---

Senator Altman moved the following:

**Senate Amendment**

Delete lines 3343 - 3346

and insert:

facilities; to advance aerospace technology to meet the current  
and future needs of the United States commercial space  
transportation industry; and to assist in the development of  
joint-use facilities and technology that support aviation and  
aerospace operations, including high-altitude and suborbital  
flights and range technology development.
