I. Summary:

This bill increases the annual use fee for the Florida Educational specialty license plate from \$15 to \$20.

This bill amends section 320.08056 of the Florida Statutes.

II. Present Situation:

Section 320.08056(4)(h), F.S., provides for a \$15 annual use fee for the Florida Educational specialty license plate. Section 320.08058(8), F.S., provides that Florida Educational specialty license plate use fee revenues are to be distributed annually as follows:

- In each school district that has a district pre-kindergarten through grade 12 public school foundation or a direct-support organization (DSO), the moneys raised in that school district through the sale of Florida Educational license plates must be distributed to the foundation or DSO for enhancing educational programs.
- In each school district that does not have a district pre-kindergarten through grade 12 public school foundation or DSO, the moneys raised in that school district through the sale of Florida Educational license plates must be distributed to the district school board and must be used at the discretion of the board for enhancing educational programs.

The Florida Educational specialty license plate has been available since 1994. According to the Florida Department of Education, over the past ten years, 99,651 new plates have been sold and 241,894 renewals have been issued. As a result, \$5,123,175 has been collected and distributed to

pre-kindergarten through grade 12 public school foundations, direct-support organizations, or school boards for enhancing education programs.

III. Effect of Proposed Changes:

Section 1. The bill amends s. 320.08056(4)(h), F.S., to increase the annual use fee for the Florida Educational specialty license plate from \$15 to \$20.

Section 2. The bill shall take effect July 1, 2004.

2000-2001	41,366
