**I. Summary:**

This bill revises provisions restricting the use of certain colored lights; providing for lights on vehicles owned or leased by private security agencies; and removing reference to watch, guard, and patrol agencies licensed under specified provisions.

This bill substantially amends s. 316.2397 of the Florida Statutes.

**II. Present Situation:**

Current statutes allow “private watch, guard, or patrol agencies licensed pursuant to chapter 493” to display amber colored lights while patrolling condominium, cooperative and private residential and business communities by which employed and which traverse public streets or highways.

**III. Effect of Proposed Changes:**

The bill enables those vehicles “owned or leased by private security agencies” to display green and amber lights while engaged in security duties on private or public property. By striking the current language, “private watch, guard, or patrol agencies licensed pursuant to chapter 493”, the bill allows a broader range of security providers to display green and amber lights. Many private security providers in Florida are proprietary services and not required to be licensed. Such services are authorized by s. 493.6102(4), F.S.

In addition, the bill allows the color green to be displayed by such security vehicles, when current statute only allows the color amber. The bill specifies either color may be no greater than 50 percent of the lights displayed.

The bill also allows security vehicles to display the green and amber lights over an increased area, by allowing the lighted vehicles on “private or public property”.
