

**Sales Tax Reform Worksheet**  
**Analysis of Impact for a Florida Household**

Calculate for yourself how the Senate's tax reform proposal will affect you and your family.

Below are a series of household spending categories along with information on the average family's annual spending for each category. Next to these numbers is a column for you to add your own estimates of what you and your family spend.

When you finish, the worksheet will automatically calculate the sales tax you now pay and what you would pay under the tax reform proposal.

Spending Categories	Average spending by a U.S. family	Estimated spending by your family	Current sales taxes you pay @ 6%	Sales taxes you will pay under the new 4.5% program	Net Impact
Food away from home (ie. restaurant meals)	\$ 2,280	\$	- \$	- \$	-
Soft drinks	\$ 265	\$	- \$	- \$	-
