can be a state on a rising curve of intellectual energy, international commerce and environmental preservation.

In this session, a \$75 million increase for the criminal justice system is a priority—including money for 33 new judges.

And for preventing crime, we must allocate more than \$7 million for expanded programs of treatment and education.

Groups such as Mothers Against Drunk Drivers and others have penetrated America's conscience concerning drinking and driving. Human lives are at risk every time an impaired driver takes the wheel.

To send a strong message that drunk driving is a serious crime, Florida treats drunk driving seriously. And we will get even tougher this year.

By raising the fees for reinstating the license of a drunk driver, Florida will provide the funds for more troopers, for Batmobiles to obtain conclusive evidence for the courtroom, and to pay overtime for troopers.

We will keep the Florida Highway Patrol on the highways full-time, and not lose valuable patrol time while officers testify in court.

A funny thing happened on the way to this part of the speech.

The Florida Supreme Court knocked Amendment One off the ballot and ruined my stirring ending.

I was prepared to quote Tom Paine on the founding of our government, Abraham Lincoln on preserving it, and Franklin Delano Roosevelt on restoring it.

Now the only quotes I've got left are from Justice Ben Overton on how to conduct a petition drive.

I was prepared to declare war on Amendment One. I had hoped that Floridians could, in the course of this campaign, examine ourselves, our goals and our statehood and determine together where we want to go together.

I am confident that the more Floridians learned about Amendment One, the more they opposed it.

This is not a year for us to rush to put back onto the ballot this misguided amendment. We do not need a tax-cutting amendment on the ballot this year.

We must not stampede blindly into a retreat from our goals and our accomplishments.

I have proposed a budget with no new taxes. It is a balanced budget, as our constitution requires.

According to the Tax Foundation's most recent report, we stand 49th among the 50 states in taxation per \$1,000 of personal income.

If the federal government had done as well as Florida since 1968—the last time the federal budget was balanced—President Ronald Reagan and the Congress would not be worried about an uncontrolled deficit and all the economic distortions that entails.

No, if Washington had been as frugal as Tallahassee, the federal government today would not have generated a cumulative deficit of more than \$880 billion, but a cumulative *surplus* of \$388 billion.

Florida is a low tax state—a state with bargain basement tax rates and top-quality services. Name me another state that is entering the top 12 states in education and remaining in the low 40s in taxes. Name me one state.

There *are* some fiscal actions we should take this year.

First, we must raise the working capital fund to prepare for a rainy day.

Second, we must continue our long-term strategic investment plan in education. The economic dividends we enjoy today from our diversified economy rest squarely on the promise of better schools.

And third, we should initiate a comprehensive review of Florida's tax system, investigating its fairness, its response to cycles in the economy, and its future appropriateness for 1995 and beyond.

We will be working together in the months ahead to complete such a comprehensive review. We can take as our model the work of the new Capital Facilities Commission, which is completing its report on the needs for new courthouses, schools and other capital facilities.

We have a representative system of government. We elect people to attend to public business on our behalf. We believe in majority rule, while respecting the rights of the minority.

But we do not believe that a tyranny of the minority should be allowed to frustrate the general collective will.

As we chart our future, let us keep in mind one simple fact:

Government is not the enemy. Government is an ally, a mechanism we Americans have established to accomplish goals we can't meet as individuals.

On December 13, 1980, I was working with the Jacksonville Fire Department ambulance team when a woman, 81 years old, suffered a heart attack. Our ambulance rushed her to the hospital. Without government, there would have been no ambulance, no road.

A retired dentist from Pinellas County was 91 when I met her on December 3, 1981.

She needs help around the house to remain active. Working for Neighborly Senior Services in Pinellas, I helped clean her house and cook a meal that day. Because of Community Care, she remains at home today. She understands that without government, there would be no Community Care for the Elderly.

The Junior Class at Jefferson County High School in Monticello understands the need for first-class educational standards—standards set by this Legislature.

These students attend a high school whose performance in the past five years has risen from a relatively low percentage of students passing our standardized tests, to a ranking near the top.

Today, 98 percent of the Junior Class in Monticello has passed the test required for graduation—98 percent.

When I visited Jefferson County High School this winter, the juniors chanted in unison during an academic pep rally their slogan:

"You know you can depend on us to get the job done, because when it comes to education, we're number one.

"Say your number—ONE!

"Say it loud—ONE!

"We are proud—ONE!

"You got it, NUMBER ONE!"

These students of the junior class are right—they *are* number one—their future is the highest priority for Florida.

The future Florida I envision by the year 1995 is a state in robust economic health, able to finance the public projects and programs its citizens want, continuing to manage its assets frugally and conservatively.

We can make Florida's 150th birthday celebration a time of international recognition of the accomplishments of a state dedicated to excellence.

Our children have a right to a quality education. Our elderly citizens have a right to a decent life. All of us have the right to be secure in our homes and know that police and fire protection, and emergency medical services are there.

These human needs, these desires of the people who elected us, are worth fighting for. The value of our public service to future generations will be measured by the quality of our performance here and now.

Thank you.

Following the Governor's address, the committee previously appointed escorted the Governor from the rostrum and from the House chamber, followed by the Lieutenant Governor, members of the Cabinet and Justices of the Supreme Court.

On motion by Senator Barron, the joint session was dissolved at 11:49 a.m. and the senators were escorted from the House chamber by the Senate Sergeant at Arms.

#### MESSAGES FROM THE GOVERNOR AND OTHER EXECUTIVE COMMUNICATIONS

The following Executive Orders were filed with the Secretary:

##### EXECUTIVE ORDER NUMBER 83-129

(Executive Order of Suspension)

WHEREAS, ERNEST PAGE is presently serving as a City Commissioner of the City of Orlando, Orange County, Florida, and

WHEREAS, on August 18, 1983, State Attorney Robert Eagan filed an information in the Circuit Court for the Ninth Judicial Circuit, charging ERNEST PAGE with criminal violations of the Laws of Florida, and

WHEREAS, based upon the matters charged in said information, it appears that it is in the best interest of the citizens of the State of Florida that ERNEST PAGE be suspended from the public office which he now holds;

NOW, THEREFORE, I, BOB GRAHAM, as Governor, pursuant to the Constitution and Laws of the State of Florida, do hereby find, determine, and for the purpose of Section 112.41, Florida Statutes, allege as follows:

A. ERNEST PAGE is, and at all times material hereto was, a City Commissioner, City of Orlando, Florida.

B. The office of the City Commissioner is within the purview of the suspension powers of the Governor pursuant to Section 112.52, Florida Statutes.

C. The attached information alleges that ERNEST PAGE did commit acts and violations of Florida law and these allegations are hereby incorporated by reference as if fully set forth in this Executive Order, thereby constituting grounds for suspension under Section 112.52, Florida Statutes.

D. The facts alleged herein constitute the offense of commission of a felony as such offense is used in Section 112.52, Florida Statutes.

E. The interests of the residents of the City of Orlando, Florida, and the citizens of the State of Florida can best be served by the immediate suspension of ERNEST PAGE from the public office which he now holds.

Based upon the foregoing findings, and in accordance with the Constitution and Laws of the State of Florida, the following Executive Order is hereby promulgated, effective immediately:

1. ERNEST PAGE is hereby suspended as and from the public office which he now holds, to wit: City Commissioner, City of Orlando, Orange County, Florida.

2. ERNEST PAGE is hereby prohibited from performing any official act, duty or function of public office, from receiving any pay or allowances, and from being entitled to any of the emoluments or privileges of public office during the period of the suspension, which period shall be from the effective date hereof, until further Executive Order, or as otherwise provided by law.

IN TESTIMONY WHEREOF, I have hereunto set my hand and caused the Great Seal of the State of Florida to be affixed at Tallahassee, the Capitol, this 26th day of August, 1983.

#### EXECUTIVE ORDER NUMBER 83-202

(Amended Executive Order of Suspension)

WHEREAS, ERNEST PAGE has previously been suspended from the public office which he then held, to wit: City Commissioner of the City of Orlando, Orange County, Florida, by Executive Order 83-129, effective August 26, 1983, and

WHEREAS, on November 30, 1983, the Honorable Robert Eagan, State Attorney for the Ninth Judicial Circuit, did nolle prosequi the information filed on August 18, 1983, charging ERNEST PAGE with four counts of grand theft, one count of dealing in stolen property, and one count of petit theft, and

WHEREAS, on December 5, 1983, the Honorable Robert Eagan, State Attorney for the Ninth Judicial Circuit, did file an information in the Circuit Court for the Ninth Judicial Circuit, charging ERNEST PAGE with seven counts of grand theft and one count of dealing in stolen property, and

WHEREAS, based upon the matters charged in said information, it is in the best interest of the citizens of the State of Florida and the ends of justice can best be served by the continued suspension of ERNEST PAGE from the public office which he previously held, upon the statutory ground herein set forth;

NOW, THEREFORE, I, BOB GRAHAM, as Governor of Florida, do hereby find, determine, and for the purpose of Section 112.41, Florida Statutes, allege as follows:

A. ERNEST PAGE was at all times material hereto a duly elected City Commissioner of the City of Orlando, Orange County, Florida.

B. The office of the City Commissioner is within the purview of the suspension powers of the Governor, pursuant to Section 112.52, Florida Statutes.

C. The attached information alleges that ERNEST PAGE did commit acts in violation of Florida law, and these allegations are hereby incorporated by reference as if fully set forth in this Executive Order.

D. The facts alleged herein constitute the offense of commission of a felony as such offense is used in Section 112.52, Florida Statutes.

E. The interests of the residents of the City of Orlando and the citizens of the State of Florida can best be served by the continued suspension of ERNEST PAGE from the public office of City Commissioner of the City of Orlando, Orange County, Florida.

BEING FULLY ADVISED in the premises, and in accordance with the laws of the State of Florida, this Executive Order is hereby promulgated, effective immediately:

Section 1.

The suspension of ERNEST PAGE from the public office, to wit: City Commissioner of City of Orlando, Orange County, Florida, is continued in full force and effect without interruption.

Section 2.

The grounds for suspension from office recited in Executive Order 83-129, paragraph C., are amended by substituting paragraph C. of this Order.

Section 3.

ERNEST PAGE is hereby continually prohibited from performing any official act, duty or function of public office, from receiving any pay or allowances and from being entitled to any of the emoluments or privileges of public office during the period of this suspension, which shall remain in effect from the effective date of Executive Order 83-129, until further executive order, or as otherwise provided by law.

IN TESTIMONY WHEREOF, I have hereunto set my hand and caused the Great Seal of the State of Florida to be affixed at Tallahassee, the Capitol, this 23rd day of December, 1983.

WHEREAS, Ed Austin, State Attorney for the Fourth Judicial Circuit of Florida, assigned by Executive Order 83-148 to investigate, prosecute and represent the State of Florida in all matters pertaining to and arising from the said indictment against PERRY LAMAR JENKINS has advised the Governor of the following incidents of misconduct in office:

1. On or about April 4, 1978, March 15, 1978, and June 12, 1981, PERRY LAMAR JENKINS, relying upon information which was of a confidential nature and which had not been made public, that is, information relating to the ownership and location of real property in Suwannee County, Florida, not subject to ad valorem taxation, used the said confidential information in aiding others in the acquisition of the said real property. That real property consisted of the following: (1) Approximately 3.85 acres owned by Dorothy F. Cooper which was acquired by DeVane Mason, an acquaintance of PERRY LAMAR JENKINS. (2) Approximately 10.12 acres used and/or owned by Albert Hatch and Grace Hatch or owned by Sara Lou Tillman and Katherine Atkins and/or George F. Blake and Joan Blake or other unknown person but in any event persons other than PERRY LAMAR JENKINS. That real property was obtained by one Pam Reynolds, an acquaintance of PERRY LAMAR JENKINS. (3) Approximately 14.23 acres of real property in Suwannee County owned by unknown individuals but other than PERRY LAMAR JENKINS. This property was also acquired by Pam Reynolds, an acquaintance of PERRY LAMAR JENKINS.

2. On or about April 4, 1978, PERRY LAMAR JENKINS having obtained the confidential information referred to in paragraph 1, did obtain approximately 10.12 acres of real property in Suwannee County, Florida, then being used and/or owned by Albert Hatch and Grace Hatch or Sara Lou Tillman and Katherine Atkins and/or George F. Blake and Joan Blake by means of fraud, false pretenses or deceptions made to Sara Lou Tillman. That fraud, deception or false pretenses induced the said Sara Lou Tillman to convey the said real property to one Pam Reynolds, an acquaintance of PERRY LAMAR JENKINS. Sara Lou Tillman did not know or intend to convey any interest in the said real property to Pam Reynolds or PERRY LAMAR JENKINS. Albert and Grace Hatch and George and Joan Blake had no knowledge of the transaction between Sara Lou Tillman and PERRY LAMAR JENKINS.

No. 64,742

IN RE: CERTIFICATE OF JUDICIAL  
MANPOWER FOR DISTRICT COURTS OF  
APPEAL, CIRCUIT COURTS AND COUNTY  
COURTS, AS REQUIRED BY ARTICLE V,  
SECTION 9, FLORIDA CONSTITUTION.

[January 26, 1984]

PER CURIAM.

Pursuant to article V, section 9 of the Florida Constitution, and in accordance with the criteria, additional factors, and procedures set forth in Florida Rule of Judicial Administration 2.035, we hereby certify the need for thirty-three additional judgeships during fiscal year 1984-85, as follows:

	District Court	Circuit Court	County Court
Second Appellate District	2		
Third Appellate District	1		
Fourth Appellate District	2		
Fifth Appellate District	1		
Second Judicial Circuit		1	
Fourth Judicial Circuit		1	
Fifth Judicial Circuit		1	
Sixth Judicial Circuit		1	2 (Pinellas, Pasco)
Eighth Judicial Circuit		1	
Ninth Judicial Circuit		1	1 (Orange)
Tenth Judicial Circuit		1	
Eleventh Judicial Circuit		3	2 (Dade)
Twelfth Judicial Circuit		1	1 (Sarasota)
Thirteenth Judicial Circuit		1	1 (Hillsborough)
Fifteenth Judicial Circuit		1	2 (Palm Beach)
Seventeenth Judicial Circuit			2 (Broward)
Eighteenth Judicial Circuit			1 (Seminole)
Nineteenth Judicial Circuit		1	1 (Indian River)
Twentieth Judicial Circuit		1	
<b>TOTALS</b>	<b>6</b>	<b>14</b>	<b>13</b>

On February 17, 1983 we certified the need for a total of twenty-seven new judgeships during the 1983-85 biennium. The Legislature, however, did not fund any additional judgeships during the 1983 legislative session. We have now received a total of thirty-nine requests for new judgeships from the various Chief Judges, representing a renewed request of the twenty-seven previously certified, but unfunded, judgeships and additional requests for twelve judgeships.

*FINDINGS*  
*DISTRICT COURTS OF APPEAL*

In 1979 the Appellate Structure Commission recommended a standard of no more than 250 primary assignment cases for each appellate judge. In reality, each judge's case load would be three times the number of primary assigned cases because district courts sit in panels of three and each judge has two secondary case assignments for each primary assignment. All of the district courts presently exceed this standard. In order to ensure the integrity of the appellate process, this excessive case load should be reduced, as soon as practical, to the standard recommended by the Appellate Structure Commission. Case load comparisons for the intermediate appellate courts of the ten most populous states indicate that Florida's district courts of appeal in 1982 had the second highest total filings, the third highest ratio of filings per judge, and the greatest number of published opinions.

*First Appellate District.* The First District, which currently has twelve judges, has not requested any additional judges this year. To achieve the 250 primary case assignment standard in 1984, the First District would need additional judges. It would not have been unreasonable for the First District to request that we certify its need for these additional judges. The First District, however, has expressed administrative concerns about expanding beyond its current membership. Additionally, between 1981 and 1983 there has been a decrease in the number of filings in the First District. It is for these reasons that we have not been requested to certify the need for the additional judges which would be required for the First District to achieve the 250 primary case assignment standard in 1984.

*Second Appellate District.* The Second District currently has ten judges, and the need for two additional judges in 1984 is certified. This certification confirms our previous finding for the biennium which was made in 1983.

Although filings in 1983 have been reduced due to vacancies existing on the circuit bench within the jurisdiction of the Second District, projections for 1984 indicate the Second District will have the third highest total case load and will continue to have the highest total population of all the five appellate districts. In order to move towards achieving the 250 case assignment standard in 1984, two additional judges are certified.

*Third Appellate District.* The Third District currently has nine judges, and the need for one additional judge is certified.

The Third District has the highest ratio of filings and dispositions per judge, and there has been more than a 15 percent increase in total filings between 1982 and 1983. In order to achieve the 250 primary case assignment standard in 1984, a total of almost four additional judges would be required, rather than just the one requested and presently certified. The Third District has not requested the additional judges because of space limitations. When additional space is provided, the already existing needs of the Third District will justify the certification of additional judges in order to reduce its filings per judge, presently the highest in the state, to a more acceptable standard.

*Fourth Appellate District.* The Fourth District has nine judges, and the need for two additional judges is certified. This certification confirms our previous certification of one additional judge over the biennium and adds a second judgeship based upon current and projected case loads.

The Fourth District continues to have the largest number of pending cases. Filings have exceeded dispositions in 1982 and 1983. The area within the jurisdiction of the Fourth District represents a very rapidly growing part of the state and receives a large number of tourists each year. In order to fully achieve the 250 primary case assignment standard in 1984, three additional judges would be required in the Fourth District. At this time, however, we certify only the two additional judges requested.

*Fifth Appellate District.* The Fifth District has had six judges since its creation in 1979, and the need for one additional judge is certified. This is a recertification of the need which existed last year and continues to exist.

The Fifth District continues to have the highest ratio of population per judge of any district and a high attorney per judge ratio. Filings have increased every year since the Fifth District's creation and are projected to continue to increase. In order to fully achieve the 250 primary case assignment standard in 1984, two additional judgeships would be required, but we certify only the one requested at this time.

## CIRCUIT AND COUNTY COURTS

Case filing statistics are only one of the factors we consider in determining the need for additional judges. At the trial court level, case filing statistics are not as significant in relation to other criteria and factors as they are at the appellate level. At the trial level, geographic size, the presence of nonlawyer county judges, the location of state institutions, the availability of retired judges and masters, and locally funded information systems vary widely and can affect the need for additional judges. Thus, while a standard of not more than 250 primary case assignments has been developed for the district courts, no similar standard can be applied at the trial court level. A case load standard at the trial level which ignores variations among the circuits would not be a correct measure of need for additional judges.

Case load information available at the state level for the trial courts is derived through the Summary Reporting System (SRS), which was implemented in 1978. SRS requires the commitment of virtually no state resources. The clerks of the circuit courts provide monthly tabulations of summary case filing and disposition statistics to the State Courts Administrator's Office. Review of twenty-six counties in 1983 by that office demonstrates substantial compliance by the clerks with guidelines adopted for the collection and submission of this information. More specific case management information, collected in a uniform manner, may be useful at the state level, but this may also require the commitment of additional resources for the development and implementation of such a system. We are, therefore, requesting that the circuit court chief judges, as well as interested organizations and associations, work with the State Courts Administrator's Office in developing recommendations for improvements in judicial work load information available at the state level which will more accurately and completely measure judicial work load on a uniform statewide basis within the practical constraints of the resources available. These recommendations should be presented to this Court by October 1, 1984.

The primary considerations prompting our certification of need for the respective judicial circuits are as follows:

*Second Judicial Circuit* (Franklin, Gadsden, Jefferson, Leon, Liberty, and Wakulla Counties). There are currently eight circuit and eight county court judges in the Second Circuit. The need for one additional circuit judgeship was certified last year. We recertify that need.

This is one of only two circuits which has not received an additional judgeship since article V was adopted in 1972. As noted last year, the circuit has a high number of complex and constitutional cases involving state agencies because the state capital is located in this circuit. The circuit continues to have the highest ratio of attorneys per judge, is very large geographically, and has two nonlawyer county judges who cannot assist with circuit court duties. There is a high ratio of jury trials per judge in the circuit. There has been a significant increase in the circuit's criminal case load in its larger counties, significant delays are now present in civil dockets, and retired judges are generally not available to assist with this circuit's case load.

*Fourth Judicial Circuit* (Clay, Duval, and Nassau Counties). There are currently twenty-four circuit and fourteen county court judges in the Fourth Circuit. The need for one additional circuit judgeship was certified last year. We recertify that need.

The Fourth Circuit has not received a new judgeship since 1980 and has received only three additional circuit judgeships since the adoption of article V in 1972. Four county court judges are nonlawyers and, therefore, cannot assist with circuit work load. There is a very high ratio of filings per judge in the criminal division, and the circuit is projected to have the fourth highest number of jury trials with over a 30 percent increase occurring between 1982 and 1983. The circuit also has a high attorney per judge ratio.

*Fifth Judicial Circuit* (Citrus, Hernando, Lake, Marion, and Sumter Counties). The Fifth Circuit currently has ten circuit and seven county court judges. The need for one additional circuit judgeship was certified last year. We recertify that need.

The Fifth Circuit is projected to rank first in the ratio of dispositions and population per judge and second in the ratio of filings per judge. It is also projected to rank fourth in the combined factors, including attorneys and trials per judge. Four of its seven county court judges cannot assist on the circuit bench, and no retired judges reside in the Fifth Circuit. Additionally, the circuit covers a geographic area of 4,160 square miles

and has five state correctional institutions located within its jurisdiction. It is projected to experience a very large growth in population through 1985.

*Sixth Judicial Circuit* (Pasco and Pinellas Counties). The Sixth Circuit currently has twenty-eight circuit and thirteen county court judges, two of whom are in Pasco County. The need for one additional county court judge for Pasco County was certified last year and we recertify that need. In addition, we certify the need for one circuit judge and one county court judge for Pinellas County.

While case load statistics alone would not indicate the need for an additional judge in Pasco County, as we stated last year, the Court is aware of significant geographic factors which must be considered in Pasco County. One of the two county court judges currently resides in the eastern part of the county and sits in the county courthouse in Dade City. The other county court judge resides in the western portion and sits at the branch courthouse in New Port Richey. There is a substantially heavier case load in the western portion. Because of the geography of the county and the distance between the courthouse and the branch courthouse, the judge in Dade City cannot effectively assist the judge in New Port Richey who is in critical need of assistance. Because the greater future development is expected to occur in west Pasco, the already serious condition will be aggravated. Not only has the local bar been outspoken as to the critical need for an additional county court judge to assist in west Pasco, but also local law enforcement has expressed a concern about increases in serious traffic and county court cases which will further increase delay in case processing and result in a backlog of pending cases. Pasco County is projected to rank first in population per judge, and is also projected to rank eleventh in the state on the combined factors of filings, dispositions, trials, attorneys and population per judge. Pasco County is projected to have the fourth highest ratio of trials per judge in the state.

Pinellas County is projected to rank third in the state on the combined factors of filings, dispositions, trials, attorneys, and population per judge. The last new county court judgeship was created in Pinellas County in 1979 and that was the only new county judgeship created in the circuit since 1976. Among urban counties, Pinellas is projected to rank second in jury trials per judge.

The bases of our certification of an additional circuit judge are the high ratio of population per judge, the great increase in projected population growth, the large number of attorneys in the circuit, and the geographic considerations relating to travel time within the circuit in view of the five primary and two satellite courthouses. Travel distances and traffic conditions between courthouse locations are factors which make it difficult to transfer judges among locations. Additionally, there has been a 14 percent increase in Circuit Court jury trials between 1982 and 1983 compared to the statewide average increase of 3 percent. As noted above, Pinellas County has a very high ratio of jury trials per county court judge, and, therefore, county court judges are not readily available to assist with circuit court jury trials. We note that the circuit does not appear to rank particularly high in its ratio of filings per judge but this may be due to reporting errors which administrative staff, recently available to the circuit, is expected to correct.

*Eighth Judicial Circuit* (Alachua, Baker, Bradford, Gilchrist, Levy, and Union Counties). The Eighth Circuit currently has eight circuit and nine county court judges. The need for one additional circuit judgeship was certified last year. We recertify that need.

The circuit has experienced a large percentage increase in filings since 1981, and filings continue to significantly exceed dispositions. Eight state correctional institutions are located in the circuit, and geographically the circuit is one hundred miles long and fifty miles wide. One county court judge is a nonlawyer. County court judges who are eligible to assist with circuit case load are used regularly for this purpose.

*Ninth Judicial Circuit* (Orange and Osceola Counties). The Ninth Circuit currently has eighteen circuit and twelve county court judges. The need for one additional circuit judgeship was certified last year. We recertify that need. In addition, we certify the need for a county court judge in Orange County.

The circuit is projected to rank third in ratio of attorneys per judge and has a high overall projected ranking of the combined factors of filings, dispositions, trials, attorneys, and population per judge. There has been a significant growth in population since 1975, and that trend is expected to continue. The circuit also has a large transient and tourist population.

Orange County is projected to be ninth in combined county court rankings of filings, dispositions, trials, attorneys, and population per judge and has not had a new county court judge since 1978 despite significant population and tourist increases. Orange County also is projected to have the third highest ratio of trials per judge among urban counties.

*Tenth Judicial Circuit* (Hardee, Highlands, and Polk Counties). The Tenth Circuit currently has thirteen circuit and eight county court judges. The need for one additional circuit judgeship was certified last year. We recertify that need.

Since the circuit is large geographically, intra-circuit travel is very time-consuming. Population growth in the circuit has been high and is expected to continue. The circuit ranks high in its ratio of population per judge. Two of the eight county court judges are not eligible to assist with circuit court case load, and the circuit has made extensive use of retired judges.

*Eleventh Judicial Circuit* (Dade County). The Eleventh Circuit currently has fifty-seven circuit and thirty-two county court judges. The need for two additional circuit as well as three additional county court judgeships was certified last year. We revise that previous certification and certify the need for three circuit and two county court judgeships.

The circuit is projected to rank second in the state in ratio of attorneys per judge. In addition, as we noted last year, the circuit has experienced a significant population increase as well as an influx of migrants. The circuit continues to have a high tourist and transient population. In combined overall ratios, this circuit is projected to rank third. Dade County has evidenced a strong commitment to deal effectively with the area's high crime rate. Since 1980, there has been a 33 percent increase in police officers, and a 48 percent increase in arrests. This has resulted in a significant increase in criminal filings, both at the circuit and county court level. County court judges have been assisting on the circuit bench, with two county court judges assisting almost full-time in the circuit criminal division. With high county court case loads, they must now attend to their own dockets which have experienced a dramatic increase in traffic and criminal cases. The certification of three circuit judges should allow at least one county court judge to return to the county bench from his circuit court assignment, thus alleviating the need for one of the county court judges certified last year.

*Twelfth Judicial Circuit* (DeSoto, Manatee, and Sarasota Counties). The Twelfth Circuit currently has eleven circuit and six county court judges, with three county court judges in Sarasota County. The need for an additional county court judgeship was certified for Sarasota County last year. We recertify that need.

This Court previously certified the need for an additional county court judge in Sarasota County in 1981, 1982, and in 1983. Although the Legislature approved additional circuit judgeships in 1981 and 1982, no county court judgeship has been approved in Sarasota County since 1976. The county court case loads have continued to grow and presently rank near the top in ratio of filings per judge. Sarasota County is projected to rank first in combined overall ratios. Circuit court judges cannot assist in county court due to the ever-increasing circuit court case load. The Twelfth Circuit is projected to rank seventh in ratio of filings per circuit judge, fourth in ratio of population per circuit judge, and seventh in combined overall ratios.

*Thirteenth Judicial Circuit* (Hillsborough County). The Thirteenth Circuit currently has twenty-five circuit and ten county court judges. The need for an additional circuit as well as an additional county court judgeship was certified last year. We recertify that need.

The circuit has a high overall ranking in the combined factors of filings, dispositions, attorneys, and population per circuit judge. Hillsborough County ranks near the top in the state in its crime rate, and the county is also near the top in total county court filings. The circuit has received only one new circuit judge since 1979 and one county court judge since 1973. Although there is a current need for these additional judges, space limitations currently exist that would make it impractical to have them in place during 1984. New construction will resolve this problem by April 1985, and the new judges should be allowed to take office at that time.

*Fifteenth Judicial Circuit* (Palm Beach County). The Fifteenth Circuit currently has twenty-one circuit and ten county court judges. The need for two additional county court judgeships was certified last year. We recertify that need and additionally certify the need for one circuit judge.

The circuit has experienced a significant population increase and has a large tourist population. Projections for 1985 are for a 50 percent increase over 1975 population. The circuit is projected to rank fifth in the combined factors of filings, dispositions, trials, attorneys, and population per circuit judge. Significantly, it is projected to have the third highest ratio of trials per circuit judge. There is a need for additional county court resources since there has been only one new county court judge approved since 1979, and because the county is projected to rank first in county court filings per judge and second in combined overall ratios. Palm Beach County is also projected to rank first among urban counties in ratio of trials per county judge.

*Seventeenth Judicial Circuit* (Broward County). The Seventeenth Circuit currently has forty-one circuit and seventeen county court judges. The need for two additional county court judges was certified last year. We recertify that need. Broward County is projected to rank fourth in overall combined ratios of filings, dispositions, attorneys, trials and population per county judge. Only two new county court judgeships have been created since 1979. Between 1980 and 1983 there has been a 20 percent increase in local law enforcement personnel among the eight largest law enforcement agencies in the county.

For the first time since 1975 and for only the second time since 1972, the circuit has not requested additional circuit court judgeships. We take particular note of the actions which have been taken by the Seventeenth Circuit in lieu of a request for new judgeships and in response to a report on pending case loads by the State Courts Administrator's Office which we requested in last year's certification opinion. These actions, which evidence a sincere commitment to the effective and efficient operation of the circuit, include:

1. Issuance of an administrative order requiring the use of a uniform motion calendar.
2. The use of Nova law students to help purge old case files and to remove from the pending files cases which have been closed.
3. The issuance of an administrative order reducing jury panel sizes, which will result in a dramatic and significant savings to the state.
4. Implementation of a team concept for maximizing the use of available judicial manpower.
5. The active involvement of individual judges in purging their own card files of inactive cases.
6. Development of a plan to utilize volunteer lawyers to conduct mandatory settlement conferences on pending cases.
7. Development of a plan to increase the availability of courtroom facilities in satellite courts for the purpose of conducting trials.

Improved administration is commendable, and we consider it to be a priority for the state court system. It can, and has, obviated the need for additional circuit court judgeships in the Seventeenth Circuit this year. Dispute resolution, arbitration, settlement conferences, strict continuance policies, and judicial control of dockets are encouraged, and we expect each circuit to apply these and other case management techniques to reduce its need for additional judges. In a state like Florida, however, where there is ever-increasing population and tourist growth, a need to certify additional judges in future years in the Seventeenth Circuit and elsewhere will develop, notwithstanding optimum case management systems.

*Eighteenth Judicial Circuit* (Brevard and Seminole Counties). The Eighteenth Circuit currently has fourteen circuit and eight county court judges. The need for one additional county court judge for Seminole County was certified last year. We recertify that need.

As we previously pointed out, Seminole County has not had a new judgeship since 1976, and the circuit has received only one new circuit judge since 1972. Population growth has been substantial, with a high number of tourists passing through Seminole County on their way to the Disney World area. The county ranks near the top in ratio of filings per judge, and is projected to rank seventh in overall combined ratios.

*Nineteenth Judicial Circuit* (Indian River, Martin, Okeechobee, and St. Lucie Counties). The Nineteenth Circuit currently has eight circuit and six county court judgeships. The need for one additional circuit and one additional county court judgeship was certified last year. We recertify that need.

The circuit is projected to be tied for first in overall combined ratios and has shown a significant population increase which is expected to continue. The circuit also ranks high in ratio of trials per judge. Due to the size of the circuit, 2,423 square miles, travel time is considerable. One of the county court judges is a nonlawyer. Indian River County has one of the highest ratios of county court filings per judge in the state, has not had a new county court judgeship since article V was adopted, and is projected to rank fourth in overall combined ratios.

*Twentieth Judicial Circuit* (Charlotte, Collier, Glades, Hendry, and Lee Counties). The Twentieth Circuit currently has eleven circuit and nine county court judges. The need for one additional circuit judgeship was certified last year. We recertify that need.

The circuit ranks high in population per judge, has a high ratio of trials per judge, and is projected to be tied for first in overall combined ratios. Three of the county court judges are nonlawyers and cannot assist on the circuit bench. The circuit covers a large geographic area and has experienced an increasing number of complex criminal cases. The circuit is projected to have a 68 percent population growth between 1975 and 1985.

**CERTIFICATION**

Accordingly, pursuant to article V, section 9, Florida Constitution, we certify the need for six additional district court of appeal judgeships, fourteen additional circuit court judgeships, and thirteen additional county court judgeships for fiscal year 1984-1985. These judicial officers are necessary for the proper administration of justice, and we recommend they be made permanent and funded by the state. These new judgeships should become effective August 1, 1984, with the exception of the additional circuit and county court judgeships certified for the Thirteenth Judicial Circuit (Hillsborough County) which should become effective April 1, 1985, due to presently existing space limitations.
