I. SUMMARY:

The bill transfers certain provisions relating to recreational saltwater fishing licenses from chapter 370 to chapter 372, Florida Statutes, thereby consolidating requirements for hunting, freshwater fishing, and saltwater fishing licenses and permits into one statutory chapter.

The bill creates section 372.002, Florida Statutes, to establish legislative intent that Florida's citizens have a right to hunt, fish, and take game subject to regulations and restrictions prescribed by general law and contained in the State Constitution.

The bill provides for technical cross-reference corrections, authorizes the FWCC to establish a statewide-automated license system using competitive bid procedures, and repeals outdated provisions of Florida Statutes.

The bill provides that the act takes effect on July 1, 2002.

On February 5, 2002, the House Natural Resources & Environmental Protection Committee unanimously adopted a "strike-everything" amendment that eliminated the fiscal impact of this bill by removing all license and permit fee increase from the bill. On February 14, 2002, the Council for Ready Infrastructure adopted an amendment to the amendment and made the bill a council substitute.

B. PRESENT SITUATION:

Chapter 370, Florida Statutes

Chapter 370, Florida Statutes, provides for the regulation of Florida's commercial and recreational saltwater fisheries. Section 370.0603, F.S., provides for the Marine Resources Conservation Trust Fund (MRCTF) and establishes the purposes for which the fund may be used. Proceeds to be deposited into the MRCTF include commercial and recreational saltwater fishing license fees, vessel registration fees, fines, and penalties assessed for violations of saltwater fishing provisions, and fees for special saltwater permits. Section 370.0605, F.S., provides the Fish and Wildlife Conservation Commission (FWCC) with the authority to issue recreational saltwater fishing licenses and permits, and establishes the fees and conditions under which those licenses and permits can be issued. Types of licenses regulated under this section include annual resident and nonresident fishing licenses, 5-year fishing licenses, lifetime fishing licenses, vessel licenses, and pier licenses. Exemptions from license requirements, and free disability licenses also are provided in this section. Section 370.0608, F.S., provides for the distribution of recreational saltwater fishing licenses and specifies the purposes for which license fees can be expended.

Chapter 372, Florida Statutes

Chapter 372, Florida Statutes, provides for the regulation of Florida's commercial and recreational hunters and freshwater fishers. Section 372.105, F.S., establishes the Lifetime Fish and Wildlife Trust Fund, and provides that with the exception of the saltwater portion of the lifetime sportsman's license, all proceeds from the sale of lifetime licenses authorized in chapter 372 will be deposited into the fund. The principal of the trust fund cannot be expended. Interest income, which can be appropriated to further the mission of the FWCC, can be spent as the respective license holders reach 16 years of age, determined actuarially on an annual basis by the FWCC. Section 372.105, F.S., establishes the Dedicated License Trust Fund and provides that the fund will be credited with revenues collected from the sale of 5-year hunting and freshwater fishing licenses. One-fifth of the revenues in the Dedicated License Trust Fund can be appropriated annually.

Section 372.561, F.S., establishes the FWCC's authority to issues licenses and permits for the taking of wild animal life and freshwater aquatic life. The FWCC is further authorized to issue free

licenses and permits to disabled persons meeting specific criteria. Section 372.57, F.S., establishes the fees for licenses and permits related to recreational hunting and freshwater fishing licenses for residents and nonresidents, and provides the conditions under which a license for hunting or fishing is not required. This section also contains the fees for management area permits, for recreational user fees for lands leased by the FWCC for hunting and fishing, special permits for hunting turkey, and authority for the FWCC to designate free fishing days.

Revenues from the sale of licenses and permits authorized in section 372.57, F. S., are deposited into the State Game Trust Fund, the primary operating fund of the FWCC.

Fees for Licenses and Permits

In addition to the annual hunting licenses, s 372.57, F.S., requires that residents and nonresidents who want to hunt wild turkeys purchase a turkey permit for a fee of \$5, the same as the permit cost when it was created in 1985. Through November 30 of this fiscal year, 11,562 hunters purchased a turkey permit in addition to a hunting license generating revenues of \$57,810.

Section 372.16, F.S., provides for a \$5 annual fee (created in 1929) for persons maintaining a private game preserve or farm that is 640 acres or smaller. Private preserves or farms produce and rear birds and animals for private and commercial purposes. Through November 30, 2001, 213 permits were issued generating a total of \$1,065.

Section 372.661, F.S., provides for a \$25 annual license (created in 1959) to operate private hunting preserves commercially. Through November 30, 2001, 74 hunting preserve licenses were issued generating revenues of \$1,850.

Section 372.921, F.S., establishes the fees for wildlife exhibitor licenses (created in 1967). To exhibit 10 animals or less, the fee is \$5 per year; to exhibit 11 or more animals, the fee is \$25 per year. Through November 30, 2001, 449 licenses for persons exhibiting 10 or fewer animals generated \$2,245, and 1,267 licenses for persons exhibiting 11 or more animals generated \$31,675 in revenue.
