II. SUBSTANTIVE ANALYSIS:

A. PRESENT SITUATION:

**Unemployment Contributions (Taxes)**

Chapter 443, Florida Statutes, the Unemployment Compensation Law, is administered by the Florida Department of Labor and Employment Security, Division of Unemployment Compensation. One of the division's primary responsibilities is collecting state unemployment compensation taxes which are immediately deposited into the U.S. Treasury where they are held in trust solely for the payment of unemployment benefits.

The standard tax rate is set at 5.4 percent for the first \$7,000 in wages paid to each employee. New employers, however, are taxed at the initial rate of 2.7 percent until they have been in existence for a sufficient time period and have met the other requirements for experience rating. Tax rates for experience-rated employers may be reduced from the standard rate based on their experience with unemployment. Generally, the more benefits paid to an employer's former workers, the higher the employer's tax rates, and vice versa. The minimum tax rate is statutorily set at 0.1 percent.

The 1997 Legislature enacted a one-year tax reduction (Chapter 97-29, Laws of Florida) to be applied during the 1998 calendar year. The legislation called for a 0.5 percent reduction for experience-rated employers except those having an assigned rate of 5.4 percent or greater for more than 36 months. New employer tax rates were also reduced from 2.7 percent to 2.0 percent. The tax cut was projected to reduce state unemployment tax collections by roughly \$162 million for the 1998 calendar year..

**Weekly Benefits**

Unemployment benefits are available to eligible workers who become unemployed through no fault of their own. Weekly benefits are calculated by dividing the individual's highest quarter earnings by 26. The minimum weekly benefit amount is statutorily set at \$32 and is capped at \$275. Depending on the individual's work history, he/she may collect regular unemployment benefits for a maximum of 26 weeks (six months). This yields a pre-tax wage replacement rate of 50 percent for individuals with annual wages up to \$28,600.

**Disqualification**

The Unemployment Compensation Law contains various provisions requiring the disqualification of individuals for benefits based on the circumstances that caused the unemployment. Section 443.101(1)(a), F.S., provides for the disqualification of an individual if the individual's unemployment was caused by his/her voluntarily quitting work without good cause attributable to the employer. An individual who is disqualified for voluntarily quitting cannot receive benefits until such individual becomes reemployed and earns income equal to at least 17 times his/her weekly benefit amount.

In 1981, Florida's second District Court of Appeal held in *Neese v. Sizzler Family Steak House*, 404 So.2d 371 (Fla. 2d DCA 1981), that an individual is not totally disqualified for benefits when he/she works a full-time and part time job simultaneously, qualifies for partial unemployment benefits based on being laid off by the full-time employer, then subsequently quits the part-time job. The court ruled that, in such instances, the individual is entitled to partial benefits which is equal to the weekly benefit amount reduced by what the individual would have earned had he/she continued the part-time employment. The district courts have continued to follow the *Neese* decision, despite legislative amendment in 1994 aimed at overturning *Neese*.

**TIP Program**

The Florida Training Investment Program (TIP) extends unemployment benefit eligibility to dislocated workers who meet specific criteria provided in s. 443.231, F.S. The program is scheduled to expire on June 30, 1999.

B. EFFECT OF PROPOSED CHANGES:

**Tax Reduction**

The bill proposes to reinstate the 1998 unemployment tax reduction for calendar year 2000. New employer tax rates would be reduced from the initial rate of 2.7 percent to 2.0 percent. Rated employer tax rates would be reduced by 0.5 percent, with the exception of those employers who have been assigned a tax rate of 5.4 percent or higher for more than 36 months.

**Disqualification**

The bill would overturn *Neese* and its progeny (*Berger v. ASOLO Center for the Performing Arts, Inc.*, 686 So.2d 649 (Fla. 2d DCA 1996); *Alderman v. Unemployment Appeals Commission*, 664 So.2d 1160 (Fla. 5th DCA 1995); *Tierney v. Florida Unemployment Appeals Commission*, 640 So.2d 154 (Fla. 2d DCA 1994); *Stewart v. Dollar Tree*, 635 So.2d 73 (Fla. 1st DCA 1994); *Coelho v. Balasky*, 631 So.2d 335 (Fla. 3d DCA 1994) by requiring the total disqualification of individuals who work a full-time and part-time job simultaneously qualify for partial benefits based on being separated from the full-time employer, and subsequently quit the part-time job.

**Benefit Increase**

The bill would provide a 5 percent increase in weekly benefits for the first 8 weeks of a claim with benefit years beginning January 1, 2000 through December 31, 2000.

**TIP Program**

The bill would reauthorize the TIP program until June 30, 2002.
