1 Representative Mayfield offered the following:

2  
3 **Amendment (with title amendment)**

4 Remove lines 6216-6236 and insert:

5 (2) State shared resource data centers and other data  
6 centers that the Agency for Enterprise Information Technology  
7 has determined will be recipients for consolidating data  
8 centers, which are designated by the Agency for Enterprise  
9 Information Technology, shall evaluate their data center  
10 facilities for energy efficiency using the standards established  
11 in this section.

12 (a) Results of these evaluations shall be reported to the  
13 Agency for Enterprise Information Technology, the President of  
14 the Senate, and the Speaker of the House of Representatives.  
15 Reports shall enable the tracking of energy performance over  
16 time and comparisons between facilities.

Amendment No.

17        (b) By December 31, 2010, and bi-annually thereafter, the  
18 Agency for Enterprise Information Technology shall submit to the  
19 Legislature recommendations for reducing energy consumption and  
20 improving the energy efficiency of state data centers.

21        (3) The primary means of achieving maximum energy savings  
22 across all state data centers and computing facilities shall be  
23 the consolidation of data centers and computing facilities as  
24 determined by the Agency for Enterprise Information Technology.  
25 State data centers and computing facilities in the state data  
26 center system shall be established as an enterprise information  
27 technology service as defined in s. 282.0041. The Agency for  
28 Enterprise Information Technology shall make recommendations on  
29 consolidating state data centers and computing facilities,  
30 pursuant to s. 282.0056, by December 31, 2009.

31        (4) When the total cost of ownership of an energy-  
32 efficient product is less than or equal to the cost of the  
33 existing data center facility or infrastructure, technical  
34 specifications for energy-efficient products should be  
35 incorporated in the plans and processes for replacing,  
36 upgrading, or expanding data center facilities or  
37 infrastructure, including, but not limited to, network, storage,  
38 or computer equipment and software.
