## II. Present Situation:

### **The Board of Governors of the State University System and the University Boards of Trustees**

In 2002, Florida voters approved the ballot initiative, *Local Trustees and Statewide Governing Board to Manage Florida's University System*<sup>1</sup>, which established both the Board of Governors and the university boards of trustees in the State Constitution. Section 7 of Article IX of the State Constitution provides:

- A local board of trustees of 13 members to administer each state university;
- A statewide governing board of 17 members to be responsible for the coordinated and accountable operation of the entire university system; and
- A system structured in such a way as to avoid wasteful duplication of facilities or programs.

Membership of the BOG consists of 14 citizen-appointments by the Governor. Three additional members, specifically identified, are the Commissioner of Education, the chair of the advisory council of faculty senates, or the equivalent, and the Florida student association president. Appointments are subject to Florida Senate confirmation. The Constitution provides for members to serve staggered terms of seven years, as provided by law.

The 2005 Legislature<sup>2</sup> codified the powers and duties of the BOG and the 2007 Legislature<sup>3</sup> extensively revised the statutes clarifying the powers and duties of the BOG and the university boards of trustees. In 2007, a group of Florida citizens and the BOG filed a lawsuit against the President of the Senate and the Speaker of the House of Representatives seeking further clarification of the BOG's constitutional authority over the state university system.<sup>4</sup> On March 22, 2010, the BOG voted to dismiss its claims in the lawsuit, and on March 24, 2010, the Chair of the BOG, the Chancellor of the State University System, legislative leaders and the Governor signed an agreement regarding the shared power of the BOG and the Legislature in governance of the state university system.

### **State University System Governance Agreement**

The agreement acknowledges the Legislature's authority for the state's public education system under s. 1(a), Article IX of the state constitution and the BOG's authority for the state university system under s. 7(c), Article IX of the state constitution. The key elements of the agreement are outlined below:

---

<sup>1</sup> Ballot Initiative Number 01-07, Passed November 5, 2002.

<sup>2</sup> ch. 2005-285, L.O.F.

<sup>3</sup> ch. 2007-217, L.O.F.

<sup>4</sup> *Bob Graham et al v. Ken Pruitt, President of the Florida Senate and Marco Rubio, Speaker of the Florida House of Representatives*, Case No. 2007-CA-1818.

### Governance

- The BOG has exclusive authority for delegating powers and duties to the university boards of trustees;
- The BOG has exclusive authority for the personnel programs of the state universities, except that the BOG must confirm the presidential selection by a university board of trustees, and the Department of Management Services must maintain control over state university employees for state group insurance and state retirement programs;
- The BOG's current authority for regulation of data and technology will be maintained, and state universities will be exempt from the requirements of ch. 282, F.S., regarding technology;
- The BOG will continue to report on and account for the expenditure of funds as required by the Legislature and will provide data to the Legislature as required by general law and by the Legislature; and
- The BOG's accountability initiative, university work plans, and consolidated annual reporting will continue, and the BOG will collaborate with the Legislature on the use of data from these plans and reports.

### Planning and Coordination

- The Chancellor of the State University System, the BOG Chair and the Legislature's presiding officers will hold a higher education strategic planning meeting once each year to discuss significant policy and fiscal matters including budgets, mission alignment, enrollment growth, program expansion, and issues involving entities that have both statewide responsibility and state university system responsibility;
- A Higher Education Coordinating Council will be established to identify unmet needs and to facilitate solutions to disputes regarding the creation of new degree programs and the establishment of new institutes, campuses, or centers;
- The council will make recommendations to the BOG, the State Board of Education and the Legislature concerning articulation, consistent education policy across all educational delivery systems, access to higher education, and transfer of credit;
- The BOG will provide staff to support the work of the council; and
- The council will consist of the following members:
  - The Chancellor of the State University System of Florida;
  - The Chancellor of the Florida College System;
  - The Commissioner of Education;
  - The President of the Independent Colleges and Universities of Florida;
  - The Executive Director of the Commission for Independent Education; and
  - Two members representing the business community, one appointed by the President of the Senate and one by the Speaker of the House of Representatives.

### Rules and Regulations

- The BOG and each university will adopt regulations establishing due process procedures to be accorded to any party whose substantial interests are adversely affected by any final action of the BOG or its constituent universities in the performance of its constitutional duties;
- The BOG's adequate due process procedures adopted by regulation will be published on the BOG and university web sites;

- The BOG will follow the Administrative Procedures Act<sup>5</sup> when adopting rules to implement legislatively delegated authority that arises from the Legislature's general police powers to provide for public health, safety, and welfare or its powers of imminent domain and sovereign immunity, and when the Legislature delegates to the BOG authority for subjects outside the scope of the BOG's constitutional authority; and
- The BOG and the universities will adopt regulations to implement legislative authority in the areas of tuition and fees, management and oversight of state lands, public buildings, and public construction.

#### Tuition and Fees

- The Legislature will establish tuition and the BOG will establish the tuition differential pursuant to law;
- The BOG may approve flexible policies, including block tuition and the charging of market-rate tuition for non-credit, on-line, and continuing education courses, provided such policies and charges do not increase the state's fiscal liabilities or obligations;
- The Legislature delegates to the BOG the authority for fees established in s. 1009.24 (13)(a)-(r), (14), and (15), F.S.;<sup>6</sup>
- The BOG may further delegate to the university boards of trustees fees that are charged to recover the cost of services, fines, and fees;
- A university board of trustees may request and the BOG may approve a new fee or an increase to an existing fee with an established cap;
- When approving a university request for a new fee, the BOG must consider the purpose to be served, whether there is a student-based need for the fee, whether alternative resources are available to meet the need, whether the financial impact on students is warranted in light of other charges assessed to them, and whether restrictions should be placed on the use of the fee; and
- When approving a fee increase, the BOG must consider the services or operations currently being funded by the fee; whether more efficiency could alleviate the need for the fee increase; the additional or enhanced services to be funded by the fee increase, whether alternative resources are available to meet the need, and whether the increase is warranted in light of other charges assessed to students.

#### Financial Aid Programs

- The BOG may establish financial aid programs that may be funded with state funds provided by the Legislature, funds from donors, or a combination of funding sources; and
- The BOG will report and account to the Legislature on all such financial aid programs.

#### **The BOG Strategic Plan**

The BOG adopted the SUS Strategic Plan 2005-2013 on June, 2005. The Board established system goals for 2012-2013 in the following areas:

---

<sup>5</sup> ch. 120, F.S.

<sup>6</sup> The delegated fees are for: application, orientation, security access or ID card, registration, late-payment of tuition, health-related charge, materials and supplies, housing rental, collection efforts, loan service, off campus course offerings, library, duplicating and copying, late return of rental equipment, returned checks, traffic and parking, child care, transcripts and diploma replacement, admissions deposits, and paying tuition in installments.

- Goal 1: Access to and production of degrees
- Goal 2: Meeting statewide professional and workforce needs
- Goal 3: Building world-class academic programs and research capacity
- Goal 4: Meeting community needs and fulfilling unique institutional responsibilities

The Strategic Plan includes mission and vision statements for each constituent university.<sup>7</sup> The university strategic plans and factbooks are available on the BOG website.<sup>8</sup>

The BOG has developed a planning and accountability framework to help maximize the SUS's capacity to meet state economic development needs through education and research and development. The multi-year university work plans and annual reports reflect each institution's unique mission and focus on core strengths within the context of SUS goals and regional and statewide needs. The 2009 Annual Report,<sup>9</sup> the first installment in the process, provides an overview of the system's historical performance on a range of measures, with an emphasis on performance during the last five years for which data are available on any given metric. The report highlights SUS-level performance on key measures and outlines the system's progress on indicators related to the BOG Strategic Plan. The report provides detailed data for the individual institutions.
